expertise of academics and practitioners who have developed these models and is supported by two major content vendors RavenPack and Thomson Reuters leading providers of news analytics software and machine readable news. The book will appeal to decision makers in the banking finance and insurance services industry. In particular, asset managers, quantitative fund managers, hedge fund managers, algorithmic traders, proprietary program trading desks, sell-side firms, brokerage houses, risk managers, and research departments will benefit from the unique insights into this new and pertinent area of financial modelling.

Martial Divine Emperor Yong Sheng Zhi Lian, 2019-11-18. In the vast mystical world there were thousands of different races that stood side by side. The sky was boundless and there were thousands of different spiritual worlds. There were many heroes in the world as experts continued to imitate legends and pursue the world of pride. The good-for-nothing youth rode the eternal phoenix and entered the martial world. He shook the spirit world laughing arrogantly the entire way. His might shook the entire world as he weaved many shocking legends.

Analysis, Verification and Transformation for Declarative Programming and Intelligent Systems Pedro Lopez-Garcia, John P. Gallagher, Roberto Giacobazzi, 2023-05-16. This Festschrift dedicated to Manuel Hermenegildo on the occasion of his 60th birthday contains papers written by many of his closest collaborators. Manuel received his Ph.D. degree in Computer Science and Engineering from the University of Texas at Austin and among various positions he was an endowed chair in Information Science and Technology at the University of New Mexico. In 2007 he became the founding director of the IMDEA Software Institute where he is now a Distinguished Professor while also a full professor at Universidad Politécnica de Madrid (UPM). He has published more than 300 scientific publications, given numerous keynotes and invited talks at major conferences, coordinated many national and international projects, and served the community in major conference roles, on journal boards, and on funding scientific and research committees. Among his awards are the Julio Rey Pastor prize in Mathematics and Information Science and Technology and the Aritmel prize in Computer Science; he is an elected member of the Academia Europaea and in 2022 he was elected a Fellow of the ACM for contributions to program analysis, verification, parallelism, logic programming, and the IMDEA Software Institute. Throughout his career, Manuel has been at the forefront of the fields of logic programming, constraint programming, parallel programming, program analysis, program transformation, and programming environment design. The contributions in this volume reflect the quality and the scope of his personal and collaborative successes.
