## **Revelation The Future Foretold:**

*Revelation- Teach Yourself the Bible Series* Keith Brooks, 1974-06-01 The Teach Yourself the Bible Series is one of the best New Testament studies you will find anywhere Each book in the series is packed full of valuable questions on individual chapters of the Bible check ups to test your grasp of scriptural truths and usable suggestions for group study Grow in your knowledge of God through each New Testament book then go on to study six aspects of Christianity essential for all believers doctrine prayer eternal life prophecy Christian character and Bible study Revelation is a book for our future because of the hope of Christ's return His return should be an incentive to sanctity and service Study the book of Revelation and understand for yourself our God given future as believers Strengthen your relationship with the living God with all twenty five books of the Teach Yourself the Bible Series Each volume is a timeless yet practical study of the Word of God     *Revelation* Keith Leroy Brooks, 1962     **The Grand Coherence: A Modern Defense of Christianity** Nathanael Smith, 2023-11-21 A

sweeping apologetic work The Grand Coherence starts from first philosophy wrestling with the question of answering the skeptic and how to decide what to believe A preliminary answer to that is based on Bayes Law and convergence of belief in the face of accumulating evidence But that is thrown into confusion by the resurrection of Christ a unique case where one of two extremely improbable beliefs a man rising from the dead or a spontaneous motiveless highly successful hoax must be true The challenge of the resurrection compels us to probe deeply into the origins of worldviews While Bayesian processing of evidence combined with critical reasoning in pursuit of consistency can do much ultimately it takes a dash of Platonism of trust in the reality of ideas to avoid falling into skepticism Science the accumulation of knowledge about physical nature through hypothesis testing has accomplished so much that some are tempted to think it describes everything that there is Yet physics now requires not only a causer for the Big Bang but an explanation of the fine tuning of natural laws to make it suitable for life questions to which God is the only sensible answer And despite the dogmatism of biologists life probably has far too much complexity to be explicable by mere chance based evolution Scientific materialism falls above all to the argument from reason for if physicalist explanations of the mind are accepted reason becomes untrustworthy which in turn pulls the rug out from under scientific materialism It turns out moreover that the scientific natural history of today fits strikingly well with Genesis 1 the days are periods of time not 24 hours and that Darwinian sociobiology combined with the Golden Rule supplies a comprehensive warrant for traditional Christian sexual ethics With certain errors out of the way a searching look at life experience and the natures of things leads to the conviction that the world is intensely good but also vitiated suffering disintegrating This is pre Christianity the commonsense theology of creation and fall yet it is too strange to be believed Why would the good Maker of this good universe let it run down and unravel like that So it's rational to be on the lookout for something different for God to make His move to rescue the world and mankind has believed in all sorts of wild rumors and superstitions in the hope of that But one of the rumors turns out on investigation to be true Jesus Christ the one perfect man

who ever lived rose from the dead And he left behind the Church enduring through the ages in supernatural superiority to all the laws of history We want to be redeemed somehow rescued from the death and disintegration to which we are fated by the laws of this world and God has promised to rescue us though His plans for doing so seem mad And yet in the incomprehensible miracle that God became a man lived and taught and suffered as a man lies the key to hope In a nutshell the argument updates the philosophy of CS Lewis to incorporate scientific and philosophical discoveries since his death

Osborne,2018-08-23 A comprehensive examination of the links between wisdom literature and prophecy The book is divided into four sections The first addresses methodological concerns such as identifying wisdom identifying potential sociological spheres for wisdom and prophecy in the ancient Near East and recognizing potential textual relationships The second examines the role of wisdom in the prophetic corpus more broadly in a book by book analysis of biblical texts first examining the role of wisdom in the prophetic corpus of the Hebrew Bible The third section looks at elements of prophecy within the traditional wisdom books such as Job Proverbs and Qoheleth Finally the book continues the conversation by providing two concluding chapters that evaluate critique engage and raise new questions that Hebrew Bible scholars will need to wrestle with as the search for the relationship between wisdom and prophecy moves forward      *Future Glory* Ed
