Return To Isis:

Returning Islamist Foreign Fighters Elena Pokalova, 2019-10-24 This book examines the challenges foreign fighter returnees from Syria and Iraq pose to Western countries. A number of returnees have demonstrated that they are willing to use violence against their home countries and some have already staged terrorist attacks on Western soil on apparent orders from ISIS. Through the historical context of previous waves of mobilizations of Islamist foreign fighters, the author tracks the experiences of returnees from previous conflicts and discusses the major security challenges associated with them. The book analyzes the major approaches implemented by Western countries in response to foreign fighter returnees, discusses the prosecution of returnees and evaluates the corresponding challenges of prison radicalization.

Returning Home Helen Stenger, 2024-12-16 In March 2019, ISIS was territorially defeated. ISIS members were captured and detained: men were sent to prison and women and children to camps in northern Syria. This is an unprecedented situation where, for the first time, thousands of female members of a terrorist group are detained in a foreign country without access to legal mechanisms, rehabilitation or reintegration measures. What happens to the foreign women and children who are not repatriated from the camps? If they are repatriated, are there rehabilitation and reintegration programmes in place that account for the experiences the women had? Most existing rehabilitation and reintegration programmes are gender neutral; that is, they claim to be universal and are not tailored specifically to male or female beneficiaries. Yet typically these programmes are influenced by implicit gender norms and assumptions such as that men are violent perpetrators of aggression and women are victims who are peaceful and lack agency. Alongside gender norms, intersecting racial and religious dynamics also shape how governments handle the repatriation, rehabilitation and reintegration of ISIS returnees. This includes racial profiling, the conflation between Islam and extremism, and more broadly the rising Islamophobia in many countries, particularly since the War on Terror. These dynamics lead to an absence of rehabilitation and reintegration programmes specifically designed for women's diverse experiences, which is the subject of this book. **Returning Home** examines state responses to repatriation, rehabilitation and reintegration of ISIS returnees from an intersectional perspective, with a focus on ISIS women returnees. This book addresses the biased understandings that are built into scholarship and policy responses that reinforce gendered and racialized inequalities. It outlines how these dynamics can be uncovered and redressed by designing policies that are responsive to gender differences, inequalities and harmful norms.

Returning Foreign Fighters: Responses, Legal Challenges and Ways Forward Francesca Capone, Christophe Paulussen, Rebecca Mignot-Mahdavi, 2023-03-24 This book is a follow-up publication to the 2016 volume *Foreign Fighters under International Law* and *Beyond*, zooming in on the responses that the international community and individual States are implementing in response to prospective and actual returning foreign fighters (FFs) and their families, focusing on returnees from Syria and Iraq to European countries. As States and international organisations are still learning by doing, the role of the academic community is to help steer the process by

bridging the divide between international standards and their implementation at the national level and between security concerns and human rights law Furthermore the academic community can and should assist in identifying ways forward that are both effective sustainable and international law compliant Those are ultimately the goals that the present volume seeks to pursue The observations recommendations and warnings included in this book will be useful in future debates on returning FFs both in the academic world and in the world of policy makers and practitioners as well as to the public at large

an introductory text on Syrian history **Insight Turkey 2016 - Spring 2016 (Vol. 18, No.2)** , The Syrian Crisis the bloodiest front of the Arab uprisings and one of the main determinants of policies of regional and global powers has been dominating international politics for the last five years Having caused the death of more than 300 thousand civilians and forced relocation of more than 7 million Syrians it is one of the direst international problems that the global powers must deal with It began as a local issue but after a very short period of time it morphed into a proxy war between regional and global powers Redlines drawn by regional and global actors were crossed yet there has been no tangible reaction to these violations Among others chemical weapons were used crimes against humanity were committed fundamental human rights were repeatedly violated Over time the crisis has revealed limitations and maladies of the actors involved *New Age Magazine* ,1913 **Technical Report** ,1981 *Non-State Armed Actors in the Middle East* Murat Yeşiltaş,Tuncay Kardaş,2017-07-06 This volume investigates the nature and changing roles of the non state armed groups in the Middle East with a special focus on Kurdish Shia and Islamic State groups To understand the nature of transformation in the Middle Eastern geopolitical space it provides new empirical and analytical insights into the impact of three prominent actors namely ISIS YPG and Shia Militias With its distinctive detailed and multi faceted analyses it offers new findings on the changing contours of sovereignty geopolitics and ideology particularly after the Arab Uprisings Overall this volume contributes to the study of violent geopolitics critical security studies and international relations particularly by exploring the ideologies and strategies of the new non state armed actors *Human Rights Law and Counter Terrorism Strategies* Diane Webber,2022-06-17 In 2006 the United Nations urged Member States to ensure that counter terrorism policies guaranteed respect for human rights and the rule of law This book demonstrates that in many cases counter terrorism policies relating to preventive detention targeted killing and measures relating to returning foreign terrorist fighters have failed to respect human rights and this encourages vulnerable people to be drawn towards supporting or committing acts of terrorism Furthermore in recent years jurisprudence and public opinion in some countries have shifted from being at one stage more protective of human rights to an acquiescence that some particularly draconian counter terrorism methods are necessary and acceptable This book analyzes why this has happened with a focus on the United States United Kingdom and Israel and offers suggestions to address this issue The work will be essential reading for students academics and policy makers working in the areas of human rights humanitarian law and counter terrorism *Islamic State as a Legal Order* Federico Lorenzo Ramaioli,2022-04-04 This book explores the legal dimension of the Islamic State an aspect which has hitherto been neglected in the literature ISIS dystopian experience intended as a short lived territorial and political governance has been analyzed from multiple points of view including the geopolitical social and religious ones However its legal dimension has never been properly dealt with in a comprehensive way assuming as a point of reference both the Islamic and the Western legal tradition This book analyzes ISIS as the expression of a potential though never fully realized legal order The book does not describe

ISIS possible classifications according to the standards and the criteria of international law such as its possible statehood or proto statehood issues that are however touched upon Rather it analyzes ISIS own legal awareness based on the group s literary materials which show a considerable amount of juridical work Such material mainly propagandistic in its nature is essential in understanding which kind of legal order ISIS aimed at establishing The book will be of interest to students and academics in the fields of Law International Relations Political Sciences Terrorism Studies Religion and Middle Eastern Studies
