political concepts such as sovereignty and balance of powers as well as of the nature of the constitutional order of 1815. Finally it traces the emergence of Belgian nationalism within the discourse of opposition against the government. Stefaan Marteel therefore provides a fresh perspective on the intellectual background of the rise of the nation state in the nineteenth century.

The Cross and the Ballot Ellen Lovell Evans, 1999-06-01 The Cross and the Ballot describes the origins, development and present status of Catholic political parties in Germany, Austria, Switzerland, Belgium and The Netherlands. Its comparative perspective contributes significantly to the current debate over Germany's Sonderweg, that is whether or not German history has taken a special path or unique direction from others. The emergence of a separate political representation for German Catholics was not a deviation from the usual European spectrum but on the contrary was strikingly similar to events in the other four countries. Both the similarities and some notable differences serve to illuminate important aspects of German history.

Le Concept de liberté au Canada à l'époque des Révolutions atlantiques (1776-1838) Michel Ducharme, 2009-12-01 Cet ouvrage revisite l'histoire intellectuelle et politique canadienne entre la révolution américaine et les rébellions de 1837-1838 au Haut et au Bas Canada en la reliant dans le cadre des Révolutions atlantiques qui ont secoué l'Europe et l'Amérique entre 1776 et 1838. Reposant sur un cadre théorique inspiré des travaux des historiens intellectuels du monde atlantique, il traite plus particulièrement de l'importance du concept de liberté dans le développement de l'état dans les deux colonies. Il démontre que ces dernières se sont développées dès 1791 en suivant un idéal de liberté qui tout en étant différent de la liberté l'œuvre au sein des mouvements révolutionnaires de la fin du XVIIIe siècle n'en était pas moins issu des Lumières. Il présente également les rébellions de 1837-1838 comme tant en partie le résultat d'un affrontement entre deux concepts très différents de liberté.

Contested Cities in the Modern West A. Hepburn, 2004-04-07 Cities are close knit communities. When rival ethnic groups develop which refuse to concede predominance, deep conflicts may occur. Some have been managed peacefully as in Brussels and Montreal. Other cases such as Danzig, Gdansk and Trieste have more or less forcefully been resolved in favour of one of the parties. In further cases such as Belfast and Jerusalem, protracted violence has not delivered a solution. *Contested Cities in the Modern West* examines the roles of international interventions, state policies and social processes in influencing such situations, with particular reference to the above cases.

Reconsidering Constitutional Formation I National Sovereignty Ulrike Müßig, 2016-08-18 This open access book can be downloaded from link.springer.com. Legal studies and consequently legal history focus on constitutional documents, believing in a nominalist autonomy of constitutional semantics. *Reconsidering*

Constitutional Formation in the late 18th and 19th century kept historic constitutions from being simply log books for political experts through a functional approach to the interdependencies between constitution and public discourse. Sovereignty had to be believed by the subjects and the political elites. Such a communicative orientation of constitutional processes became palpable in the religious affinities of the constitutional preambles. They were held as creeds of a new order not only due to their occasional recourse to divine authority but rather due to the claim for eternal validity contexts of constitutional guarantees. The communication dependency of constitutions was of less concern in terms of the preamble than the constituents' big worries about government organisation. Their indecisiveness between monarchical and popular sovereignty was established through the discrediting of the Republic in the Jacobean reign of terror and the renaissance of the monarchy in the military resistance against the French revolutionary and later Napoleonic campaigns. The constitutional formation as a legal act of constituting could therefore defend the monarchy from the threat of the people. Albertine Statute 1848 could be a legal decision of a national constituent assembly. Belgian Constitution 1831 could borrow from the old liberties. Polish May Constitution 1791 or try to remain in between by referring to the Nation as sovereign. French September Constitution 1791. C. d. i. z. Constitution 1812. Common to all contexts is the use of national sovereignty as a legal starting point. The consequent differentiation between constituent and constituted power manages to justify the self-commitment of political power in legal terms. National sovereignty is the synonym for the juridification of sovereignty by means of the constitution. The novelty of the constitutions of the late 18th and 19th century is the normativity, the positivity of the constitutional law as one unified law to be the measure for the legality of all other law. Therefore ReConFort will continue with the precedence of constitution. www.reconfort.eu The roots of nationalism Lotte Jensen, 2016-04-15. This collection brings together scholars from a wide range of disciplines to offer perspectives on national identity formation in various European contexts between 1600 and 1815. Contributors challenge the dichotomy between modernists and traditionalists in nationalism studies through an emphasis on continuity rather than ruptures in the shaping of European nations in the period while also offering an overview of current debates in the field and case studies on a number of topics including literature, historiography and cartography. Napoleon's Empire Ute Planert, 2016-01-26. The Napoleonic Empire played a crucial role in reshaping global landscapes and in realigning international power structures on a worldwide scale. When Napoleon died, the map of many areas had completely changed, making room for Russia's ascendancy and Britain's rise to world power. **In the Shadow of the Empress** Nancy Goldstone, 2021-09-21.
