

A dramatic landscape with a sunset or sunrise over mountains. The sky is filled with orange and yellow clouds, and the sun is visible on the left. The mountains are dark and silhouetted against the bright sky. The quote is overlaid in white text.

Why should there not be a patient confidence
in the ultimate justice of the people? Is there
any better or equal hope in the world? –
Abraham Lincoln, First Inaugural Address.

Rhetoric Of The People Is There Any Better Or Equal Hope In The World:

Rhetoric of the People ,2023-12-18 *Landmark Essays on Rhetorical Criticism* Thomas W. Benson,2020-08-18 This book is an anthology of landmark essays in rhetorical criticism In historical usage a landmark marks a path or a boundary as a metaphor in social and intellectual history landmark signifies some act or event that marks a significant achievement or turning point in the progress or decline of human effort In the history of an academic discipline the historically established senses of landmark are mixed together jostling to set out and protect the turfmarkers of academic specialization aligning footnotes to signify the beacons that have guided thought and against these conservative tendencies attempting to contribute fresh insights that tempt others along new trails The editor has chosen essays for this collection that give some sense of the history of rhetorical criticism in this century especially as it has been practiced in the discipline of speech communication He also emphasizes materials that may illustrate where the discipline conceives itself to be going how it has marked its boundaries how it has established beacons to invite safety or warn us from the rocks and how it has sought to preserve a tradition by subjecting it to constant revision and struggle In the hope of providing some coherence the scope of this collection is limited to rhetorical criticism as it has been practiced and understood within the discipline of speech communication in North America in this century **Manual of Composition and Rhetoric** John Hays Gardiner,George Lyman Kittredge,Sarah Louise Arnold,1907 **Milton and the Literary Satan** Frank S. Kastor,2025-01-27 **Enduring Legacy** W. Stuart Towns,2012-01-09 Explores the crucial role of rhetoric and oratory in creating and propagating a Lost Cause public memory of the American South Enduring Legacy explores the vital place of ceremonial oratory in the oral tradition in the South and analyses how rituals such as Confederate Memorial Day Confederate veteran reunions and dedication of Confederate monuments have contributed to creating and sustaining a Lost Cause paradigm for Southern identity Towns studies in detail secessionist and Civil War speeches and how they laid the groundwork for future generations including Southern responses to the civil rights movement and beyond The Lost Cause orators that came after the Civil War Towns argues helped to shape a lasting mythology of the brave Confederate martyr and the Southern positions for why the Confederacy lost and who was to blame Innumerable words were spent in commemorative speeches newspaper editorials and statehouse oratory condemning the evils of Reconstruction redemption reconciliation and the new and future South Towns concludes with an analysis of how Lost Cause myths still influence Southern and national perceptions of the region today as evidenced in debates over the continued deployment of the Confederate flag and the popularity of Civil War reenactments A Poetics of Augustan Elegy Donald C. Mell,2024-09-02 **The Theory and Practice of Political Communication Research** Mary E. Stuckey,1996-01-01 Focusing on theoretical and methodological insight this book brings together scholars from a variety of fields whose research is guided by diverse analytical approaches Instead of focusing on what divides scholars the authors explore areas of intellectual community building a more systematic and

rigorous understanding of political communication By broadening and deepening understanding of the field this book provides insight into political processes that would otherwise be lacking Thinking Confederates Dan R. Frost, 2000 In the wake of the Civil War higher education in the South was at an impasse and many historians have tended to view Southern colleges and universities of the era as an educational backwater that resisted reform As Thinking Confederates demonstrates however defeat in fact taught many Southern intellectuals that their institutions had failed to supply antebellum graduates with the skills needed to compete with the North Thus in the years following the war educators who had previously served as Confederate officers led an effort to promote academic reform throughout the region Dan Frost shows how inspired by the idea of progress these men set about transforming Southern higher education Recognizing the North's superiority in industry and technology they turned their own schools from a classical orientation to a new emphasis on science and engineering These educators came to define the Southern idea of progress and passed it on to their students thus helping to create and perpetuate an expectation for the arrival of the New South Although they espoused a reverence for the past these Civil War veterans were not blindly wedded to old ideals but rather fashioned a modern academic vision Drawing on private correspondence that offers telling insight into the minds of these men Frost shows that they recognized that the eradication of slavery had been necessary for Southern progress He also explains how they upheld an idea of a New South that embraced beliefs both in the Lost Cause and in national reconciliation Challenging the view that the Confederacy's military leaders were too conservative to entertain any notion of progress this book offers a fresh and provocative analysis of postbellum Southern thought and higher education The Author Dan R Frost is an assistant professor of history at Dillard University in New Orleans He has previously written on the history of higher education in the South in a two volume work on the LSU College of Engineering *Hard Reading* T. A. Shippey, 2016 An exploration of politics and the role of the soft sciences in Science Fiction **Deeds Done in Words** Karlyn Kohrs Campbell, Kathleen Hall Jamieson, 1990-06-15 *Deeds Done in Words* is an impressive piece of work It is the first attempt to identify and assess the principal genres of rhetoric and to interpret the panoply of those genres in terms of the needs of and the needs for ritual in American politics Jeffrey Tulis author of *The Rhetorical Presidency* *Deeds Done in Words* is a thoughtful survey of how a democracy uses language to transact its business Based on an enlivened understanding of genre theory and on numerous pieces of original criticism Campbell and Jamieson vividly show how central public discourse has become the lifeblood of the American polity Roderick Hart author of *The Sound of Leadership* The rhetoric that issues from the White House is becoming an ever more salient part of what the presidency means and does This acute inquiry provides a great many insights into the forms meanings and functions of presidential discourse It is an enlightening contribution to our understanding of American politics Murray Edelman author of *Constructing the Political Spectacle* Handbook of American Popular Culture M. Thomas Inge, 1978 Library has Volumes 1 and 2 **Good Words**, 1865 *Good words*, ed. by N. Macleod Norman Macleod, 1865 Political Argumentation in the

United States David Zarefsky,2014-09-15 In the United States political argumentation occurs in institutionalized settings and the broader public forum in efforts to resolve conflict and efforts to foster it in settings with time limits and controversies that extend over centuries From the ratification of the U S Constitution to the presidency of Barack Obama this book contains twenty studies of U S political argumentation grouped under four themes early American political discourse Abraham Lincoln s political argumentation argumentation about foreign policy and public policy argumentation since the 1960s Deploying methods of rhetorical criticism argument analysis and evaluation the studies are rich in contextual grounding and critical perspective They integrate the European emphasis on politics as an argumentative context with the U S tradition of public address studies Two essays have never before been published The others are retrieved from journals and books published between 1979 and 2014 The introductory essay is new for this volume **The United States and the United Nations** Karen Kaye Carter,1990 **Dutch Quarterly Review of Anglo-American Letters** ,1976 Abraham Lincoln George S. McGovern,2008-12-23 America s greatest president who rose to power in the country s greatest hour of need and whose vision saw the United States through the Civil War Abraham Lincoln towers above the others who have held the office of president the icon of greatness the pillar of strength whose words bound up the nation s wounds His presidency is the hinge on which American history pivots the time when the young republic collapsed of its own contradictions and a new birth of freedom sanctified by blood created the United States we know today His story has been told many times but never by a man who himself sought the office of president and contemplated the awesome responsibilities that come with it George S McGovern a Midwesterner former U S senator presidential candidate veteran and historian by training offers his unique insight into our sixteenth president He shows how Lincoln sometimes went astray particularly in his restrictions on civil liberties but also how he adjusted his sights and transformed the Civil War from a political dispute to a moral crusade McGovern s account reminds us why we hold Lincoln in such esteem and why he remains the standard by which all of his successors are measured *Costerus* ,1975 Essays in English and American language and literature *Congressional Record* United States. Congress,1969 The World's Wasted Wealth 2 J. W. Smith,1994 Following the footsteps of Thorstein Veblen Stuart Chase Ralph Borsodi and others JW Smith demonstrates the wasted labor within the American Economy at fully 50% Eliminate the monopolization and wars which engenders that waste share the remaining productive jobs and each employable person need work outside the home only 2 to 3 days per week Publisher description
