**Rewriting Writing** Jo Ray McCuen, Anthony C. Winkler, 1987-01-01 Rewriting Writing Jo Ray McCuen, Anthony C. Perspectives on Plagiarism and Intellectual Property in a Postmodern World Lise Buranen, Alice M. Roy, 1999-04-23 This book offers a wealth of thinking about the complex and often contradictory definitions surrounding the concepts of plagiarism and intellectual property The authors show that plagiarism is not nearly as simple and clear cut a phenomenon as we may think Contributors offer many definitions and facets of plagiarism and intellectual property demonstrating that if defining a supposedly simple concept is difficult then applying multiple definitions is even harder creating practical problems in many realms. This volume exposes the range and breadth of these overlapping and complex issues reflecting a postmodern sensibility of fragmentation and clarifies some of the confusion not by reducing plagiarism to ever simpler definitions and providing new or better rules to apply but by complicating the issue examining what plagiarism and intellectual property are and are not in our more or less postmodern world. This book offers and explains various definitions of plagiarism Issues covered include copyright law and plagiarism imitation and originality in classical rhetoric sociohistorical perspectives and late nineteenth and early twentieth century notions of authorship in student publications and textbooks The authors also offer different applications of these plagiarism definitions in specific arenas including university writing centers administrative settings peer writing groups textbook publishing and the wider marketplace Routledge Handbook of Digital Writing and Rhetoric Jonathan Alexander, Jacqueline Rhodes, 2018-04-27 This handbook brings together scholars from around the globe who here contribute to our understanding of how digital rhetoric is changing the landscape of writing Increasingly all of us must navigate networks of information compose not just with computers but an array of mobile devices increase our technological literacy and understand the changing dynamics of authoring writing reading and publishing in a world of rich and complex texts Given such changes and given the diverse ways in which younger generations of college students are writing communicating and designing texts in multimediated electronic environments we need to consider how the very act of writing itself is undergoing potentially fundamental changes These changes are being addressed increasingly by the emerging field of digital rhetoric a field that attempts to understand the rhetorical possibilities and affordances of writing broadly defined in a wide array of digital environments Of interest to both researchers and students this volume provides insights about the fields of rhetoric writing composition digital media literature and multimodal studies Crowell's Dictionary of English Grammar and Handbook of American Usage Maurice Harley Weseen.1928 Recording for the Blind & Dyslexic, ...
