Revolution Plus Love Liu Jianmei, 2003-09-30 In the aftermath of the May Fourth movement a growing expectation of revolution raised important intellectual issues about the position of the individual within a society in turmoil and the shifting boundaries of political and sexual identities The theme of revolution plus love a literary response to the widespread insurrections and upheaval was first popularized in the late 1920s In her examination of this popular but understudied literary formula Liu Jianmei argues that revolution and love are culturally variable entities their interplay a complex and constantly changing literary practice that is socially and historically determined Liu looks at the formulary writing of revolution plus love from the 1930s to the 1970s as a case study of literary politics Favored by leftist writers during the early period of revolutionary literature it continued to influence mainstream Chinese literature up to the 1970s By drawing a historical picture of the articulation and rearticulation of this theme Liu shows how changes in revolutionary discourse force unpredictable representations of gender rules and power relations and how women s bodies reveal the complex interactions between political representation and gender roles Revolution Plus Love is a nuanced and carefully considered work on gender and modernity in China unmatched in its broad use of literary resources It will be of considerable interest to scholars and students of modern Chinese literature women s studies cultural studies and comparative literature
Research On Altruism & Love Stephen Post, 2003-05-15 Research

on Altruism and Love is a compendium of annotated bibliographies reviewing literature and research studies on the nature of love. An essay introduces each of the annotated bibliographies. A variety of literature directly related to science and love issues or supporting those issues is covered in the Religious Love Interfaces with Science section. This annotated bibliography is unique in that it approaches the field from a decidedly religious perspective. It includes classical expositions of love that continue to influence contemporary scholars including Plato's work on eros, the work and words of Jesus, Aristotle, Augustine, Hippo, Martin Luther, Kierkegaard, and Gandhi among others. The contemporary discussion includes Anders Nygren's theological arguments in his classic *Agape and Eros*, Pitirim Sorokin, and others. An issue that often emerges in this literature is the question of the nature and definition of love. A second annotated bibliography features current empirical research in the field of Personality and Altruism with a focus on social psychology. Among the topics covered are the altruistic personality, altruistic behavior, empathy, helping behavior, social responsibility, and volunteerism. Methodologies are diverse and studies include experiments, local and national surveys, naturalistic observation, and combinations of these. The Evolutionary Biology annotated bibliography covers the most significant works on altruism and love in the field of biology and evolutionary psychology. The fourth and final annotated bibliography in this volume is entitled *Sociology of Faith Based Volunteerism*. Here the focus is on literature on the interface of helping behavior and religious organizations, as well as major pieces on voluntary associations.

Love and revolution Matt York, 2023-03-21. Based on award winning research, *Love and revolution* brings classical and contemporary anarchist thought into a mutually beneficial dialogue with a global cross section of ecological, anti-capitalist, feminist, and anti-racist activists discussing real life examples of the loving, caring relations that underpin many contemporary struggles. Such a revolutionary love is discovered to be a common embodied experience among the activists contributing to this collective vision manifested as a radical solidarity, as political direct action, as long term processes of struggle, and as a deeply relational more than human ethics. This book provides an essential resource for all those interested in building a free society grounded in solidarity and care and offers a timely contribution to contemporary movement discourse.

Revolution and the Christian Faith Vernon C. Grounds, 2007-05-01. In this stirring book, Grounds has ably sketched the background against which the theology of revolution has emerged. Grounds puts it this way: "I have sought to let the critics of the Establishment, Christian and secular alike, present in their own words the case for revolutionary change. I have also sought to let the revolutionary theologians set forth their interpretation of Christianity in detail. Quite literally, I have allowed them to speak for themselves. I have sought further to let Christian scholars who dissent from this new theology engage its proponents in debate. Very heavily, I have drawn upon the work of Jacques Ellul, the towering French sociologist who is rapidly gaining in the United States the attention and respect which his rare fusion of professional distinction, intellectual power, and biblical commitment deserves. I shall feel amply regarded if through these pages he wins a wider readership among American evangelicals. An additional purpose has been to confront my own ecclesiastical tradition that of
