Otherworld Journeys Carol Zaleski, 1988-11-03 Dozens of books articles television shows and films relating near death experiences have appeared in the past decade People who have survived a close brush with death reveal their extraordinary visions and ecstatic feelings at the moment they died describing journeys through a tunnel to a realm of light visual reviews of their past deeds encounters with a benevolent spirit and permanent transformation after returning to life Carol Zaleski's Otherworld Journeys offers the most comprehensive treatment to date of the evidence surrounding near death experiences The first to place researchers findings first person accounts and possible medical or psychological explanations in historical perspective she discusses how these materials reflect the influence of contemporary culture She demonstrates that modern near death reports belong to a vast family of otherworld journey tales with examples in nearly every religious heritage She identifies universal as well as culturally specific features by comparing near death narratives in two distinct periods of Western society medieval Christendom and twentieth century secular America This comparison reveals profound similarities such as the life review and the transforming after effects of the vision as well as striking contrasts such as the absence of hell or punishment scenes from modern accounts Mediating between the debunkers and the near death researchers Zaleski considers current efforts to explain near death experience scientifically She concludes by emphasizing the importance of the otherworld vision for understanding imaginative and religious experience in general **Seeing Sodomy in the Middle Ages** Robert

Mills, 2024-05-31 During the Middle Ages in Europe some sexual and gendered behaviors were labeled sodomitical or evoked the use of ambiguous phrases such as the unmentionable vice or the sin against nature How though did these categories enter the field of vision How do you know a sodomite when you see one In Seeing Sodomy in the Middle Ages Robert Mills explores the relationship between sodomy and motifs of vision and visibility in medieval culture on the one hand and those categories we today call gender and sexuality on the other Challenging the view that ideas about sexual and gender dissidence were too confused to congeal into a coherent form in the Middle Ages Mills demonstrates that sodomy had a rich multimedia presence in the period and that a flexible approach to questions of terminology sheds new light on the many forms this presence took Among the topics that Mills covers are depictions of the practices of sodomites in illuminated Bibles motifs of gender transformation and sex change as envisioned by medieval artists and commentators on Ovid sexual relations

in religious houses and other enclosed spaces and the applicability of modern categories such as transgender butch and femme or sexual orientation to medieval culture Taking in a multitude of images texts and methodologies this book will be of interest to all scholars regardless of discipline who engage with gender and sexuality in their work
