Reviving Lower Manhattan Columbia University. Graduate School of Architecture, Planning, and Preservation. Historic Preservation Program, 1996 *Preserving South Street Seaport* James M Lindgren, 2019-08-27 Preserving South Street Seaport tells the fascinating story from the 1960s to the present of the South Street Seaport District of Lower Manhattan Home to the original Fulton Fish Market and then the South Street Seaport Museum it is one of the last neighborhoods of late 18th and early 19th century New York City not to be destroyed by urban development In 1988 South Street Seaport became the city's 1 destination for visitors Featuring over 40 archival and contemporary black and white photographs this is the first history of a remarkable historic district and maritime museum Lindgren skillfully tells the complex story of this unique cobblestoned neighborhood Comprised of deteriorating 4 5 story buildings in what was known as the Fulton Fish Market the neighborhood was earmarked for the erection of the World Trade Center until New Jersey forced its placement one mile westward After Penn Station's demolition had angered many New York citizens preservationists mobilized in 1966 to save this last piece of Manhattan's old port and recreate its fabled 19th century Street of Ships The South Street Seaport and the World Trade Center became the yin and yang of Lower Manhattan's rebirth In an unprecedented move City Hall designated the museum as developer of the twelve block urban renewal district However the Seaport Museum whose membership became the largest of any history museum in the city was never adequately funded and it suffered with the real estate collapse of 1972 The city bankers and state bought the museum's fifty buildings and leased them back at terms that crippled the museum financially That led to the controversial construction of the Rouse Company's New Fulton Market 1983 and Pier 17 mall 1985 Lindgren chronicles these years of struggle as the defenders of the people oriented museum and historic district tried to save the original streets and buildings and the largest fleet of historic ships in the country from the schemes of developers bankers politicians and even museum administrators Though the Seaport Museum's finances were always tenuous the neighborhood and the museum were improving until the tragedy of 9 11 But the prolonged recovery brought on dysfunctional museum managers and indifference if not hostility from City Hall Superstorm Sandy then dealt a crushing blow Today the future of this pioneering museum designated by Congress as America's National Maritime Museum is in doubt as its waterfront district is eyed by powerful commercial developers While Preserving South Street Seaport reveals the pitfalls of privatizing urban renewal developing museum corporate partnerships and introducing a professional regimen over a people's movement it also tells the story of how a seedy decrepit piece of waterfront became a wonderful venue for all New Yorkers and visitors from around the world to enjoy This book will appeal to a wide audience of readers in the history and practice of museums historic preservation urban history and urban development and contemporary New York City This book is supported by a grant from Furthermore a program of the J M Kaplan Fund Divided We Stand Eric Darton, 2011-08-02 When the World Trade Towers in New York City were erected at the Hudson's edge they led the way to a

Murphy,2016-10-04 At its most basic historic preservation is about keeping old places alive in active use and relevant to the needs of communities today As cities across America experience a remarkable renaissance and more and more young diverse families choose to live work and play in historic neighborhoods the promise and potential of using our older and historic buildings to revitalize our cities is stronger than ever This urban resurgence is a national phenomenon boosting cities from Cleveland to Buffalo and Portland to Pittsburgh Experts offer a range of theories on what is driving the return to the city from the impact of the recent housing crisis to a desire to be socially engaged live near work and reduce automobile use But there s also more to it Time and again when asked why they moved to the city people talk about the desire to live somewhere distinctive to be some place rather than no place Often these distinguishing urban landmarks are exciting neighborhoods Miami boasts its Art Deco district New Orleans the French Quarter Sometimes as in the case of Baltimore s historic rowhouses the most distinguishing

feature is the urban fabric itself While many aspects of this urban resurgence are a cause for celebration the changes have also brought to the forefront issues of access affordable housing inequality sustainability and how we should commemorate difficult history This book speaks directly to all of these issues In *The Past and Future City* Stephanie Meeks the president of the National Trust for Historic Preservation describes in detail and with unique empirical research the many ways that saving and restoring historic fabric can help a city create thriving neighborhoods good jobs and a vibrant economy She explains the critical importance of preservation for all our communities the ways the historic preservation field has evolved to embrace the challenges of the twenty first century and the innovative work being done in the preservation space now This book is for anyone who cares about cities places and saving America s diverse stories in a way that will bring us together and help us better understand our past present and future

Contentious City John Mollenkopf, 2005-08-25 Few public projects have ever dealt with economic and emotional issues as large as those surrounding the rebuilding of lower Manhattan following the terrorist attack of September 11 2001 Picking up the pieces involved substantial challenges deciding how to memorialize one of America s greatest tragedies how to balance the legal claim of landowners against the moral claim of survivors who want a say in the future of Ground Zero and how to rebuild the Trade Center site while preserving the sacredness and solemnity that Americans now attribute to the area All the while the governor the mayor the Port Authority and the leaseholder competed with one another to advance their own interests and visions of the redevelopment while at least leaving the impression that the decisions were the public s to make In *Contentious City* editor John Mollenkopf and a team of leading scholars analyze the wide ranging political dimensions of the recovery process *Contentious City* takes an in depth look at the competing interests and demands of the numerous stakeholders who have sought to influence the direction of the recovery process Lynne Sagalyn addresses the complicated institutional politics behind the rebuilding which involve a newly formed development commission seeking legitimacy a two state transportation agency whose brief venture into land ownership puts it in control of the world s most famous 16 acres of land and a private business group whose affiliation with the World Trade Center places it squarely in a fight for billions of dollars in insurance funds Arielle Goldberg profiles five civic associations that sprouted up to voice public opinion about the redevelopment process While the groups did not gain much leverage over policy outcomes Goldberg argues that they were influential in steering the agenda of decision makers and establishing what values would be prioritized in the development plans James Young a member of the jury that selected the design for the

World Trade Center site memorial discusses the challenge of trying to simultaneously memorialize a tragic event while helping those who suffered find renewal and move on with their lives Editor John Mollenkopf contributes a chapter on how the September 11 terrorist attacks altered the course of politics in New York and how politicians at the city and state level adapted to the new political climate after 9/11 to win elected office Moving forward after the destruction of the Twin Towers was a daunting task made more difficult by the numerous competing claims on the site and the varied opinions on how it should be used in the future Contentious City brings together the voices surrounding this intense debate and helps make sense of the rival interests vying for control over one of the most controversial urban development programs in history A Russell Sage Foundation September 11 Initiative Volume
