Lanham, 2006 True to its title Revising Prose is about revising not about original composition It will not teach you how to pray for inspiration marshal your thoughts or find the willpower to glue backside to chair All writers face these dragons in their own idiosyncratic ways But revision belongs to the public domain Anyone can learn it Revising Prose teaches you how using a simple rule based eight step process called The Paramedic Method that concentrates on turning the bureaucratic official style so common today in business and government writing into plain English Its focus on the individual sentence enables you to identify the surplus verbiage what Lanham calls the Lard Factor in an effort like this The history of new regulatory provisions is that there is generally an immediate resistance to them And turn it into this People usually resist new regulations A Lard Factor of 69% Lanham s method aims to eliminate 50% from most writing to create a sentence half as long and twice as strong A saving of 50% in writing time in reading time in paper and screen space in human patience and understanding it all adds up to real money It also adds up to a more persuasive and amiable presentation of self as Revising Prose argues in its final chapter **Analyzing Prose** Richard Lanham, 2003-06-26 This second edition of the classic linguistics text provides a basic descriptive terminology for prose style

What is a noun style A verb style A hypotactic or a paratactic one How does the running style differ from the periodic style What do high middle and low prose style mean How might one apply the classical terminology of rhetorical figures to prose analysis Analyzing Prose supplies detailed carefully charted answers to these questions in order to teach the student of prose style how and where to begin
