Copur, Zeynep, 2015-01-31 In an ever-changing economy, market specialists strive to find new ways to evaluate the risks and potential reward of economic ventures by assessing the importance of human reaction during the economic planning process. The Handbook of Research on Behavioral Finance and Investment Strategies: Decision Making in the Financial Industry presents an interdisciplinary comparative and competitive analysis of the thought processes and planning necessary for individual and corporate economic management. This publication is an essential reference source for professionals, practitioners, and managers working in the field of finance as well as researchers and academicians interested in an interdisciplinary approach to combine financial management, sociology, and psychology.

Microeconomic Foundations: Theory, Application, and Policy Anil Somani, Sunil Kala, In the ever-evolving landscape of economic thought, the significance of microeconomics cannot be overstated. It is within this intricate framework of individual choices, market dynamics, and policy implications that the foundation of economic understanding is laid. Microeconomic Foundations: Theory, Application, and Policy is conceived with the ambition to bridge the realms of theoretical microeconomics and its practical applications, offering a comprehensive guide that navigates through the core principles, contemporary issues, and the multifaceted role of policy in shaping economic outcomes. This book is the culmination of years of teaching, research, and engagement with the practical aspects of microeconomics. It is designed to serve a broad audience, from undergraduate students grappling with the basics of the discipline to graduate scholars exploring advanced concepts and professionals seeking to apply microeconomic principles to real-world scenarios. The genesis of this work lies in the recognition of the need for a text that not only elucidates the theoretical underpinnings of microeconomics but also demonstrates the application of these theories in addressing contemporary economic challenges.

Handbook of the Fundamentals of Financial Decision Making Leonard C. MacLean, William T. Ziemba, 2013 This

handbook in two parts covers key topics of the theory of financial decision making. Some of the papers discuss real applications or case studies as well. There are a number of new papers that have never been published before, especially in Part II. Part I is concerned with Decision Making Under Uncertainty. This includes subsections on Arbitrage, Utility Theory, Risk Aversion, and Static Portfolio Theory and Stochastic Dominance. Part II is concerned with Dynamic Modeling, that is the transition for static decision making to multiperiod decision making. The analysis starts with Risk Measures and then discusses Dynamic Portfolio Theory, Tactical Asset Allocation, and Asset Liability Management Using Utility and Goal Based Consumption Investment Decision Models. A comprehensive set of problems, both computational and review, and many expanding with many unsolved problems are in an accompanying problems book. The handbook plus the book of problems form a very strong set of materials for PhD and Masters courses, both as the main or as supplementary text in finance theory, financial decision making, and portfolio theory. For researchers, it is a valuable resource, being an up to date treatment of topics in the classic books on these topics by Johnathan Ingersoll in 1988 and William Ziemba and Raymond Vickson in 1975, updated 2nd edition published in 2006.
