Return To The Moon:

Return to the Moon Harrison Schmitt, 2007-12-28 Former NASA Astronaut Harrison Schmitt advocates a private investor based approach to returning humans to the Moon to extract Helium 3 for energy production to use the Moon as a platform for science and manufacturing and to establish permanent human colonies there in a kind of stepping stone community on the way to deeper space With governments playing a supporting role just as they have in the development of modern commercial aeronautics and agricultural production Schmitt believes that a fundamentally private enterprise is the only type of organization capable of sustaining such an effort and eventually even making it pay off Return to the Moon David Jefferis, Mat Irvine, 2007 After NASA put a man on the Moon the space program switched gears and concentrated on other areas of exploration and research What if we were to return to the Moon today Return to the Moon asks and answers many questions about future space travel to the Moon and its possible colonization Returning People to the Moon After Apollo Pat Norris, 2019-06-04 July 2019 marks 50 years since Neil Armstrong took his famous first steps on the surface of the Moon As people around the world celebrate the anniversary of this great American achievement they might wonder why there have been no further human missions to the Moon since Apollo 17 in 1972 This book assesses the legacy of the Apollo missions based on several decades of space developments since the program s end The question of why we haven t sent humans back to the Moon is explored through a multidisciplinary lens that weaves together technological and historical perspectives The nine manned Apollo missions including the six that landed on the Moon are described here by an author who has 50 years of experience in the space industry and whose work spanned the Apollo 8 13 missions The final section of the book provides a comprehensive assessment of today s programs and current plans for sending humans to the Moon *Softened Moon's Glow: Collective Works* Connie L.
