Smart Growth and Sustainable Transport in Cities Amir Shakibamanesh, Mahshid Ghorbanian, Seyed Navid Mashhadi Moghadam, 2019-09-23 This book delves into the urban planning theory of smart growth to encourage the creation of smart cities where compact urban spaces are optimized to create transit oriented pedestrian and bicycle friendly areas with a clear focus on developing a sustainable humanistic transport system Over the last century increased demographic changes and use of motor vehicles in the wake of urbanization led to the rapid expansion of cities giving rise to economic social and environmental problems Sprawls and extension into natural areas caused a scattered urban context replete with empty spaces This book provides an effective solution to this with an overview of the historical application of smart growth principles as a response to the issue of sprawling cityscapes and sheds light on the theoretical information and methodologies used by cities to re develop the urban landscape It also encloses a checklist for practitioners and decision makers to inform the developmental process and integrate smart growth strategies into land use planning This book

effectively engages with the global problem of urban sprawl in cities and hence will be an asset to both urban planning professionals and graduate and postgraduate students of urban studies and the related disciplines Urban and Regional Policies for Metropolitan Livability Michael S Hamilton, Patricia Sue Atkins, 2014-12-18 In today's public policy arena the regional level is gaining increased attention as problems in policy and service delivery continue to spill over traditional urban government boundaries This authoritative work focuses on the growing role of regions in addressing and resolving local governance problems Urban and Regional Policies for Metropolitan Livability provides a concise up to date and systematic treatment of the problems and issues involved in urban and regional policy concerns Each policy chapter is written by a respected expert in the area and the book covers all the key policy issues that confront contemporary metropolitan areas including transportation the environment affordable housing crime employment poverty education and regional governance Each chapter outlines an issue which is followed by current thinking on problem diagnosis and problem solving as well as the prognosis for future policy success When Fracking Comes to Town Sabina E. Deitrick, Ilia Murtazashvili, 2022-01-15 When Fracking Comes to Town traces the response of local communities to the shale gas revolution Rather than cast communities as powerless to respond to oil and gas companies and their landmen it shows that communities have adapted their local rules and regulations to meet the novel challenges accompanying unconventional gas extraction through fracking The multidisciplinary perspectives of this volume's essays tie together insights from planners legal scholars political scientists and economists What emerges is a more nuanced perspective of shale gas development and its impacts on municipalities and residents Unlike many political debates that cast fracking in black and white terms this book's contributors embrace the complexity of local responses to fracking States adapted legal institutions to meet the new challenges posed by this energy extraction process while under resourced municipal officials and local planning offices found creative ways to alleviate pressure on local infrastructure and reduce harmful effects of fracking on the environment The essays in When Fracking Comes to Town tell a story of community resilience with the rise and decline of shale gas production Contributors Ennio Piano Ann M Eisenberg Pamela A Mischen Joseph T Palka Jr Adelyn Hall Carla Chifos Teresa C rdova Rebecca Matsco Anna C Osland Carolyn G Loh Gavin Roberts Sandeep Kumar Rangaraju Frederick Tannery Larry McCarthy Erik R Pages Mark C White Martin Romitti Nicholas G McClure Ion Simonides Jeremy G Weber Max Harleman Heidi Gorovitz Robertson

World Tourism Cities Robert Maitland, Peter Newman, 2014-05-01 This book presents new research on the capacity of big cities to generate new tourism areas as visitors discover and help create new urban experiences off the beaten track It examines similarities and differences in these processes in a group of established world cities located in the global circuits of tourism The cities featured are Berlin New York London Paris and Sydney In these cities experienced city visitors are contributing to the discovery of new places to visit Many neighbourhoods close to the historic centre and to traditional attractions offer the mix of cultural difference and consumption opportunities that can create new experiences for distinctive

groups of city users Each of the cities included in the book offers rich experiences of the re imagining and re branding of neighbourhoods off the beaten track and informative stories of the complex relationships between visitors residents and others and of the ambitions of public policy to reproduce these new tourism experiences in other parts of the city World Tourism Cities brings together current research in each of the cities and relates the often separate field of tourism research to some of the mainstream themes of debate in urban studies addressing topics such as consumption markets and spaces Drawing on original research in this important group of cities this book has significant messages for public policy In addition the book engages directly with a range of important current academic debates about world cities about cities as sites of consumption and about the smaller scales at which urban neighbourhoods are being transformed The range of cities and the messages about the making of attractive places provides a timely resource for those focused in this area and the book will also have an appeal among those experienced and sophisticated city users that it focuses on
