Rhetoric In Thought And Writing:

Rhetoric in Thought and Writing Edward R. Levy, 1972 **Rhetoric in Thought and Writing** Edward R. Levy, Charlene H. Tibbetts, 1969 The Harper & Row Rhetoric Wayne C. Booth, Marshall W. Gregory, 1987 **Rhetorical Traditions and the Teaching of Writing** C. H. Knoblauch, Lil Brannon, 1984 The argument of this book is that the earliest tradition of Western rhetoric the classical perspective of Aristotle and Cicero continues to have the greatest impact on writing instruction albeit an unconscious impact This occurs despite the fact that modern rhetoric no longer accepts either the views of mind language and world underlying ancient theory or the concepts about discourse knowledge and communication presented in that theory As a result teachers are depending on ideas as outmoded as they are unreflectively accepted Knoblauch and Brannon maintain that the two traditions are fundamentally incompatible in their assumptions and concepts so that writing teachers must make choices between them if their teaching is to be purposeful and consistent They suggest that the modern tradition offers a richer basis for instruction and they show what teaching from that perspective looks like and how it differs from traditional teaching **The Rhetoric of Western Thought** James L. Exploring the Cross-Language Transfer of L1 Rhetorical Knowledge in L2 Writing Xing Wei, 2023-12-02 This book addresses the transfer of rhetorical knowledge from a first language L1 to a second language L1 to L2 rhetorical transfer a common cognitive phenomenon in the L2 writing of students in foreign language learning environments It investigates L1 to L2 rhetorical transfer from a cognitive perspective and examines a specific component of L2 writers agency in this transfer namely metacognition The book s ultimate goal is to enhance our understanding of the cognitive mechanism of rhetorical transfer across languages This goal is in turn connected to the need to determine how L1 rhetorical knowledge can be steered and oriented toward successful L2 writing To this end this book proposes a theoretical framework for transfer studies encompassing the dimensions of text transfer agency and L2 essay raters It facilitates an in depth exploration of the intricacies involved in L1 to L2 rhetorical transfer It then presents empirical studies on this transfer Embracing a dynamic perspective this book furthers our understanding of interlingual rhetorical transfer as a conscious or intuitive process for making meaning one that can be monitored and steered Moreover it discusses the pedagogical implications for L2 writing instruction that guides students to use metacognition to transfer L1 rhetorical knowledge during L2 writing *Gorgias and the New Sophistic Rhetoric* Bruce McComiskey, 2002-01-31 In *Gorgias and the New Sophistic Rhetoric* Bruce McComiskey achieves three rhetorical goals he treats a single sophist s rhetorical techn art in the context of the intellectual upheavals of fifth century bce Greece thus avoiding the problem of generalizing about a disparate group of individuals he argues that we must abandon Platonic assumptions regarding the sophists in general and Gorgias in particular opting instead for a holistic reading of the Gorgianic fragments and he reexamines the practice of appropriating sophistic doctrines particularly those of Gorgias in light of the new interpretation of Gorgianic rhetoric offered in this book In the first two chapters McComiskey

deals with a misconception based on selective and Platonic readings of the extant fragments that Gorgias's rhetorical technique involves the deceptive practice of manipulating public opinion. This popular and ultimately misleading interpretation of Gorgianic doctrines has been the basis for many neosophistic appropriations. The final three chapters deal with the nature and scope of neosophistic rhetoric in light of the non-Platonic and holistic interpretation of Gorgianic rhetoric. McComiskey postulates in his opening chapters. He concludes by examining the future of communication studies to discover what roles neosophistic doctrines might play in the twenty-first century. McComiskey also provides a selective bibliography of scholarship on sophistic rhetoric and philosophy in English since 1900. **Reorienting Rhetoric** John D.

O'Banion, 2010-11-01 *Landmark Essays on Bakhtin, Rhetoric, and Writing* Frank Farmer, 2020-11-25 The essays in this collection give voice to the plurality of approaches that scholars in the field of rhetoric and composition have when they set forth to assimilate Bakhtin for their varied purposes. The collection is arranged in three major sections. The first attempts to capture the most important theoretical extensions of Bakhtin's ideas and does so with an emphasis on what Bakhtin might contribute to the present understanding of language and rhetoric. The next section explores the implications of Bakhtin's work for both disciplinary identity and writing pedagogy. The final section looks at how Bakhtinian thought can be used to bring new light to concerns that his work either does not address or could not have imagined addressing, ranging from writing across the curriculum to feminism and from computer discourse to the writing of a corporation annual report. Together these essays demonstrate how fruitfully and imaginatively Bakhtin's ideas can be appropriated for a context that he could not have anticipated. They also serve as an invitation to sustain the dialogue with Bakhtin in the future so that researchers may yet come to realize the fortuitous ways that Bakhtin will continue to mean more than he said. *The Contemporary Reception of Classical Rhetoric* Kathleen E. Welch, 2013-11-05 Responding to the reassertion of orality in the twentieth century in the form of electronic media such as the telegraph, film, video, computers, and television, this unique volume traces the roots of classical rhetoric in the modern world. Welch begins by changing the current view of classical rhetoric by reinterpreting the existing texts into fluid language contexts, a change that requires relinquishing the formulaic tradition, acquiring an awareness of translation issues, and constructing a classical rhetoric beginning with the Fifth Century B.C. She continues with a discussion of the adaptability of this material to new language situations, including political, cultural, and linguistic change, providing it with much of its power as well as its longevity. The book concludes that classical rhetoric can readily address any situation since it focuses not only on critical stances toward discourse that already exists but also presents elaborate theories for the production of new discourse. **Writing Instruction in Nineteenth-Century**

American Colleges James A. Berlin, 1984-04-30 Defining a rhetoric as a social invention arising out of a particular time, place, and set of circumstances, Berlin notes that no rhetoric—not Plato's or Aristotle's or Quintilian's or Perelman's—is permanent. At any given time, several rhetorics vie for supremacy, with each attracting adherents representing various views.

of reality expressed through a rhetoric Traditionally rhetoric has been seen as based on four interacting elements reality writer or speaker audience and language As emphasis shifts from one element to another or as the interaction between elements changes or as the definitions of the elements change rhetoric changes This alters prevailing views on such important questions as what is appearance what is reality In this interpretive study Berlin classifies the three 19th century rhetorics as classical psychological epistemological and romantic a uniquely American development growing out of the transcendental movement In each case studying the rhetoric provides insight into society and the beliefs of the people
