Dunning, 2019-10-10 Over several decades scholarship in New Testament and early Christianity has drawn attention both to the ways in which ancient Mediterranean conceptions of embodiment sexual difference and desire were fundamentally different from modern ones and also to important lines of genealogical connection between the past and the present The result is that the study of gender and sexuality in early Christianity has become an increasingly complex undertaking This is a complexity produced not only by the intricacies of conflicting historical data but also by historicizing approaches that query the very terms of analysis whereby we inquire into these questions in the first place Yet at the same time recent work on these topics has produced a rich and nuanced body of scholarly literature that has contributed substantially to our understanding of early Christian history and also proved relevant to ongoing theological and social debates The Oxford Handbook of Gender and Sexuality in the New Testament provides a roadmap to this lively scholarly landscape introducing both students and other scholars to the relevant problems

imagine and act on the possibilities for restorative repatriation in the present Its novel combination of historical study with analysis of ongoing dialogues over repatriation is a unique contribution to African studies     Postcolonialism and Development Cheryl McEwan, 2008-11-20 While the possibility of producing a de colonized postcolonial knowledge in development studies became a subject of considerable debate in the 1990s there has been little dialogue between postcolonialism and development However the need for development studies that is postcolonial in theory and practice is now increasingly acknowledged This means recognizing the significance of language and representation the power of development discourse and its material effects on the lives of people subject to development policies It also means acknowledging the already postcolonial world of development in which contemporary reworkings of theory and practice such as grassroots and participatory development indigenous knowledge and global resistance movements inform postcolonial theory Postcolonialism and Development explains reviews and critically evaluates recent debates about postcolonial approaches and their implications for development studies By outlining contemporary theoretical debates and examining their implications for how the developing world is thought about written about and engaged with in policy terms this book unpacks the difficult complex and important aspects of the relationship between postcolonial approaches and development studies making them accessible interesting and relevant to both students and researchers Each chapter builds an understanding of postcolonial approaches their historical divergences from development studies and more recent convergences around issues such as discourses of development knowledge and power and agency within development Up to date illustrations and examples from across the regions of the world bring to life important theoretical and conceptual issues This topical book outlines an agenda for theory and practice within postcolonial development studies and illustrates how while postcolonialism and development pose significant mutual challenges both are potentially enriched by each others insights and approaches     **Extravagant Postcolonialism** Brian T. May, 2014-11-03 Brian T May argues that contrary to widely held assumptions of postcolonial literary criticism a distinctive subset of postcolonial novels significantly values and scrupulously explores a healthy individuality These extravagant postcolonial works focus less on collective social reality than on the intimate subjectivity of their characters Their authors most of whom received some portion of a canonical western education do not subordinate the ambitions of their fiction to explicit political causes so much as create a cosmopolitan rhetorical focus suitable to their western educated western trained audiences May pursues this argument by scrutinizing novels composed during the thirty year postindependence postcolonial era of Anglophone fiction a period that began with the Nigerian Chinua Achebe s Things Fall Apart and that ended many would say with the Ayatollah Khomeini s 1989 publication of the Rushdie Fatwa May contends that the postcolonial authors under consideration Naipaul Rushdie Achebe Rhys Gordimer and Coetzee inherited modernism and refashioned it His account of their work demonstrates how it reflects and transfigures modernists such as Conrad Eliot Yeats Proust Joyce and Beckett Tracing the influence of humanistic values and

charting the ethical and aesthetic significance of individualism May demonstrates that these works of extravagant postcolonialism represent less a departure from than a continuation and evolution of modernism The Routledge Companion To Postcolonial Studies John McLeod,2007-10-09 The Routledge Companion to Postcolonial Studies offers a unique and up to date mapping of the postcolonial world and is composed of essays as well as shorter entries for ease of reference Introducing students to the history of the great European empires and the cultural legacies created in their wake this book brings together an international range of contributors on such topics as the colonial histories of Britain France Spain and Portugal the diverse postcolonial and diasporic cultural endeavours from Africa the Americas Australasia Europe and South and East Asia the major theoretical formulations poststructuralist materialist culturalist psychological With a comprehensive A to Z of forty key writers and thinkers central to contemporary postcolonial studies and featuring historical maps this is both a concise introduction and an essential resource for any student of postcolonial culture whatever their field
