Revelation and Concealment of Christ Saeed Hamid-Khani,2021-03-16 The elusive disposition of John s language has been noted by biblical scholars throughout the history of New Testament studies The Fourth Gospel is seen as so simple to grasp and yet often pointing beyond itself and beckoning the reader to read deeper Various socio linguistic studies have explained this feature as the reflection of the sectarian tendencies in the Johannine Christianity In his study Saeed Hamid Khani questions these approaches as inadequate In turn he examines John s language within an exegetical and theological framework He argues that the Sitz im Leben of Johannine language was an environment in which the Hebrew Scriptures were the dominant conceptual force for both the Jews and the Christians In this context he argues that the essential function of John s enigmatic language is wedded to the Evangelist s purpose in writing the Gospel namely a steadfast focus upon setting forth that Jesus is the Christ according to the witness of Israel s Scriptures It is here in these echoes and thematic allusions to the Scriptures that we find the answer to the function and significance of John s unique language i e Jesus is the Messiah the Saviour of the world and he is the visible image of the invisible God the embodiment of the self revelation of God according to the Scriptures However these truths are concealed from the undiscerning and are only revealed by the spirit of God to those who are born of God

Words and Music John Williamson, 2005-01-01 Word and music studies is a relatively young discipline that has nonetheless generated a substantial amount of work Recent studies in the field have embraced music in literature word music formal parallels to music in literature verbal music music and literature vocal music and literature in music programme music Other positions have been defined in which song exists as an analysable category distinct from words and music and requiring its own grammar Much of the literature has tended to focus on readings of the literary text pushing theoretical and analytical concerns in music to one side a trend that is as apparent among musicologists as among literary historians The essays presented here from the third Liverpool Music Symposium seek accordingly to redress this situation Contributors tackle the study of words and music from a number of standpoints examining artists as diverse as Eminem Patti Smith and Arnold Schoenberg

Edgar Allan Poe Brett Zimmerman, 2005-09-01 Zimmerman breaks new ground in Poe studies by providing a catalogue of three hundred figures of speech and thought in the author's oeuvre including his tales personal correspondence literary criticism book reviews and marginalia This incisive catalogue of literary and rhetorical terms presented in alphabetical order and amply illustrated with examples in addition to close examinations of some of Poe's most important tales overwhelmingly demonstrates Poe's rhetorical and linguistic dexterity putting a nearly two hundred year old critical debate to rest by showing Poe to be a conscientious craftsman of the highest order

The Mysterious Parable Madeleine Boucher, 2023-10-30 This monograph studies the parable as a literary construct It addresses the question why the ancients understood parables as mysterious speech The study disputes the binary opposition of clear parables and obscure allegories Defining allegory as an extended metaphor in narratory form it argues that many parables are allegories The parable is defined as narrative in form tropical in mode of meaning religious or ethical in genre and rhetorical in purpose intended to persuade Requiring sometimes challenging interpretation the parable can rightly be considered mysterious The monograph then discusses the parable in the context of Mark's theme of mystery
