*In the Long Run We're All Dead* Timothy Lewis, 2007-10-01 Canadian politics in the 1990s were characterized by an unwavering focus on the deficit At the beginning of the decade it seemed that fiscal deficits were intractable a fait accompli of Canadian politics yet by the end of the decade Ottawa had taken remarkable actions to eliminate its budgetary shortfalls and had successfully eradicated its deficits How such a radical change of political course came to pass is still not well understood In *The Long Run We're All Dead* The Canadian Turn to Fiscal Restraint offers the first comprehensive scholarly account of this vital public policy issue Lewis deftly analyzes the history of deficit finance from before Confederation through Canada's postwar Keynesianism to the retrenchment of the Mulroney and Chrétien years In doing so he illuminates how the political conditions for Ottawa's deficit elimination in the 1990s materialized after over 20 consecutive years in the red and how the decline of Canadian Keynesianism has made way for the emergence of politics organized around balanced budgets This important book provides scholars and students of Canadian politics with a new framework by which to understand the adoption of government policy the economic and fiscal legacy of the Mulroney administrations and the emergence of the new politics of the surplus It will be of great interest to those engaged with Canadian politics political economy and public policy as well as to participants in policy processes and the informed public

Networks, Alliances and Partnerships in the Innovation Process John de la Mothe, Albert N. Link, 2012-12-06 In an era of intense knowledge based globalization and technology based competition the central role of networks alliances and partnerships is now becoming recognized By looking at the dynamics of these strategic organizational activities leading authors in the field examine in this book how firms align themselves how they use networks and enter into partnerships in order to develop new or radically improved processes and how they introduce new or radically improved products to the market The topic excludes as the primary interest spatial effects such as those found in geographic clusters or in regional

innovation systems The focus here is instead on the innovation process and therefore examines framework issues about how we can assess networks of innovators measurement issues for both researchers and official statisticians and impact issues for both industry strategists and policy makers Using an evolutionary perspective and drawing on a range of disciplines Networks Partnerships and Alliances explores important issues at the conceptual methodological and comparative levels concerning the construction of comparative advantage *If You're So Smart, Why Aren't You Happy?* Raj

Raghunathan, 2016-04-26 The first book by the creator of COURSERA's most popular online course in 2015 A Life of Happiness and Fulfillment Could the same traits that drive your career success also be keeping you from being happier Fifteen years after getting his MBA Raj Raghunathan spent some time with his old classmates He noticed that though they'd all done well there didn't appear to be much correlation between their academic success and career success What Raj found even more curious was the even smaller correlation between career success and what he calls life success The greater the career success the more unhappy out of shape harried and distracted his friends were If intelligence helps with decision making smart people should naturally make better life choices So why are so many of the smartest brightest most successful people profoundly unhappy Raj set out to find an answer to this problem and extensively researched happiness not just of students and business people but also stay at home parents lawyers and artists among others If You're So Smart Why Aren't You Happy takes readers on a fun and meaningful tour of the best research available on how some of the very determinants of success may also come to deflate happiness Raghunathan explores the seven most common inclinations that successful people need to overcome and the seven habits they should adopt instead Among his surprising findings The correlation between wealth and happiness is much smaller than you'd expect it to be Generosity is not only a key to happiness but a determining factor of long term success Appreciating uncertainty rather than seeking full control of outcomes is necessary for happiness If You're So Smart Why Aren't You Happy will give you a powerful new perspective on your work personal goals and relationships whether you're already successful or just starting out **Money, Markets, and Mobility** Robert A.

**Humanizing the Economy** John Restakis, 2010-09-01 How the largest social movement in history is making the world a better place At the close of the twentieth century corporate capitalism extended its reach over the globe While its defenders argue that globalization is the only way forward for modern democratic societies the spread of this system is failing to meet even the most basic needs of billions of individuals around the world Moreover the entrenchment of this free market system is undermining the foundations of healthy societies caring communities and personal wellbeing *Humanizing the Economy* shows how co operative models for economic and social development can create a more equitable just and humane future With over 800 million members in 85 countries and a long history linking economic to social values the co operative movement is the most powerful grassroots movement in the world Its future as an alternative to corporate capitalism is explored through a wide range of real world examples including Emilia Romagna s co operative economy of in Northern Italy Argentina s recovered factory movement Japan s consumer and health co operatives Highlighting the hopes and struggles of everyday people seeking to make their world a better place *Humanizing the Economy* is essential reading for anyone who cares about the reform of economics globalization and social justice John Restakis has been active in the co op movement for 15 years He is the Executive Director of the BC Co operative Association and has been a consultant for co op development projects in Africa and Asia A pioneering researcher on co operative economies he writes and lectures on economic democracy and the role of co operatives in humanizing economies      *Theory and Methods in Comparative Policy Analysis Studies* Iris Geva-May, B. Guy Peters, Joselyn Muhleisen, 2020-06-09 Volume One of the Classics of Comparative Policy Analysis *Theory and Methods in Comparative Policy Analysis Studies* includes chapters that apply or further theory and methodology in the comparative study of public policy in general and policy analysis in particular Throughout the volume the chapters engage in theory building by assessing the relevance of theoretical approaches drawn from the social sciences as well as some which are distinctive to policy analysis Other chapters focus on various comparative approaches based on developments and

challenges in the methodology of policy analysis Together this collection provides a comprehensive scholastic foundation to comparative policy analysis and comparative policy studies Theory and Methods in Comparative Policy Analysis Studies will be of great interest to scholars and learners of public policy and social sciences as well as to practitioners considering what can be learned or facilitated through methodologically and theoretically sound approaches The chapters were originally published as articles in the Journal of Comparative Policy Analysis which in the last two decades has pioneered the development of comparative public policy The volume is part of a four volume series the Classics of Comparative Policy Analysis including Theories and Methods Institutions and Governance Regional Comparisons and Policy Sectors Each volume showcases a different new chapter comparing domains of study interrelated with comparative public policy political science public administration governance and policy design authored by the JCPA co editors Giliberto Capano Iris Geva May Michael Howlett Leslie A Pal and B Guy Peters *Analyse de Politiques* ,2003 **Still Renovating** Greg Suttor,2016-11-01 Social housing public non profit or co operative was once a part of Canada s urban success story After years of neglect and many calls for affordable homes and solutions to homelessness housing is once again an important issue In Still Renovating Greg Suttor tells the story of the rise and fall of Canadian social housing policy Focusing on the main turning points through the past seven decades and the forces that shaped policy this volume makes new use of archival sources and interviews pays particular attention to institutional momentum and describes key housing programs The analysis looks at political change social policy trends housing market conditions and game changing decisions that altered the approaches of Canadian governments their provincial partners and the local agencies they supported Reinterpreting accounts written in the social housing heyday Suttor argues that the 1970s shift from low income public housing to community based non profits and co ops was not the most significant change highlighting instead the tenfold expansion of activity in the 1960s and the collapse of social housing as a policy priority in the 1990s As housing and neighbourhood issues continue to flare up in municipal provincial and national politics Still Renovating is a valuable resource on Canada s distinctive legacy in affordable housing

**Cahiers de la Femme** ,2004 **A Canadian Priorities Agenda** France St-Hilaire,Christopher T. S. Ragan,Jeremy Leonard,2007 Rising income inequality has been at the forefront of public debate in Canada in recent years yet there is still much to learn about the economic forces driving the distribution of earnings and income in this country and how they might evolve in the future With research showing that the tax and transfer system is losing the ability to counteract income disparity the need for policy makers to understand the factors at play is all the more urgent Income Inequality provides a comprehensive review of Canadian inequality trends including changing earnings and income dynamics among the middle class and top earners wage and job polarization across provinces and persistent poverty among vulnerable groups The Institute for Research on Public Policy IRPP in collaboration with the Canadian Labour Market and Skills Researcher Network CLSRN presents new evidence by some of the country s leading experts on the impact of skills and education

unionization and labour relations laws as well as the complex interplay of redistributive policies and politics over time Amid growing anxieties about the economic prospects of the middle class Income Inequality will serve to inform the public discourse on inequality an issue that ultimately concerns all Canadians *Top Incomes Over the Twentieth Century* A. Carson, Ms. Claudia Helene

Dziobek, Mr. Charles Enoch, 2002-09-25 This book brings together the experience of central banks and national statistical agencies in countries that focus their monetary policy on inflation targets Inflation targeting has led to a close interface between these two sets of institutions When the performance of a central bank is measured in terms of specified price indices which are usually compiled and disseminated by the national statistical agency the role of national statistical agencies becomes central to the credibility of monetary policy Data needs and uses have also shifted with implications for national and international statistics compilation market data have gained in importance less emphasis is placed on traditional monetary aggregates and greater attention is paid to timeliness adherence to sound economic accounting standards and other aspects of data quality **Active Labor Market Policies and Unemployment Insurance in Selected Countries** Jiyeun

Chang, 2002 **Social Progress and Sustainable Development** Neil Thin, 2002 Clearly defines the social aspect of sustainable development Suggests steps for international development agencies to mainstream policy Have you ever wondered why the term sustainable development is usually associated with the economic environmental and social components but the social components are the least well defined Neil Thin explores the diverse meanings of these social components of sustainable development He offers steps we can take to mainstream social development policy so we can better plan social progress communicate about objectives and strategies and assess social change He argues that social accountability must be an integrated set of concerns not a marginalized responsibility of specialists It must transcend time and spaces taking into account not only those who are close to us but distant strangers and future generations as well

Dimensions of Inequality in Canada David A. Green, Jonathan R. Kesselman, 2011-11-01 Is Canada becoming a more polarized society Or is it a kind hearted nation that takes care of its disadvantaged This volume closely examines these differing views through a careful analysis of the causes trends and dimensions of inequality to provide an overall assessment of the state of inequality in Canada Contributors include economists sociologists philosophers and political scientists and the discussion ranges from frameworks for thinking about inequality to original analyses using Canadian data to assessments of significant policy issues methodologies and research directions What emerges is the most detailed picture of inequality in Canada to date and disturbingly one that shows signs of us becoming a less just society An invaluable source of information
