**Terrorism** Donald J. Hanle, 2006 Part of the problem of dealing with terrorism is in its definition it is often depicted as something new and totally alien a phantom enemy that cannot be understood But by employing a sophisticated analysis soundly based on an encyclopedic knowledge of military history Donald J Hanle shows that three major forms of terrorism Military Revolutionary and State Sponsored qualify as the newest forms of war The author s in depth investigation reveals that these kinds of terrorists operate in the same basic manner as military forces employed in traditional warfare and have the same basic capabilities and weaknesses He argues convincingly that countermeasures against these types of terrorist organizations should be based upon classical principles of war and combat and suggests countervailing strategies Terrorism The Newest Face of Warfare is a starting point for a sensible and coherent counterterrorism strategy one that enlists a valuable but heretofore neglected Western arsenal the study of military history in the battle against terrorism
