Story offers a major contribution to the subject of medieval cultural exchanges focusing on the degree to which Frankish ideas and concepts were adopted by Anglo Saxon rulers Furthermore by concentrating on the secular context and concepts of secular government as opposed to the more familiar ecclesiastical and missionary focus of Levison s work this book offers a counterweight to the prevailing scholarship providing a much more balanced overview of the subject Through this reassessment based on a close analysis of contemporary manuscripts particularly the Northumbrian sources Dr Story offers a fresh insight into the world of early medieval Europe
