Reverse Tradition Postmodern Fictions And The Nineteenth Century Novel:

Reverse Tradition Robert Kiely, 1993 Reverse Tradition invites the reader of postmodern fiction to travel back to the nineteenth century novel without pretending to let go of contemporary anxieties and expectations What happens to the reader of Beckett when he or she returns to Melville Or to the enthusiast of Toni Morrison who rereads Charlotte Bronte While Robert Kiely does not claim that all fictions begin to look alike he finds unexpected and illuminating pleasures in examining a variety of ways in which new texts reflect on old In this engaging book Kiely not only juxtaposes familiar authors in unfamiliar ways he proposes a countertradition of intertextuality and a way to release the genie of postmodernism from the bottleneck of the late twentieth century Placing the reader's response at the crux he offers arresting new readings by pairing among others Jorge Luis Borges with Mark Twain and Maxine Hong Kingston with George Eliot In the process he tests and challenges common assumptions about transparency in nineteenth century realism and a historical opacity in early and late postmodernism

Contingencies and Masterly Fictions Lauren Watson,2020-05-22 This book establishes deconstructive dialogues between texts which are generically chronologically and stylistically very different Each chapter aligns one of Dickens s later novels with a work of contemporary literature and a post structuralist theoretical text Working from the premise of Derrida s contre the relationship developed between these texts is not so much intertextual as countertextual each text re enacts the procedures of its counterparts simultaneously rearticulating and interrogating their status In this triangular mode of reading the contact zone between countertexts becomes the site on which new readings are generated readings that use the ambivalent relationship between writings to mark an analogous self difference within writing itself This productive self difference is described as a negotiation of the contradictory drives of signification a strategic management of the masterly and the contingent This book argues that Dickens s texts perform their negotiations in an acutely strenuous manner amplifying instability and exposing the means of literary production This lack of discipline proves contagious as the

reader re enacts the text s spasmodic shifts between mastery and contingency As surrogate Dickensian readers in the countertextual economy the contemporary novel and post structuralist theory also display this instability an effect which allows this study to develop not only a theory of poetics but a poetics of theory This dramatic self difference is not simply restricted to writing however In later chapters this study examines how racial and gender identities are also marked by ambivalence and how their instability is exacerbated after contact with a Dickensian centre In conclusion the work is itself submitted to a Dickensian reading The author examines how the study s own manoeuvres have been exposed through contact with many of the texts analysed within it and how this dialogue deconstructs the ideal of academic writing

'Since at least Plato ...' and Other Postmodernist Myths M. Devaney, 1997-08-04 *Since at Least Plato and Other Postmodernist Myths* surveys the fields of theories of postmodernism and criticizes some of the most common claims found in them about philosophy science and the relationship and literary techniques to metaphysics epistemology and political ideologies Devaney finds the accounts offered by these theories of concepts ranging from the law of noncontradiction to relativity and the Uncertainty Principle to be as ill informed as they are pervasive Devaney shows how the use to which these accounts have been put in constructing the story of the progression from realism to postmodernism to modernism flattens out both the history of ideas and the history of literature
