Revelation And Theology:

Theology of Revelation Gabriel Moran, 1966 **Theology of Revelation** Domenic Marbaniang, 2012-12-21 The book is a study of the theology of revelation in the writings of seven modern theologians viz Charles Hodge Karl Barth Emil Brunner Harold DeWolf Millard J Erickson J Rodman Williams and Donald G Bloesch It also includes a concluding chapter by the author on the theology of revelation **A Brief Theology of Revelation** Colin E. Gunton, 2005-07-15 Professor Gunton asks whether there is more to be said for the motion of Christianity as a revealed religion than some of the more simplified recent treatments allow He analyses the concept of revelation illustrating its importance for understanding even beyond religious purposes He contends that natural theology and natural revelation are distinct categories and examines why they are so often confused He considers revelation in relation to scripture and tradition and the nature of inspiration **Revelation Theology** Avery Dulles, 1969 **Theology of Revelation** René Latourelle, 1966 For all who are deeply concerned about the relevance of revelation this book is a bonanza This is one of the best theological books of our time America The Divine Revelation Paul Helm, 2004 The Holy Scriptures are fundamental for Christianity providing the basis for faith and morality They are supremely important because they contain divine revelation Christians speak of them as the Word of God In this study Paul Helm an experienced philosopher brings his expertise to bear on such expressions as infallible Word of God and propositional revelation which are in common usage in contemporary Christianity His aim is to help Christians know what they are claiming when they use these a similar words and phrases He has performed an indispensable task for all who take the Bible seriously Paul Helm is J I Packer Professor in Theology and Philosophy at Regent College in Vancouver British Columbia Formerly he was Professor of the History and Philosophy of Religion at King s College He has also served as President of the British Society for the Philosophy of Religion He the author of many books including The Providence of God Calvin and the Calvinists and Eternal God **The Theology of the Book of Revelation** Richard Bauckham, 1993-03-04 The Book of Revelation is a work of profound theology But its literary form makes it impenetrable to many modern readers and open to all kinds of misinterpretations Richard Bauckham explains how the book s imagery conveyed meaning in its original context and how the book s theology is inseparable from its literary structure and composition Revelation is seen to offer not an esoteric and encoded forecast of historical events but rather a theocentric vision of the coming of God s universal kingdom contextualised in the late first century world dominated by Roman power and ideology It calls on Christians to confront the political idolatries of the time and to participate in God s purpose of gathering all the nations into his kingdom Once Revelation is properly grounded in its original context it is seen to transcend that context and speak to the contemporary church This study concludes by highlighting Revelation s continuing relevance for today Revelation and Theology Ronald F. Thiemann, 2005-11-01 Arguing that the Christian doctrine of revelation is necessary for understanding the prevenience of God s grace Ronald Thiemann defends the doctrine of revelation by focusing on the identity and reality of the promising God

depicted in the biblical narrative According to Thiemann The crisis of revelation has occurred within a cultural context decisively marked by radical pluralism The modern defender of God s reality must seek to show how God is both in relation and prior to those human concepts by which we seek to grasp his reality He or she must do so by an argument which resists the reduction of theology to anthropology In analysis of such diverse thinkers as John Locke Friedrich Schleiermacher and Thomas Torrance Thiemann criticizes the epistemological foundationalism adopted by theologians to provide theoretical justification for the divine origins of Christian beliefs He argues that the doctrine of revelation must be seen as an account supporting the intelligibility and truth of a set of Christian convictions His notion of the narrated promise reveals God s prevenience as promiser and humanity as recipient of the promise In an examination of the Gospel of Matthew Thiemann shows how the biblical narrative identifies God as the God of promise and invites the reader to participate in God s prevenient reality

Revelation and Reason: The Christian Doctrine of Faith and Knowledge Emil Brunner, 1946

The Doctrine of Revelation Gabriel J. Fackre, 1997 This book ventures a new interpretation of revelation The author discusses the major themes in the narrative of revelation engaging critically with four of the century s giants in theology Karl Barth Paul Tillich Karl Rahner and Carl Henry These represent the four major phases in the narrative of revelation and Fackre addresses these alternative views in twentieth century theology through in depth inquiry and critical analysis The Doctrine of Revelation challenges reductionist views and strives for an ecumenical understanding that appropriates the insights from a variety of schools of thought

The Philosophy of Revelation Herman Bavinck, 2003-10-09 In addition to exegetical biblical and systematic theology there is room also for a philosophy of revelation which will trace the idea of revelation both in its form and in its content and correlate it with the rest of our knowledge and life writes the author one of the most distinguished Reformed theologians of the twentieth century Theological thought has always felt the need of such a science Thus Philosophy of Revelation first published in 1909 is part of the same discipline and heritage as James Orr s The Christian View of God and the World 1893 and Gordon Clark s A Christian View of Men and Things 1952 Bavinck deals with the relationship between revelation and in chapters 2 3 philosophy 4 nature 5 history 6 religion 7 Christianity 8 religious experience 9 culture and 10 the future He contends that the word cannot be explained without God that the natural and social sciences presuppose metaphysics and that none of the subjects under consideration here is intelligible or meaningful apart from special revelation

The Joy of Hearing Thomas R. Schreiner, 2021-11-17 Join New Testament scholar Thomas Schreiner as he explores the meaning and purpose of the book of Revelation The book of Revelation can feel more intimidating to read than other books of the Bible It invites readers into a world that seems confusing and sometimes even strange golden lampstands seven seals a dragon and a rider on a white horse But at its core Revelation is a message of hope written to Christians facing hardship and it s worth the effort to read it and understand it In this first volume in the New Testament Theology series trusted scholar Thomas Schreiner walks step by step through the book of Revelation considering

its many themes the opposition believers face from the world the need for perseverance God as sovereign Creator Judge and Savior as well as its symbolic imagery and historical context The Joy of Hearing brings clarity to the content and message of Revelation and explores its relevance for the church today **God, Creation, and Revelation** Paul King Jewett, Marguerite Shuster, 1991 A theology that is real readable and relevant such is Paul Jewett's God Creation and Revelation Writing from a distinctively evangelical and Reformed viewpoint Jewett offers a general systematic introduction to these doctrines of the Christian church how we know God revelation and Scripture who God is the divine nature what God is like the divine attributes and what God has done creation While upholding the historic Christian faith Jewett's approach to Christian teaching is uniquely neo evangelical in that he seeks to expound and clarify orthodox Christianity for twentieth century Christians Jewett purposely sets forth his systematic theology in light of scientific and social issues that confront the church in the contemporary world Throughout the book Jewett also refers to literary masterpieces and to the church's hymns giving the reader a greater appreciation for the theological treasures in our literature and our hymnody The culmination of nearly forty years of study and teaching this book adeptly balances the philosophical efforts needed in systematic theology with the biblical material in which Christian doctrines are rooted and it covers well the range of theologies from the early fathers to the Scholastics from the Reformers to liberation and feminist theologians Interspersed throughout the text are useful addenda and excurses which provide further detailed treatment of specific topics An unusual feature of God Creation and Revelation is Jewett's inclusion of eight sermons by Dr Marguerite Shuster a former student of his Believing that theology and preaching must go together Jewett has strategically placed these sermons throughout the book as creative examples of how to preach Christian doctrines **The Enigma of Divine Revelation** Jean-Luc Marion, Christiaan

Jacobs-Vandegeer, 2020-03-04 This volume explores the possibilities and pressures of the language of revelation on human understanding How can we critically account for divine self disclosure in the linguistically mediated world of human concerns Does the structure of interpretation limit the language of revelation Does revelation open up new horizons of critical interpretation The volume brings together theologians who approach the interactions of revelation and hermeneutics with different perspectives including various forms of phenomenology and comparative theology It approaches the theme of revelation central as it is to the theological endeavour from several angles rather than a single methodological program Dealing as it does with revelation and understanding the volume addresses the foundational issues at stake in the challenges around change identity and faithfulness currently facing the church **Revelation and Theology**, 1968 *Revelation* Amos Yong, 2021-09-14 The book of Revelation stands as one of the most challenging and inspiring in the Christian canon While giving rise to much unhelpful speculation its core message of the active sovereignty of God in a hostile world has given courage and comfort throughout Christian history In this volume Amos Yong analyzes the message of Revelation to its earliest readers and speaks to its ongoing meaning for believers today The volumes in the Belief series offer a fresh and

invigorating approach to all the books of the Bible Building on a wide range of sources from biblical studies and the Christian tradition renowned scholars focus less on traditional historical and literary angles in favor of a theologically focused commentary that considers the contemporary relevance of the text Why then and why now are overarching questions asked throughout the volumes in the series *Revelation* Gerald O'Collins,2016 Since the late 1980s the theme of God s self revelation has been treated only briefly in Christian theology at times simply ignored and often confused with biblical inspiration Revelation Towards a Christian Theology of God s Self Revelation lays out its basic characteristics and begins by distinguishing between revelation in the primary sense a living encounter with God s self disclosure and in the secondary sense statements of faith derived from that encounter or propositional revelation It considers revelation as transforming and informing as being sacramental or mediated through words and deeds as communicated through an endless variety of means and mediators as related to but distinct from biblical inspiration and truth and as reaching those of other faiths or of no faith at all Gerald O Collins skilfully distinguishes between past or foundational revelation present or dependent revelation and future or eschatological revelation He expounds with ecumenical sensitivity the complex relationship between tradition and scripture O Collins moves into controversial areas by insisting that the divine self revelation takes place only when received by human faith and that outside revelation there is no salvation extra revelationem nulla salus This volume offers a coherent account of God s self revelation which can serve as a basis for all that follows in theology and for dialogue with those who follow other living faiths or none at all O Collins extends and enriches what he has proposed in earlier books and articles about the characteristics of God s self revelation Revelation (THNTC) John Christopher Thomas, Frank D. Macchia ,2016 The book of Revelation is perhaps the most theologically complex and literarily sophisticated text in the New Testament In this commentary John Christopher Thomas and Frank Macchia make the brilliant but challenging text of Revelation more accessible and easier to understand on its own terms rather than as a futuristic prophecy In addition to their literary exegetical and theological analysis of the text they offer sustained theological essays on the book s most significant themes and issues accenting especially the underappreciated place of the Holy Spirit in the theology of the book **Revelation and Religion** Herbert Henry Farmer,1954 **Revelation and Theology** H. Martin Rumscheidt,2011-08-15 The Barth Harnack exchange is remarkably relevant to contemporary contestations of the proper method of Christian theology and its relation to the historical and social scientific study of religion The reissue of this translation together with the expert analysis and assessment of H Martin Rumscheidt is a welcome event David Fergusson Professor of Divinity and Principal of New College University of Edinburgh
