Revolution And Genocide:

Revolution and Genocide Robert Melson,1992 **Revolution and Genocide** Robert Melson,1996-06 In a study that compares the major attempts at genocide in world history Robert Melson creates a sophisticated framework that links genocide to revolution and war He focuses on the plights of Jews after the fall of Imperial Germany and of Armenians after the fall of the Ottoman as well as attempted genocides in the Soviet Union and Cambodia He argues that genocide often is the end result of a complex process that starts when revolutionaries smash an old regime and in its wake try to construct a society that is pure according to ideological standards **Essay** Vahakn N. Dadrian,1994 **Identity Politics in the Age of Genocide** David B. Edward Kissi, 2006-03-20 *Revolution and Genocide in Ethiopia and Cambodia* is the first comparative study of the Ethiopian and Cambodian revolutions of the early 1970s. One of the few comparative studies of genocide in the developing world, this book presents some of the key arguments in traditional genocide scholarship, but the book's author Edward Kissi takes a different position, arguing that the Cambodian genocide and the atrocious crimes in Ethiopia had very different motives. Kissi's findings reveal that genocide was a tactic specifically chosen by Cambodia's Khmer Rouge to intentionally and systematically annihilate certain ethnic and religious groups, whereas Ethiopia's Dergue resorted to terror and political killing in the effort to retain power. *Revolution and Genocide in Ethiopia and Cambodia* demonstrates that the extent to which revolutionary states turn to policies of genocide depends greatly on how they acquire their power and what domestic and international opposition they face. This is an important and intriguing book for students of African and Asian history and those interested in the study of genocide.

Preventing Genocide David A. Hamburg, 2015-11-17 Genocide has been called a problem from hell, and despite vehement declarations of never again, it's a problem that continues to plague the world. From the beginning of history to the most recent massacres in Bosnia, Rwanda, and Darfur, genocide defies resolution. And given today's worldwide access to highly lethal weapons and advanced communications technology facilitating incitement to hate, we can expect to see this problem grow. It is often claimed that genocide occurs without warning, taking both local and global communities by surprise. Yet as David Hamburg convincingly shows, we have had long-term advance knowledge of most modern genocides dating back to the early 20th century: Armenian tragedy in Turkey and before. In this book, Dr. Hamburg applies a groundbreaking new perspective: the medical model of prevention to the scourge of genocide in the world. Preventing genocide is not only possible, Dr. Hamburg contends, but essential, given its high cost in lives, human rights, and international security. Here he maps out numerous practical steps to recognise genocidal conflicts early and stem their tides of violence before they become acute. He also outlines several institutions in place and programs underway at the UN, EU, and NATO devoted to preventing future genocides before they erupt. He draws lessons both from missed opportunities and successful experiences and makes many constructive suggestions about strengthening international institutions, governments, and NGOs for this purpose.

New Directions in Genocide Research Adam Jones, 2012-03-12 This edited book seeks to capture the range of new approaches, theories, and case studies in the field of genocide studies.

The Specter of Genocide Robert Gellately, Ben Kiernan, 2003-07-07 Genocide, mass murder, and human rights abuses are arguably the most perplexing and deeply troubling aspects of recent world history. This collection of essays by leading international experts offers an up-to-date, comprehensive history and analyses of multiple cases of genocide and genocidal acts, with a focus on the twentieth century. The book contains studies of the Armenian genocide, the victims of Stalinist terror, the Holocaust, and Imperial Japan. Several authors explore colonialism and address the fate of the indigenous peoples in Africa, North America, and Australia. As well, there is extensive coverage of the post-1945 period, including the atrocities in the former Yugoslavia, Bali, Cambodia,

Ethiopia Rwanda East Timor and Guatemala The book emphasizes the importance of comparative analysis and theoretical discussion and it raises new questions about the difficult challenges for modernity constituted by genocide and other mass crimes

Genocide, Mass Atrocity, and War Crimes in Modern History James Larry Taulbee, 2017-02-06 Defining genocide as an international crime this two volume set provides a comparative study of historical cases of genocide and mass atrocity clearly identifying the factors that produced the attitudes and behaviors that led to them discusses the reasons for rules in war and examines how the five principles laid out in the Geneva Conventions and other international agreements have functioned in modern warfare Written by an expert on international politics and law Genocide Mass Atrocity and War Crimes in Modern History Blood and Conscience is an easy to understand resource that explains why genocides and other atrocities occur why humanity saw the need to create rules that apply during war and how culture rules about war and the nature of war intersect The first volume addresses the history and development of the normative regimes that define genocide and mass atrocity Through a comparative study of historical cases that pay particular attention to the factors involved in producing the attitudes and behaviors that led to the incidents of mass slaughter and mistreatment the author identifies the reasons that genocides and mass atrocities in the 20th century were largely ignored until the early 1990s and why even starting then

responses were inconsistent The second book discusses why rules in war exist which factors may lead to the adoption of rules what defines a war crime and how the five fundamental principles laid out in the Geneva Conventions and other international agreements have actually functioned in modern warfare It also poses and answers the interesting question of why we should obey rules when our opponents do not The final chapter examines what actions could serve to identify future situations in which mass atrocities may occur and identifies the problems of timely humanitarian intervention in international affairs

State Identities and the Homogenisation of Peoples Heather Rae, 2002-08-15 Why are forced displacement ethnic cleansing and genocide an enduring feature of state systems In this book Heather Rae locates these practices of pathological homogenisation in the processes of state building Political elites have repeatedly used cultural resources to redefine bounded political communities as exclusive moral communities from which outsiders must be expelled Showing that these practices predate the age of nationalism Rae examines cases from both pre nationalist and nationalist eras the expulsion of the Jews from fifteenth century Spain the persecution of the Huguenots under Louis XIV and in the twentieth century the Armenian genocide and ethnic cleansing in former Yugoslavia She argues that those atrocities prompted the development of international norms of legitimate state behaviour that increasingly define sovereignty as conditional Rae concludes by examining two threshold cases the Czech Republic and Macedonia to identify the factors that may inhibit pathological homogenization as a method of state building

Extremely Violent Societies Christian Gerlach,2010-10-14 In this groundbreaking book Christian Gerlach traces the social roots of the extraordinary processes of human destruction involved in mass violence throughout the twentieth century He argues that terms such as genocide and ethnic cleansing are too narrow to explain the diverse motives and interests that cause violence to spread in varying forms and intensities From killings and expulsions to enforced hunger collective rape strategic bombing forced labour and imprisonment he explores what happened before during and after periods of widespread bloodshed in countries such as Armenia Indonesia Bangladesh Nazi occupied Greece and in anti guerilla wars worldwide in order to highlight the crucial role of socio economic pressures in the generation of group conflicts By focussing on why so many different people participated in or supported mass violence and why different groups were victimized he offers us a new way of understanding one of the most disturbing phenomena of our times **Complying with Genocide** E.N.
