Rhetorik Der Griechen Und Römer In Systematischer Übersicht:

Die Rhetorik der Griechen und Römer in systematischer Übersicht dargestellt Richard Volkmann, 1872 **Die Rhetorik der Griechen und Römer in systematischer Übersicht** Richard Volkmann, 1885 Die Rhetorik der Griechen und Römer Richard Emil Volkmann, 1872 Rhetorik der Griechen und Römer in systematischer Übersicht dargestellt von Richard Volkmann Richard Emil Volkmann, 1872 **Nietzsche on Language, Consciousness, and the Body** Christian J. Emden, 2010-10-01 Nietzsche and the philosophy of language have been a well trafficked crossroads for a generation but almost always as a checkpoint for post modernism and its critics This work takes a historical approach to Nietzsche's work on language connecting it to his predecessors and contemporaries rather than his successors Though Nietzsche invited identification with Zarathustra the solitary wanderer ahead of his time for most of his career he directly engaged the intellectual currents and scientific debates of his time Emden situates Nietzsche's writings on language and rhetoric within their wider historical context He demonstrates that Nietzsche is not as radical in his thinking as has been often supposed and that a number of problems with Nietzsche disappear when Nietzsche's works are compared to works on the same subjects by writers of the 18th and 19th centuries Further the relevance of rhetoric and the history of rhetoric to philosophy and the history of philosophy is reasserted in consonance with Nietzsche's own statements and practices Important in this regard are the role of fictions descriptions and metaphor **Peripatetic Rhetoric After Aristotle** William Wall Fortenbaugh, David C. Mirhady, Interest in ancient rhetoric and its relevance to modern society has increased dramatically over recent decades In North America departments of speech and communications have experienced a noticeable renaissance of concern with ancient sources On both sides of the Atlantic numerous journals devoted to the history of rhetoric are now being published Throughout Aristotle's central role has been acknowledged and there is also a growing awareness of the contributions made by Theophrastus and the Peripatetics **Peripatetic Rhetoric After Aristotle** responds to this recent interest in rhetoric and peripatetic theory The chapters provide new insights into Peripatetic influence on different periods and cultures Greece and Rome the Syrian and Arabic speaking worlds Europe in the Middle Ages and the Renaissance and the international scene today Contributors to this volume include Maroun Aouad Lucia Calboli Montefusco Thomas Conley Tiziano Dorandi Lawrence D Green Doreen C Innes George A Kennedy Michael Leff and Eckart Schuttrumpf This comprehensive analysis of the history of rhetoric ranges from the early Hellenistic period to the present day It will be of significant interest to classicists philosophers and cultural historians Paul and Ancient Rhetoric Stanley E. Porter, Bryan R. Dyer, 2016-02-24 The Apostle Paul lived and breathed in a Hellenistic culture that placed high value on the art of rhetoric and recent advances in rhetorical criticism of the New Testament have resulted in a new emphasis on the rhetorical aspect of his letters As many scholars have pointed out however it is not clear to what extent ancient rhetoric actually influenced Paul and his writing or how important rhetoric is for interpreting the Pauline corpus This volume containing contributions from major figures in the field provides a

nuanced examination of how ancient rhetoric should inform our understanding of Paul and his letters The essays discuss Paul's historical context present innovative advances in and trenchant critiques of rhetorical theory and offer fresh readings of key Pauline texts Outlining the strengths and weaknesses of a widely used approach Paul and Ancient Rhetoric will be a valuable resource for New Testament and Classics scholars *Handbook of Patristic Exegesis* Charles Kannengiesser, 2023-02-06 Through this Handbook of Patristic Exegesis the reader will obtain a balanced and cohesive picture of the Early Church It gives an overall view of the reception transmission and interpretation of the Bible in the life and thought of the Church during the first five centuries of Christianity the so called patristic era The handbook offers the context and presuppositions necessary for understanding the development of the interpretative traditions of the Early Church in its catechesis its liturgy and as a foundation of its systems of theology The handbook presents a comprehensive overview of the history of patristic exegesis Apart from a general introduction to the major topics in this field it contains essays by leading patristic scholars on the most important Church Fathers such as Augustine Irenaeus Origen Gregory of Nyssa and others The essays are supplemented by bibliographies of editions and studies on patristic exegesis published from 1945 until 1995 Together these bibliographies form the only comprehensive bibliography presently available on this topic The print edition is available as a set of two volumes 9789004098152 **Studia Patristica** F. Young, P. Parvis, 2006 Papers presented at the Fourteenth International Conference on Patristic Studies held in Oxford 2003 see also *Studia Patristica* 40 41 42 and 43 The successive sets of *Studia Patristica* contain papers delivered at the International Conferences on Patristic Studies which meet for a week once every four years in Oxford they are held under the aegis of the Theology Faculty of the University Members of these conferences come from all over the world and most offer papers These range over the whole field both East and West from the second century to a section on the *Nachleben* of the Fathers The majority are short papers dealing with some small and manageable point they raise and sometimes resolve questions about the authenticity of documents dates of events and such like and some unveil new texts The smaller number of longer papers put such matters into context and indicate wider trends The whole reflects the state of Patristic scholarship and demonstrates the vigour and popularity of the subject *De corona* Demosthenes, 2001-06-07 Demosthenes speech On the Crown is one of the finest artistic achievements of Greek prose Delivered in an Athenian court in 330 BCE and circulated in written form soon afterwards the speech made an immediate impression on contemporary Greeks and for centuries served the writers and speakers of antiquity as the primary model of forceful argument and vigorous style In this volume Harvey Yunis presents a new edition of the speech The book contains an introductory essay outlining the historical situation that gave rise to the speech the nature of Demosthenes rhetorical art and the history of the text A new Greek text of the speech is accompanied by a select textual apparatus The greater part of the book consists of a commentary which elucidates the text and makes clear how Demosthenes achieved his objectives **The Agon in Euripides** Michael A. Lloyd, 1992 This is a study of the *agon* or formal debate in Euripides tragedies In these scenes

two characters confront each other sometimes before an arbitrator or judge and make long speeches as if they were opponents in a lawcourt An agon is to be found in most of Euripides extant plays and is often of crucial importance in representing the central conflict of the play Many of Euripides most characteristic features are to be found in these scenes including rhetorical skill brilliance in argument and interest in philosophy Michael Lloyd offers a general account of the formal debate in Euripides including a contrast with the agon in Sophocles and contains an extended discussion of Euripides relationship to fifth century rhetorical theory and practice The main body of the book however is devoted to interpretations of the more important agones giving special attention to their dramatic context and function All Greek is transliterated making the text accessible to non specialists *Paul and the Rhetoric of Reconciliation* Margaret M. Mitchell, 1993-01-01 This work casts new light on the genre function and composition of Paul's first letter to the Corinthians Margaret Mitchell thoroughly documents her argument that First Corinthians was a single letter not a combination of fragments whose aim was to persuade the Corinthian Christian community to become unified **Discourse Analysis and Other Topics in Biblical Greek** Stanley E. Porter, D.A. Carson, 2015-01-29 This collection brings together into one volume papers first delivered in the Section on Biblical Greek Language and Linguistics at the Society of Biblical Literature annual meetings in 1992 and 1993 Part I on discourse analysis includes an introductory survey of the field followed by three major papers and two responses Each author uses his particular model of discourse analysis to analyse the book of Philippians paying particular attention to the question of unity Part 2 on other topics in biblical Greek includes a probing introduction on the nature of language and five papers on a range of other areas of study *Pauline Persuasion* Kieran O'Mahony, 2001-03-01 This is a book about the use of classical rhetoric in reading Paul It begins with a useful review of the various strategies and in the light of the issues that emerge it describes a rhetorical method which is then tested on 2 Corinthians 8-9 Here the advice of the classical rhetorical manuals for constructing a text is used in reverse order so as to uncover the persuasive strategy being used by Paul in this case This technique leads to a quite new reading of the two chapters which O'Mahony then proceeds to test against the standard work in the field by Hans Dieter Betz *Patterns of Persuasion in the Gospels* Burton L. Mack, Vernon K. Robbins, 2008-10-30 Patterns of Persuasion in the Gospels will open the next stage in Synoptic studies Mack and Robbins have returned synoptic criticism to the road it missed when Bultmann and Dibelius decided to ignore Greco-Roman education and rhetoric Starting from a sophisticated and detailed study of what the rhetorical handbooks say about the elaboration of chreiai they illuminate the most basic techniques and logic which the Gospel writers used in developing the Jesus traditions It is required reading for everyone with a serious interest in the critical study of the Gospels Stanley K Stowers Brown University Author of Letter Writing in Greco-Roman Authority An impressive programmatic argument which successfully challenges conventional approaches to the Jesus tradition It demonstrates the relevance of Hellenistic rhetorical theory for composition analysis of the sayings tradition A groundbreaking study which all serious students of the gospels

must consider David E Aune St Xavier College Author of *The New Testament in Its Literary Environment* In this important new book Mack and Robbins have clarified the patterns of persuasion that form the social historical and narrative worlds of the earliest Christians All those who want a hands on manual for studying the characters stories and argumentation of scripture will welcome this learned discussion of primary texts Highly recommended for any person who is serious about understanding the Bible Ron Cameron Wesleyan University Author of *The Other Gospels* Vernon K Robbins is Professor of New Testament and Comparative Sacred Text in the Department and Graduate Division of Religion at Emory University Bruton L Mack is John Wesley Professor Emeritus in early Christianity at the Claremont School of Theology in Claremont California

Aesthetic Benedetto Croce,2017-11-30 Benedetto Croce is one of the most influential philosophers of the twentieth century His work in aesthetics and historiography has been controversial but enduring When the first edition of *Esthetic* appeared in 1902 Croce was seen as foremost in reasserting an idealistic philosophy which despite its source in continental idealists from Descartes to Hegel offers a system that attempts to account for the emergence of scientific systems Croce thus combines scientific and metaphysical thought into a dynamic aesthetic Croce regards aesthetics not merely as a branch of philosophy but as a fundamental human activity It is inseparable from historical psychological political economic and moral considerations no less than a unique frame of artistic reference Aesthetic is composed of two parts Part One concentrates on aesthetic theory and practice Among the topics it covers are intuition and expression art and philosophy historicism and intellectualism and beauty in nature and in art Part Two is devoted to the history of aesthetics Croce analyzes such subjects as aesthetic ideas in the Middle Ages and Renaissance Giambattista Vico as the inventor of aesthetic science the philosophy of language and aesthetic psychologism In his new introduction to a classic translation John McCormick assesses Croce s influence in aesthetic theory and historiography He notes that the republication of this work is an overdue appreciation of a singular effort to resolve the classic questions of the philosophy of art art for its own sake and art as a social enterprise both find a place in Croce s system

Nietzsche and Science Thomas H. Brobjer,2017-05-15 *Nietzsche and Science* explores the German philosopher s response to the extraordinary cultural impact of the natural sciences in the late nineteenth century It argues that the science of his day exerted a powerful influence on his thought and provided an important framework within which he articulated his ideas The first part of the book investigates Nietzsche s knowledge and understanding of specific disciplines and the influence of particular scientists on Nietzsche s thought The second part examines how Nietzsche actually incorporated various scientific ideas concepts and theories into his philosophy the ways in which he exploited his reading to frame his writings and the relationship between his understanding of science and other key themes of his thought such as art rhetoric and the nature of philosophy itself

Focusing on Paul Andrie du Toit,2012-02-13 In the early 1970 s due to serious epistemological flaws the demise of traditional New Testament research paradigms became imminent A new generation of scholars started the search for a fresh approach based on scientifically sound principles

Working within the stimulating atmosphere of the New Testament Society of South Africa the author was one of the pioneers in developing a new multi dimensional research approach for New Testament studies The articles in the present volume written over a period of 25 years reflect part of this journey as viewed from a Pauline perspective Combining the positive aspects of the traditional biblical research paradigms with the important insights of modern linguistics literary science semantics and pragmatics particularly rhetoric the author investigates the convergence of various influences in Paul s pre christian career He proposes new possibilities of understanding Paul s language and style such as hyperbolic contrasts typical of his Semitic background Various aspects of his strategies of persuasion are investigated such as creating an ethos vilification alienation and re identification The majority of articles concentrate on central elements in Pauline theology belief in the resurrection of Jesus the centrality of grace the in Christ and related formulae faith and obedience justification in Romans Christian identity ethics and ethos as portrayed in Romans

Ancient Rhetoric and the Style of Paul's Letters

Timothy A. Brookins, 2022-10-14 Previous scholarship that has examined Paul s letters in light of Greco Roman rhetoric has focused predominantly on their argumentative strategies inventio and overall arrangement dispositio In this book Brookins turns attention to the heretofore underexplored area of style elocutio With complete coverage of ten of the thirteen letters in the Pauline corpus the book evaluates these letters according to the standards of the major stylistic virtues taught in rhetorical theory correctness clarity and ornament Treating ornament most extensively the book includes a full inventory of tropes figures of speech and figures of thought contained in these letters This work results in a synopsis of stylistic tendencies that not only illustrates differences in letter type within the Pauline corpus but also enables a fresh means of comparing style in the disputed and undisputed letters This analysis also furnishes new evidence for consideration in the debate about the extent of Paul s rhetorical education Finally it helps illuminate the process of exegesis and thus the meaning of the text itself
