Revolutionizing Higher Education In Agriculture Framework For Change:

Revolutionizing Higher Education in Agriculture Work Group on Systemic Change in Undergraduate Education in Agriculture (U.S.),1996 This book offers an academic programs approach to rethinking the future mission of land grant colleges and universities and presents a philosophical framework for making curricular changes in all of higher education in agriculture to better prepare graduates for the future Here agriculture is understood to mean the entire scope of the life support system that includes food and fiber natural resources and environmental integrity and the social and economic systems that relate to these areas And at the heart of the ideas presented here is a proposed redefinition of higher education in agriculture as the educational scientific and scholarly framework for the understanding development management and use of biologically and ecologically based systems and relevant human resources systems for the benefit of human and natural societies It is an invaluable resource for building strong vital higher education programs in agriculture for the future

Revolutionizing Higher Education in Agriculture H. O. Kunkel,Chris L. Skaggs,2007-11-19 With the continuous changes of farming methods and policies it is crucial that agricultural education evolves with them pushing towards innovations rather than accepting conventions This book is a call to arms for educators to prepare for the 21st Century and an entirely new set of possibilities

Colleges of Agriculture at the Land Grant Universities Committee on the Future of the Colleges of Agriculture in the Land Grant University System,Board on Agriculture,National Research Council,1996-09-02 Since their inception in 1862 the U S land grant colleges have evolved to become the training ground for the nation s and the world s agriculturists In this book the committee examines the future of the colleges of agriculture in light of changing national priorities for the agricultural food and natural resource system The effects of federal funding constraints also are examined as are opportunities for growth presented by developments in science The committee s preceding volume *Colleges of Agriculture at the Land Grant Universities A Profile* is a compilation of the data that helped formulate the specific questions to be addressed *Colleges of Agriculture at the Land Grant Universities Public Service and Public Policy* is the deliberative report rating conclusions and recommendations for institutional innovation and public policy It addresses these and other questions What education mission should colleges of agriculture adopt and what strategies should they use in light of significant changes in the agricultural complex Research in agriculture is expected to respond to consumer demands environmental concerns world population growth and increasing pressure on agricultural lands Is the century old structure of land grant university based research up to the task What is the role of extension in light of today s smaller farming communities and larger farming conglomerates This volume is the culmination of a landmark evaluation of land grant colleges of agriculture an American institution This document will be of value to policymakers administrators and others involved in agricultural science and education
