Revolutionists In London A Study Of Five Unorthodox Socialists:

Revolutionists in London James W. Hulse, 1970 Libertarian Thought in Nineteenth Century Britain William R. McKercher, 2016-07-22 This book first published in 1987 aims to characterise and identify the intellectual heritage of the proponents of the libertarian tradition To set this within a theoretical framework these ideas will be examined by using the pragmatic and conceptual formulations of freedom and authority two notions which are central to any understanding of political philosophy in the nineteenth and twentieth century This title will be of interest to students of history philosophy and politics

Karl Pearson Theodore M. Porter, 2010-01-02 Karl Pearson founder of modern statistics came to this field by way of passionate early studies of philosophy and cultural history as well as ether physics and graphical geometry His faith in science grew out of a deeply moral quest reflected also in his socialism and his efforts to find a new basis for relations between men and women This biography recounts Pearson s extraordinary intellectual adventure and sheds new light on the inner life of science Theodore Porter s intensely personal portrait of Pearson extends from religious crisis and sexual tensions to metaphysical and even mathematical anxieties Pearson sought to reconcile reason with enthusiasm and to achieve the impersonal perspective of science without sacrificing complex individuality Even as he longed to experience nature directly and intimately he identified science with renunciation and positivistic detachment Porter finds a turning point in Pearson s career where his humanistic interests gave way to statistical ones in his *Grammar of Science* 1892 in which he attempted to establish scientific method as the moral educational basis for a refashioned culture In this original and engaging book a leading historian of modern science investigates the interior experience of one man s scientific life while placing it in a rich tapestry of social political and intellectual movements

Utopia's Discontents Faith Hillis, 2021-04-16 In April 1917 Lenin arrived at Petrograd s Finland Station and set foot on Russian soil for the first time in over a decade For most of the past seventeen years the Bolshevik leader had lived in exile moving between Europe s many Russian colonies large and politically active communities of migr s in London Paris and Geneva among other cities Thousands of fellow exiles who followed Lenin on his eastward trek in 1917 were in a similar predicament The returnees plunged themselves into politics competing to shape the future of a vast country recently liberated from tsarist rule Yet these activists had been absent from their homeland for so long that their ideas reflected the Russia imagined by residents of the faraway colonies as much as they did events on the ground The 1917 revolution marked the dawn of a new day in Russian politics but it also represented the continuation of decades long conversations that had begun in emigration and were exported back to Russia Faith Hillis examines how migr communities evolved into revolutionary social experiments in the heart of bourgeois cities Feminists nationalist activists and Jewish intellectuals seeking to liberate and uplift populations oppressed by the tsarist regime treated the colonies as utopian communities creating new networks institutions and cultural practices that reflected their values and realized the ideal world of the future in the present The colonies also influenced their European host societies informing

international debates about the meaning of freedom on both the left and the right migrants efforts to transform the world played crucial roles in the articulation of socialism liberalism anarchism and Zionism across borders But they also produced unexpected and explosive discontents that defined the course of twentieth century history This groundbreaking transnational work demonstrates the indelible marks the Russian colonies left on European politics legal cultures and social practices while underscoring their role during a pivotal period of Russian history

The Routledge Companion to Accounting History John Richard Edwards, Stephen P. Walker, 2009-05-07 The Routledge Companion to Accounting History shows how the seemingly innocuous practice of accounting has pervaded human existence in fascinating ways at numerous times and places from ancient civilisations to the modern day and from the personal to the political Placing the history of accounting in context with other fields of study the collection gives invaluable insights to subjects such as the rise of capitalism the control of labour gender and family relationships racial exploitation the functioning of the state and the pursuit of military conflict An engaging and comprehensive overview also examining geographical differences this Companion is split into key sections which explore changing technologies used to represent financial and other data historical development of accounting theory and practice accounting institutions and those who perform accounting accountancy and the economy accounting society and culture the role of accounting in the government protection and financing of states including chapters on the important role played by accountancy in religious organizations a review of how the discipline is portrayed in fine art and popular culture and analysis of sharp practice and corporate scandals The Routledge Companion to Accounting History has a breadth of coverage that is unmatched in this growing area of study Bringing together leading writers in the field this is an essential reference work for any student of accounting business and management and history

Kinship, Community, and Self Jason Coy, Benjamin Marschke, Jared Poley, Claudia Verhoeven, 2014-12-01 David Warren Sabeen was a pioneer in the historical anthropological study of kinship community and selfhood in early modern and modern Europe His career has helped shape the discipline of history through his supervision of dozens of graduate students and his influence on countless other scholars This book collects wide ranging essays demonstrating the impact of Sabeen s work has on scholars of diverse time periods and regions all revolving around the prominent issues that have framed his career kinship community and self The significance of David Warren Sabeen s scholarship is reflected in original research contributed by former students and essays written by his contemporaries demonstrating Sabeen s impact on the discipline of history

Kropotkin Caroline Cahm, 2002-04-18 This book examines Kropotkin as the man who became the chief exponent of the ideas of the European anarchist movement

Age of Assassins Michael Newton, 2012-10-16 These were the crimes that were meant to change the world and sometimes did The book connects the killing of the Kennedys or the murder that sparked the First World War with less well known stories such as the Berlin shooting of an instigator of the Armenian genocide or the attack on an American robber baron Taking in Malcolm X and Queen Victoria Adolf Hitler and Andy Warhol Charles Manson and Emma

Goldman Tsars Presidents and pop stars Age of Assassins traces the process that turned thought into action and murder into an icon In tackling the history of political violence the book is unique in its range and attention to detail summoning up an age of assassination that is far from over **The Oxford Handbook of the History of Terrorism** Carola Dietze, Claudia Verhoeven, 2022 The Oxford Handbook of the History of Terrorism presents a re evaluation of the major narratives in the history of terrorism exploring the emergence and the use of terrorism in world history from antiquity up to the twenty first century The volume presents terrorism as a historically specific form of political violence that was generated by modern Western culture and then transported around the globe where it interacted with and was transformed in accordance with local conditions It offers cogent arguments and well documented case studies that support a reading of terrorism as a modern phenomenon as well as sustained analyses of the challenges involved in the application of the theories and practices of modernity and terrorism to non Western parts of the world both for historical actors and academic commentators

Kropotkin: 'The Conquest of Bread' and Other Writings Petr Alekseevich Kropotkin, 1995-08-10 The Russian anarchist Peter Kropotkin was the world s foremost spokesman of anarchism at the end of the nineteenth and the beginning of the twentieth centuries The Conquest of Bread is his most detailed description of the ideal society embodying anarchist communism and of the social revolution that was to achieve it Marshall Shatz s introduction to this edition traces Kropotkin s evolution as an anarchist from his origins in the Russian aristocracy to his disillusionment with the Russian Revolution and the volume also includes a hitherto untranslated chapter from his classic Memoirs of a Revolutionist which contains colourful character sketches of some of his fellow anarchists as well as an article he wrote summarising the history of anarchism and some of his views on the Revolution **Victorian Fiction Beyond the Canon** Daragh Downes, Trish Ferguson, 2016-12-15

This book is about selected Victorian texts and authors that in many cases have never before been subject to sustained scholarly attention Taking inspiration from the pioneeringly capacious approach to the hidden hinterland of Victorian fiction adopted by scholars like John Sutherland and Franco Moretti this energetically revisionist volume takes advantage of recent large scale digitisation projects that allow unprecedented access to hitherto neglected literary texts and archives Blending lively critical engagement with individual texts and close attention to often surprising trends in the production and reception of prose fiction across the Victorian era this book will be of use to anyone interested in re evaluating the received meta narratives of Victorian literary history With an afterword by John Sutherland **Emma Goldman** Emma

Goldman, 2008-07-16 Emma Goldman A Documentary History of the American Years reconstructs the life of Emma Goldman through significant texts and documents These volumes collect personal letters lecture notes newspaper articles court transcripts government surveillance reports and numerous other documents many of which appear here in English for the first time Supplemented with thorough annotations multiple appendixes and detailed chronologies the texts bring to life the memory of this singular pivotal figure in American and European radical history Volume 1 Made for America 1890 1901

introduces readers to the young Emma Goldman as she begins her association with the international anarchist movement and especially with the German Jewish and Italian immigrant radicals in New York City From early on Goldman s movement through political and intellectual circles is marked by violence from the attempted murder of industrialist Henry Clay Frick by Goldman s lover Alexander Berkman to the assassination of President William McKinley in which Goldman was falsely implicated The documents surrounding these events illuminate Goldman s struggle to balance anarchism s positive gains and its destructive costs This volume introduces many of the themes that would pervade much of Goldman s later writings and speeches the untold possibilities of anarchism the transformative power of literature the interplay of human relationships and the importance of free speech education labor women s freedom and radical social reform [Emma Goldman](#) Emma Goldman,2008-07-16 Reconstructs the life of Emma Goldman through significant texts and documents **Russia in World History** Choi Chatterjee,2022-01-27 Russia in World History uses a comparative framework to understand Russian history in a global context The book challenges the idea of Russia as an outlier of European civilization by examining select themes in modern Russian history alongside cases drawn from the British Empire Choi Chatterjee analyzes the concepts of nation and empire selfhood and subjectivity socialism and capitalism and revolution and the world order in the 19th 20th and 21st centuries In doing so she rethinks many historical narratives that bluntly posit a liberal West against a repressive authoritarian Russia Instead Chatterjee argues for a wider perspective which reveals that imperial practices relating to the appropriation of human and natural resources were shared across European empires both East and West Incorporating the stories of famous thinkers such as Leo Tolstoy Emma Goldman Wangari Maathai Arundhati Roy among others This unique interpretation of modern Russia is knitted together from the varied lives and experiences of those individuals who challenged the status quo and promoted a different way of thinking This is a ground breaking book with big and provocative ideas about the history of the modern world and will be vital reading for students of both modern Russian and world history [The 20th Century A-GI](#) Frank N. Magill,2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography *Resist Everything Except Temptation* Kristian Williams,2020-06-02 Oscar Wilde is remembered as a wit and a dandy as a gay martyr and as a brilliant writer but his philosophical depth and political radicalism are often forgotten Resist Everything Except Temptation locates Wilde in the tradition of left wing anarchism and argues that only when we take his politics seriously can we begin to understand the man his life and his work Drawing from literary historical and biographical evidence including archival research the book outlines

the philosophical influences and political implications of Wilde's ideas on art, sex, morality, violence, and above all individualism. Williams raises questions about the relationships between culture and politics, between utopian aspirations and practical programs, and between individualism, group identity, and class struggle. The resulting volume represents not merely a historical curiosity but a contribution to current debates within political theory and a salvo in the broader culture wars.

The Refugee Question in Mid-Victorian Politics Bernard Porter, 2008-10-30. The British have long boasted of their tradition of asylum for political refugees, but never with more justification than in the nineteenth century when the legal toleration which was accorded them in Britain was nearly absolute. Not only were fugitives of all political complexions allowed into Britain, but there was for most of the century no possible way, no law on the statute book by which they could be kept out. This and the licence which was allowed them to agitate and conspire were greatly resented by the governments from which they had fled, and regretted only a little less by many British ministers who sometimes found it necessary to take measures against them which were of dubious constitutional legality and who wished, and once tried, to amend the law in order to enable them to do more. That effort arising from Orsini's bomb plot in January 1858 resulted in the fall of the government which proposed it, and the loss by its successor of a famous state prosecution, a failure which, as this book argues, was crucial for the maintenance of the practice of toleration thereafter. *Anarchism in the Dramas of Ernst Toller* Michael Ossar, 1980-06-30. This study shows how politics and art intermingled in the life and works of one of the most renowned playwrights of German Expressionism, a man who was in many senses paradigmatic of the non-communist Left in the Weimar Republic. Toller sought to preserve the sanctity of the individual against collectivist assaults from the Right and from the Left, but at the same time to meet the needs of a complex society. Ossar demonstrates that the playwright arrived at solutions that were anarchist in nature, deriving from a long European tradition. This is the first in-depth, book-length study of Toller and his plays published in English. [The French Anarchists in London, 1880-1914](#) Constance Bantman, 2013. Depicts the social and political lives of the few hundred French anarchists exiled in London between 1880 and 1914, and focuses on their transnational political activism, suspected terrorist activities, the police surveillance they were subjected to, and the epoch-making changes in immigration and asylum law which their presence eventually led to. [Before the Revisionist Controversy](#) H. Kendall Rogers, 2015-04-24. In this book, first published in 1992, the author examines the polemic fought by German Social Democratic Party leaders and intellectuals Karl Kautsky and Eduard Bernstein against what they perceived to be misunderstandings of Marxism propagated by members of the Social Democratic Federation (SDF) in England and by the socialist leader Wilhelm Liebknecht in Germany. The debate raised basic questions of socialist theory, including whether the program of Marx and Engels called for scholarly study, parliamentary democracy, and gradual social evolution, or for Utopian speculation, economic collapse, and violent rebellion.
