Readings in Writing Courses Richard C. Raymond, 2010-12-01 As the title suggests this six chapter book responds to a question which in Western culture goes back to Plato Aristotle Cicero and Quintilian namely What should rhetoric teachers ask their students to read Primarily historical the first two chapters trace conflicting answers to the question above focusing on two constructive results of the debate the re invention of rhetoric and writing as a discipline a coherent and growing body of knowledge and as a result the emergence of independent departments of writing free from departments of English free therefore to develop their own curriculum and to manage their own budgets Additionally the second chapter examines two destructive consequences of this debate the ban of literature from writing courses where students might profitably study both and as a result the often painful departmental splits which not only separate former colleagues but also cramp the pedagogy of those trained to teach both writing and literature More than a survey of key publications this chapter encourages readers to honor the discipline of rhetoric but to make a place for literature on their composition syllabi The next four chapters provide pedagogical support for these chief claims that literature can and should be taught in writing courses and that such readings need not distract students from the primary text their own writing On the contrary these readings motivate serious writing when students feel invited into a conversation on issues that touch their lives These pedagogical chapters then move entering professionals from the theoretical debate to the application of theory therefore the book would serve well professors of courses in composition theory particularly those who enjoy teaching the conflicts and preparing their graduate students to design assignments and courses that apply theories of learning reading and composing

Situating Composition Ede, Lisa, 2004 Responding to a growing pedagogical paralysis in debates over the nature and status of composition studies as an academic discipline Lisa Ede offers a provocative inquiry into the politics of composition s place in the academy The result is a timely and engaging reflection on the rhetoric ideology and ethics of scholarship and instruction in composition studies today

Contemporary Composition Studies Edith Babin, Kimberly Harrison, 1999-12-30 Composition studies is a rapidly growing and constantly changing field At present however graduate students new to the field and writing teachers who want to make new connections between theory and practice have little choice of current reference works that define key terms in composition studies and provide information about the scholars and researchers who have shaped and are shaping the discipline This

book supplies this information in an easily accessible format and places both scholars and terms in the context of the field's development. Included are alphabetically arranged entries for 108 individuals who have developed the field and 128 terms central to the discipline. The first part of the book provides entries for leaders in composition studies. Each entry identifies the areas in which the scholar has contributed most influentially to the field and provides both a chronological overview of the person's contributions and a bibliography of representative works. The second part includes entries for terms that are problematic both for newcomers and for those already familiar with the discipline. The entries for the terms show how the disciplinary context has shaped the ways in which they have been used. The entries also indicate how established thinkers in composition studies and other disciplines have explained or defined the terms, provide examples of the terms in context, and list scholars often associated with them. An appendix includes entries for scholars from other disciplines who have contributed to the field.

Handbook of Research on Writing Charles Bazerman, 2009-03-04. The Handbook of Research on Writing ventures to sum up inquiry over the last few decades on what we know about writing and the many ways we know it. How do people write? How do they learn to write and develop as writers? Under what conditions and for what purposes do people write? What resources and technologies do we use to write? How did our current forms and practices of writing emerge within social history? What impacts has writing had on society and the individual? What does it mean to be and to learn to be an active participant in contemporary systems of meaning? This cornerstone volume advances the field by aggregating the broad-ranging interdisciplinary multidimensional strands of writing research and bringing them together into a common intellectual space. Endeavoring to synthesize what has been learned about writing in all nations in recent decades, it reflects a wide scope of international research activity with attention to writing at all levels of schooling and in all life situations. Chapter authors, all eminent researchers, come from disciplines as diverse as anthropology, archeology, typography, communication studies, linguistics, journalism, sociology, rhetoric, composition, law, medicine, education, history, and literacy studies. The Handbook's 37 chapters are organized in five sections: The History of Writing; Writing in Society; Writing in Schooling; Writing and the Individual; Writing as Text. This volume, in summing up what is known about writing, deepens our experience and appreciation of writing in ways that will make teachers better at teaching writing and all of its readers better as individual writers. It will be interesting and useful to scholars and researchers of writing to anyone who teaches writing in any context at any level and to all those who are just curious about writing.

Why Johnny Can't Write Myra J. Linden, Arthur Whimbey, 2012-12-06. The authors of this book, both experienced teachers, examine the controversy surrounding two popular methods for teaching writing: the process approach and its offspring, Writing Across the Curriculum. Both have recently been called into question for their ineffectiveness. An alternative, lesser-known procedure called sentence combining, which has been proven successful in numerous studies over the past fifteen years, finally is gaining the attention it deserves. Using the sentence combining approach, the authors present a rationale for rethinking and retooling the English classroom and

consequently making the entire educational system work more effectively This book is useful for teachers at any level especially those involved in writing instruction It is also worthwhile reading for those wishing to improve their writing skills Doing the sample exercises will strengthen writing skills and provide a solid foundation for a lifelong program of language growth

The Top Books of the Year Rhetoric And Composition A Sourcebook For Teachers And Writers The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the captivating narratives that have captivated audiences this year. Rhetoric And Composition A Sourcebook For Teachers And Writers : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Rhetoric And Composition A Sourcebook For Teachers And Writers : Delia Owens' "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
