

The Joy of JavaScript

Luis Atencio

JavaScript is at the heart of web applications on the browser side and, via the popular Node.js runtime, it often powers the server side too. Simply put, the web runs on JavaScript.

The Joy of JavaScript introduces techniques that turn JavaScript programmers into JavaScript pros. You'll work with cutting edge APIs, language features, and coding styles to tackle tricky problems in an elegant manner. Along the way, you'll practice good object design, drive business logic with functional thinking, and untangle complex data flows.

What's Inside

- JavaScript's objects and module system
- Working with higher order functions
- Identifying and creating composable software
- Preparing for upcoming JavaScript features

Written for experienced and passionate JavaScript developers.

Luis Atencio is a software engineer for Citrix Systems, author of Manning's *Functional Programming in JavaScript*, and co-author of Manning's *RxJS in Action*.
