Socialism David Lane,2013-11-20 David Lane outlines succinctly yet comprehensively the development and transformation of state socialism While focussing on Russia and the countries of Eastern Europe he also engages in a discussion of the Chinese path In response to the changing social structure and external demands he outlines different scenarios of reform He contends that European state socialism did not collapse but was consciously dismantled He brings out the West s decisive support of the reform process and Gorbachev s significant role in tipping the balance of political forces in favour of an emergent ascendant class In the post socialist period he details developments in the economy and politics He distinguishes different political and economic trajectories of countries of the former USSR the New Member States of the European Union and China and he notes the attempts to promote further change through coloured revolutions The book provides a detailed account not only of the unequal impact of transformation on social inequality which has given rise to a privileged business and political class but also how far the changes have fulfilled the promise of democracy promotion wealth creation and human development Finally in the context of globalisation the author considers possible future political and economic developments for Russia and China Throughout the author a leading expert in the field brings to bear his deep knowledge of socialist countries draws on his research on the former Soviet Union and visits to nearly all the former state socialist countries including China **Directory of European political scientists** European Consortium for Political Research, University of Essex. Compiled and ed. by the Central Services of the ECPR,2016-11-07 No detailed description available for Directory of European political scientists *Alternative Strategies for Economic Development* Keith Griffin,1999-06-30 The question of alternative strategies for economic development is the subject of great controversy and intense debate amongst practitioners and academics concerned with economic and social progress in the Third World The core of this book is an analysis of the six most widely adopted strategies of development namely monetarism the open economy industrialisation the green revolution or agriculture led development redistributive strategies of development and socialist strategies

Reinventing Vietnamese Socialism William S Turley,Mark Selden,2019-07-11 This book presents a variety of disciplinary and theoretical perspectives on the problematic of reform in Vietnam It explores the Vietnam s reforms in

relation to those taking place in other countries of the socialist world comparing doi moi with restructuring in other socialist states **Communism and Reform in East Asia (RLE Modern East and South East Asia)** David S. G.

Goodman,2015-04-10 The West no longer regards communism in East Asia as a threat On the contrary because the communist party states of East Asia appear to be undergoing a process of reform directed primarily at economic modernization it is now regarded as a potential market The West s attitude is reinforced by the recognition of East Asia s economic importance more generally a perception which in itself undoubtedly stimulated reform in the region s communist party states The causes extent and consequences of reform in the East Asian communist party states are the concerns of the contributions to this volume first published in 1988 It includes chapters on the reform process in China North Korea Vietnam and Mongolia as well as examinations of the roles played by both China and the Soviet Union in the Asia Pacific region They demonstrate that a belief in a simple single process of economic and political liberalization brought about by the drive for economic modernization the production imperative is a misleading argument Although the production imperative might act as a stimulus to reform it is neither a sufficient nor even a necessary condition In individual countries the communist party s search for legitimacy a change of leadership or the relationship with the USSR have equally been the spur to reform The drive for economic modernization may even be a consequence of the communist party s desire to reform rather than a cause The absence of a uniform pattern does not detract from the potential consequences of economic and political change These challenge socialist thinking on the nature of collective life ownership and rural society **Routledge Library Editions:**
