## **Revolution In Iran The Roots Of Turmoil:**

*Revolution in Iran* Mehran Kamrava, 2016-11-10 Observers of Iran have often ascribed the main cause of the revolution to economic problems under the Shah's regime. This book, first published in 1990, on the other hand focuses on the political and social factors which contributed to the Pahlavi dynasty. Mehran Kamrava looks at the revolution in detail as a political phenomenon, making use of extensive interviews with former revolutionary leaders, cabinet ministers and diplomats to show the central role of the political collapse of the regime in bringing about the revolution. He concentrates on the internal and the international developments leading to this collapse and the social environment in which the revolution's leaders emerged.

*A Century of Revolution* John Foran, 1994 This volume offers a much needed look into the historical social and political developments leading up to the Iranian revolution. Bringing together a group of scholars, historians and social scientists, most of them Iranian in origin, the book documents an extraordinary revolutionary heritage that predates this century. **Shi'i Sectarianism in the Middle East** Elisheva Machlis, 2014-09-17 The eruption of violent sectarianism in Iraq following the US invasion in 2003 brought the question of Sunni-Shi'i relations in the country to the forefront of the international public agenda. It also strengthened the popular belief that contemporary Shi'ism is inherently sectarian. Yet several decades earlier Ayatollah Khomeini had declared an Islamic revolution and downplayed its Shi'i origins and links. So what is the true orientation of Shi'i Islam in the contemporary era and how did modernisation alter its sectarian affiliation? This book contends that early Shi'i reformist thought set the foundations for a more universal oriented Shi'ism. Prominent reformists in the first half of the twentieth century from the holy cities of Karbala and Najaf in Iraq and from the Shi'i centres in Southern Lebanon played a significant role in the renewal of Shi'ism and laid the groundwork for its reinvention in the modern era. Exploring this shift towards a more ecumenical perception of Islam, Elisheva Machlis here provides a fresh perspective on inter-sectarian relations in contemporary Iraq and illuminates the intellectual roots of the Islamic revolution by examining networks of Shi'i scholars such as Muhammad Usayn Khashf al-Ghi and Muhammad Sin al-Amn al-Mil operating within a more globalised Muslim world. Drawing on the experiences of early Shi'i reformists such as Abd al-Usayn Sharaf al-Din al-Musawwi in Lebanon and Muhammad Jawad Mughniyya in Damascus, this book gives new insight on the future of inter-Muslim relations at a time of growing inter-sectarian contention from the Iran-Iraq war to the post-2003 Sunni-Shi'i conflict in Iraq and al-Qaida's anti-Shi'i message taking into account questions of theology, historiography, jurisprudence and politics which all played a vital role in the transition to the contemporary era. The author here analyses the broad scholarly connections between Iran, Iraq and Lebanon in the twentieth century while debating paramount questions of leadership, identity and group membership in the development of modern Shi'ism. Examining the relationship between intellectual thought and socio-political development in the region, this book provides a new perspective concerning the future of an increasingly globalised Muslim world and will prove essential reading for students and specialists. [A History of Social Justice and Political Power in the](#)

Middle East Linda T. Darling, 2013-05-02 From ancient Mesopotamia into the 20th century the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East The Circle of Justice depicts graphically how a government's justice toward the population generates political power military strength prosperity and good administration This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture It explores how people conceptualized and acted upon this powerful insight how they portrayed it in symbol painting and story and how they transmitted it from one regime to the next Moving towards the modern day the author shows how although the Circle of Justice was largely dropped from political discourse it did not disappear from people's political culture and expectations of government The book demonstrates the Circle's relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and suggests how the concept remains relevant in an age of capitalism A must read for students policymakers and ordinary citizens this book will be an important contribution to the areas of political history political theory Middle East studies and Orientalism **From**

**Revolution to War** Patrick J. Conge, 2010-05-25 In the history of international relations few events command as much attention as revolution and war Over the centuries revolutionary transformations have produced some of the most ruinous and bloody wars Nevertheless the breakdown of peace in time of revolution is poorly understood Patrick Conge offers a groundbreaking study of the relationship between war and revolution How can we best understand the effect of revolutionary transformations on the politics of war and peace Conge argues that it is only by bringing in first the organizational capacity of revolutionary regimes to extract resources and convert them into military strength and second the power of transformative ideas to transcend national boundaries and undermine the ability of opposing regimes to compromise that we are best able to understand the effect of revolution on the origins and persistence of war By incorporating such key elements this book provides a new more comprehensive explanation of the relationship between revolution war and peace Conditions that lead to and sustain wars in general are identified and placed in the light of revolutionary transformations Once the argument is presented historical case studies are used to test its plausibility Conge demonstrates the importance of the effect of revolutionary organization and ideas on the outcome of conflicts Political scientists historians sociologists and the general reader interested in the politics of war and peace in revolutionary times are given new perspectives on the relationship between revolution and war as well as on the implications of political organization for military power and the process of consolidation of new regimes Patrick J Conge is Assistant Professor of Political Science University of Arkansas Power,

Islam, and Political Elite in Iran Eva Raket, 2008-11-30 The Iranian Islamic revolution brought about a political system based on a combination of state institutions that derive their legitimacy from Islamic law and republican institutions legitimized by the people As there are no legal political parties in the Islamic Republic of Iran political factions represent the varying ideological and material interests of members of the political elite and their supporters This book analyzes the rivalries

between the political factions and their related state institutions and the impact of the dynamics of factionalism on domestic economic and socio cultural and foreign policy formulation It shows that tensions inherent to the structure of state institutions and factional rivalries slow down the process of democratization and economic reforms in the Islamic Republic of Iran

**Routledge Library Editions: History of the Middle East** Various,2021-08-25 This multi volume set of reissued classics brings together a collection of titles that touch on many key aspects of the history of the Middle East From the early explorers of Arabia to the 1979 revolution in Iran via histories of places as varied as the UAE and Zanzibar the analysis of Nazi policies towards the Arab East and a close reading of the territorial foundations of the Gulf states the books collected here form a wide ranging and eclectic study of the history of the region

**Iran** Haleh Afshar,1985-09-24 **The Sacred Republic** Mehran Kamrava,2023-06-01 This book presents a comprehensive detailed analysis of the establishment evolution and current significance of different institutions in today s Islamic Republic of Iran The volume draws on the insights of a number of Iran experts to examine their establishment functions and evolution as a means of understanding Iranian politics and society The Sacred Republic s specific focus is on the key formal institutions of the state through which the Islamic Republic exercises power namely the velayat e faqih the judiciary the presidency the parliament elections the Revolutionary Guards and the foreign policy establishment Despite significant work on Iranian politics in recent decades few studies have focused on state institutions their resilience or the reasons for and manner of institutional change Through historical institutionalism and comparative historical analysis the contributors to this book together fill a glaring gap in the study of Iran s political institutions offering significant insights for the theoretical literature on comparative politics Middle Eastern politics and Iranian Studies

The Modern Middle East, Third Edition Mehran Kamrava,2013-09-27 From the fall of the Ottoman Empire through the Arab Spring this completely revised and updated edition of Mehran Kamrava s classic treatise on the making of the contemporary Middle East remains essential reading for students and general readers who want to gain a better understanding of this diverse region

**A Dynastic History of Iran** Mehran Kamrava,2022-08-25 Explores the political history of modern Iran considering the myriad factors that facilitated the rise and fall of the last two dynasties

How Armies Respond to Revolutions and Why Zoltan Barany,2020-03-31 An exploration of military responses to revolutions and how to predict such reactions in the future We know that a revolution s success largely depends on the army s response to it But can we predict the military s reaction to an uprising How Armies Respond to Revolutions and Why argues that it is possible to make a highly educated guess and in some cases even a confident prediction about the generals response to a domestic revolt if we know enough about the army the state it is supposed to serve the society in which it exists and the external environment that affects its actions Through concise case studies of modern uprisings in Iran China Eastern Europe Burma and the Arab world Zoltan Barany looks at the reasons for and the logic behind the variety of choices soldiers ultimately make Barany offers tools in the form of questions to be asked and answered that enable analysts to provide the

most informed assessment possible regarding an army's likely response to a revolution and ultimately the probable fate of the revolution itself. He examines such factors as the military's internal cohesion, the regime's treatment of its armed forces and the size, composition and nature of the demonstrations. *How Armies Respond to Revolutions and Why* explains how generals decide to support or suppress domestic uprisings. [A Concise History of Revolution](#) Mehran Kamrava, 2020. From rebellion to revolution. Social movements and revolution. Revolutionary states. Revolutionary politics. *Encyclopaedia of Islam* Ian Richard Netton, 2013-12-19. This Encyclopedia covers the full range of Islamic thought. It takes substantial note of contemporary trends across the Muslim world and the material on historical Islam has contemporary reference. **The Modern Middle East** Mehran Kamrava, 2011-01-03. Since it was first published in 2006, this concise overview of the making of the contemporary Middle East has become essential reading for students and general readers who want to gain a better understanding of this diverse region. Writing for a wide audience, Mehran Kamrava takes us from fall of the Ottoman Empire to today, exploring along the way such central issues as the dynamics of economic development, authoritarian endurance and the Israel-Palestinian conflict. For this new thoroughly revised edition, he has brought the book fully up to date by incorporating events and issues of the past few years. The Modern Middle East now includes information about the June 2009 Iranian presidential elections and their aftermath, changes precipitated so far by the Obama administration, Israel's attack on Gaza in 2008, the effects of globalization on economic development and more. [The Caliph and the Imam](#) Toby Matthiesen, 2023. The authoritative account of the sectarian division that for centuries has shaped events in the Middle East and the Islamic world. In 632, soon after the prophet Muhammad died, a struggle broke out among his followers as to who would succeed him. The majority argued that the new leader of Islam should be elected by the community's elite. Others believed only members of Muhammad's family could lead. This dispute over who should guide Muslims, the appointed Caliph or the bloodline Imam, marks the origin of the Sunni-Shii split in Islam. Toby Matthiesen explores this hugely significant division from its origins to the present day. Moving chronologically, his book sheds light on the many ways that it has shaped the Islamic world, outlining how over the centuries Sunnism and Shiism became Islam's two main branches, particularly after the Muslim Empires embraced sectarian identity. It reveals how colonial rule institutionalised divisions between Sunnism and Shiism, both on the Indian subcontinent and in the greater Middle East, giving rise to pan-Islamic resistance and Sunni and Shii revivalism. It then focuses on the fallout from the 1979 revolution in Iran and the US-led military intervention in Iraq. As Matthiesen shows, however, though Sunnism and Shiism have had a long and antagonistic history, most Muslims have led lives characterised by confessional ambiguity and peaceful co-existence. Tensions arise when sectarian identity becomes linked to politics. Based on a synthesis of decades of scholarship in numerous languages, *The Caliph and the Imam* will become the standard text for readers looking for a deeper understanding of contemporary sectarian conflict and its historical roots.

**Islam and the Post-Revolutionary State in Iran** Homa Omid, 2016-07-27. Her short analysis of the Iranian armed

forces in the 1980s is first rate so too is her much more substantial section on women and the state in Iran As well as offering useful insights into the workings of the Islamic state in Iran this readable book also provides a warning of the struggles ahead in many other Muslim societies Anoushiravan Ehteshami Times Higher Education Supplement Islam has been the driving force shaping the ideology and the power base of the Iranian revolution This volume engages critically with the Islamic perspective and promises offered by the revolution Looking at the rise of the religious institution as a revolutionary force the author observes their post revolutionary policies in the domains of politics economics education the armed forces and women s status In the event the volume demonstrates that the Iranian government has failed to deliver on most if not all of its Islamic pledges

**The Philosophy of Religion in Post-Revolutionary Iran** Heydar Shadi, 2018-11-16 This book explores the intellectual discourse in post revolutionary Iran It focuses on Abdolkarim Soroush a leading Muslim liberal thinker whose theory of religion is regarded as highly relevant to the current theological and intellectual dynamics in the Islamic world The Philosophy of Religion in Post Revolutionary Iran discusses why and how Soroush s thought has developed from an Islamic apologetic modernist theology in the 1970s to a liberal theory about religion in post revolutionary Iran Through a close and detailed analysis of Soroush s main theories the book argues that Soroush s thought evolved through reception of post positivist epistemology and interaction with Islamism in practice into a historicist and pluralist theory of religion a theory that regards religion including Islam as being a contextual and historical dialogue between man and the Absolute The book also highlights some shortcomings of Soroush s reform project Specifically it notes that Soroush consciously or unconsciously has not yet admitted many extensive consequences of his theories such as those relating to historicity of religious rituals ibadat or recognition of the post Mohammadan revelations and religions In addition some other features and implications of Soroush s thought such as a historical critical approach to the Koran post secular and post Islamist theologies and his dialogical approach that goes beyond the Orientalism Occidentalism dichotomy are discussed Providing a detailed overview on this leading Muslim thinker this book will appeal to students and scholars of Islamic Philosophy Middle East Studies and Philosophy of Religion

*Revolutionary Politics* Mehran Kamrava, 1992-12-04 This work examines the causes processes and outcomes of revolutions Preface

**Iran at War** Kaveh Farrokh, 2011-12-20 Following on from his award winning book on the history of ancient Persia Kaveh Farrokh goes on to examine Iran s wartime history from the Safavid dynasty of the 16th and 17th century through to the 1979 Revolution and beyond He shows how the early military successes were followed by centuries of defeat as the external influences of nations like Russia and Britain began to shape the internal history of Iran before unraveling the complex violent 20th century military history of the country which encompasses two world wars regional movements foreign intervention anti government revolts conflicts on the Soviet border a revolution and an eight year war with Iraq Illustrated with contemporary illustrations and photographs this book provides an unparalleled investigation into the bloody martial history of Iran
