Rhodesia The Course To Collision:

Rhodesia: the Course to Collision Frank Clements, 1969 **The Rhodesian Problem** Elaine Windrich, 2024-08-30 First published in 1975 The Rhodesian Problem presents a documentary record of Rhodesia from the establishment of the Crown colony in 1923 to the illegal declaration of independence in 1965 and the post independence efforts for a settlement of the conflict The documents chart the gradual development of conflict between the ruling white minority and the black majority They illustrate the methods adopted by the Smith government to maintain effective power in the face of United Nations and British government sanctions and increasing opposition from the indigenous black population The main objectives of Rhodesian policy during the period under review were the achievement of independence from Britain the expansion to the north to create a greater Rhodesia dominion in central Africa including the wealth of the Copperbelt and the preservation of a society in which white minority rule was based upon a system of rigid racial segregation There are over 60 documents ranging from the Buxton committee report of 1921 through to an estimate of the contemporary situation by Peter Niesewand the journalist who was imprisoned by the Smith regime in 1973 They cover many shades of opinion including UN resolutions official Rhodesian government propaganda and statements from the African opposition and the collection provides overall a dramatic account of the Rhodesian problem This book will be of interest to students and researchers of history and international politics **The Bible, the Bullet, and the Ballot** Fabulous Moyo, 2017-03-31 The Bible the Bullet and the Ballot provides a balanced account of the role of Christians Christian organisations and churches in sociopolitical transformation over the bedrock of colonial and nationalist politics in the past century in Zimbabwe Fabulous Moyo explores the broader social and political impact of prominent African Christian clergy who were sociopolitical activists such as Ndabaningi Sithole Abel Muzorewa and Canaan Banana It also highlights the role of missionaries who contributed to the African struggle for independence such as Ralph Edward Dodge Donal Lamont and Garfield Todd He examines the contributions of African nationalist parties and prominent politicians with Christian roots such as Joshua Nkomo and Robert Mugabe in the struggle for independence and their contribution in the postcolonial era in light of their Christian heritage and the collective pre independence nationalist ideals on nation building and national unity **The Decolonisation of Zimbabwe** Kate Law, 2020-05-21 Rhodesia's illegal Unilateral Declaration of Independence UDI in 1965 is an act that not only shaped regional politics but also had a profound effect on Britain's attempt to retreat from its empire This edited collection brings together leading voices in the field whose contributions on the role of finance big business and the regional and international actors involved in the country's negotiated independence update long held historiographical wisdoms signalling a revival in economic and diplomatic explanations for the country's decolonisation In particular they shed fresh light on the roles played in the decolonisation of Zimbabwe by economic private business and political liberation movements Western and Southern African governments actors that until now have been studied with very limited access to primary

sources As scholarship on Zimbabwe is currently dominated by studies that seek to understand the crisis in which the country has recently found itself this collection acts as a clarion call that reinforces the importance of studies of earlier historical processes In doing so the book provides a more nuanced understanding of the continuities and discontinuities between Zimbabwe's colonial and postcolonial history and examines the roles played by external governments and individuals in the decolonisation of Zimbabwe This book was originally published as a special issue of The Journal of Imperial and Commonwealth History

Revolutionary Monsters Donald T. Critchlow, 2021-10-05 Lenin Mao Castro Mugabe Khomeini All sparked movements in the name of liberating their people from their oppressors capitalists foreign imperialists or dictators in their own country These revolutionaries rallied the masses in the name of freedom only to become more tyrannical than those they replaced Much has been written about the anatomy of revolution from Edmund Burke to Crane Brinton Crane Franz Fanon and contemporary theorists of revolution found in the modern academy Yet what is missing is a dissection of the revolutionary minds that destroyed the old for the creation of a more harmful new *Revolutionary Monsters* presents a collective biography of five modern day revolutionaries who came into power calling for the liberation of the people only to end up killing millions of people in the name of revolution Lenin Russia Mao China Castro Cuba Mugabe Zimbabwe and Khomeini Iran *Revolutionary Monsters* explores basic questions about the revolutionary personality and examines how these revolutionaries came to envision themselves as prophets of a new age

Garfield Todd: The End of the Liberal Dream in Rhodesia Susan Woodhouse, 2018-04-17 Against the backdrop of a politically approved view that Europeans did little to further the Zimbabwean nationalist freedom movements before Independence in 1980 this book will help to nail that misconception against a wall The story of Garfield Todd and his various roles as Christian missionary liberal prime minister of southern Rhodesia high profile opponent of UDI and its architect Ian Smith from 1965 to 1980 will surely be an eye opener for many young people in central and southern Africa who may never have heard of this great man who spent his life in education and public service The role of Garfield Todd and some of the people who worked with him has been effectively airbrushed from the pages of the official Zimbabwean story Why is the question Susan Woodhouse gives us the answer by telling the story of a small but influential group of men and women who dared swim against the racial current in Africa after the Second World War Its a story told with warmth personal insight and often great humour This Edinburgh based author who Sir Garfield said knew the Todds better than anyone else has introduced a small but dedicated group of long forgotten activists to a new generation of readers

economic and political crisis and migration as a survival strategy The Politics of Race Ivor Crewe, 2015-10-16 This volume first published in 1975 is concerned with the politics of race relations it is divided into theoretical empirical and methodological studies together with an extensive bibliography A key theme in this volume is to show how the study of race relations can advance beyond traditional micro level analysis In the opening paper Axford and Brier concerned about the neglect of macro level analysis stress the need for conceptual frameworks which would help us to understand the place of racial conflict in the British political system They suggest that elite political groups otherwise in conflict have by tacit consensus eliminated race from the national political agenda **Becoming Zimbabwe. A History from the Pre-colonial Period to 2008** Brian Raftopoulos, Alois Mlambo, 2009-09-15 Becoming Zimbabwe is the first comprehensive history of Zimbabwe spanning the years from 850 to 2008 In 1997 the then Secretary General of the Zimbabwe Congress of Trade Unions Morgan Tsvangirai expressed the need for a more open and critical process of writing history in Zimbabwe The history of a nation in the making should not be reduced to a selective heroic tradition but should be a tolerant and continuing process of questioning and re examination Becoming Zimbabwe tracks the idea of national belonging and citizenship and explores the nature of state rule the changing contours of the political economy and the regional and international dimensions of the country's history In their Introduction Brian Raftopoulos and Alois Mlambo enlarge on these themes and Gerald Mazarire's opening chapter sets the pre colonial background Sabelo Ndlovu tracks the history up to WW11 and Alois Mlambo reviews developments in the settler economy and the emergence of nationalism leading to UDI in 1965 The politics and economics of the UDI period and the subsequent war of liberation are covered by Joseph Mtisi Munyaradzi Nyakudya and Teresa Barnes After independence in 1980 Zimbabwe enjoyed a period of buoyancy and hope James Muzondidya's chapter details the transition from buoyancy to crisis and Brian Raftopoulos concludes the book with an analysis of the decade long crisis and the global political agreement which followed *Rethinking White Societies in Southern Africa* Duncan Money, Danelle van Zyl-Hermann, 2020-02-12 This book showcases new research by emerging and established scholars on white workers and the white poor in Southern Africa Rethinking White Societies in Southern Africa challenges the geographical and chronological limitations of existing scholarship by presenting case studies from Angola Mozambique South Africa Zambia and Zimbabwe that track the fortunes of nonhegemonic whites during the era of white minority rule Arguing against prevalent understandings of white society as uniformly wealthy or culturally homogeneous during this period it demonstrates that social class remained a salient element throughout the twentieth century how Southern Africa's white societies were often divided and riven with tension and how the resulting social political and economic complexities animated white minority regimes in the region Addressing themes such as the class based disruption of racial norms and practices state surveillance and interventions and their failures towards nonhegemonic whites and the opportunities and limitations of physical and social mobility the book mounts a forceful argument for the regional consideration of white societies in this

historical context Centrally it extends the path breaking insights emanating from scholarship on racialized class identities from North America to the African context to argue that race and class cannot be considered independently in Southern Africa This book will be of interest to scholars and students of southern African studies African history and the history of race

of the Hoover Institution on War, Revolution and Peace, Stanford University Hoover Institution on War, Revolution, and Peace, 1972 **Press Silence in Postcolonial Zimbabwe** Zvenyika Eckson Mugari, 2020-03-24 This book focuses on news silence in Zimbabwe taking as a point of departure the in famous blank spaces whiteouts which newspapers published to protest official censorship policy imposed by the Rhodesian government from the mid 1960s to the end of that decade Based on archived news content the author investigates the cause s of the disappearance of blank spaces in Zimbabwe s newspapers and establishes whether and how the blank spaces may have been continued by stealth and proposes a model of doing journalism where news is inclusive just and less productive of blank spaces The author explores the broader ramifications of news silences tacit or covert on society s sense of the world and their place in it It questions whether and how news media continued with the practice of epistemic deletions and continue to draw on the colonial archive for conceptual maps with which to define and interpret contemporary postcolonial realities and challenges in Zimbabwe This book will be of interest to scholars researchers and academics researching the press in contemporary Africa critical media analysis media and society studies and news as discourse **Gender, Labour, War and Empire** Philippa Levine, Susan R. Grayzel, 2008-12-11 A lively collection of essays on the cultures of nineteenth and twentieth century Britain Topics range from prostitution and slavery to the effect of war on fashion magazine reporting to inter racial marriage in the postwar years Particular areas of focus include the Second World War its legacies and the reactions to postwar decolonization *So Far and No Further!* Jrt Wood, 2012-05 So Far and No Further Rhodesia s Bid for Independence during the Retreat from Empire 1959 1965 Ian Smith s unilateral declaration of independence for Rhodesia now Zimbabwe on 11 November 1965 was seen by many as the act of a rebellious white minority seeking to preserve their privileged position in defiance of Britain s determination to shed her Empire and introduce rule by the African majority as soon as possible However the drama of UDI has long overshadowed and oversimplified the complexities of the preceding years In this account of that time based on sole access to the hitherto closed papers of Ian Douglas Smith and Sir Roy Welensky as well as extensive research at London s

Public Record Office and in government and private collections elsewhere Dr J R T Wood chronicles the collision course on which Britain and Rhodesia were set after 1959 complementing his study of the fate of the Federation of Rhodesia and Nyasaland in his definitive *The Welensky Papers A History of the Federation of Rhodesia and Nyasaland 1953-1963* Britain Wood shows was intent on shedding her Empire as quickly as possible against a backdrop of the Cold War and the rise of Chinese and Soviet sponsored African nationalism She delivered some 600 one man one vote constitutions to her fledgling nations and had no intention of granting Rhodesia independence on different terms Unlike Britain's other African possessions however Rhodesia had enjoyed self governance since 1923 The largely white Rhodesian electorate wary of the consequences of premature and ill prepared majority rule sought instead dominion status akin to that of Canada Australia and New Zealand Their intention was gradually to pave the way for majority rule since 1923 Rhodesia's electoral qualifications had excluded race It was always understood that the African majority would acquire power the concern was the speed and smoothness of that acquisition Culminating in those dramatic days of November 1965 when Ian Smith concluded in the face of resolute British stonewalling that he had no alternative but UDI this unique account is the first in a series which chronicles the course of events that ultimately led to Robert Mugabe's accession to power in 1980 and all that entailed *U.D.I* Robert C. Good, 2015-03-08 Fearing that their civilization would be overwhelmed a tiny enclave of whites in Central Africa rebelled against a power which a little more than twenty five years before had ruled the largest empire the world had ever known Robert C Good provides an immensely readable account of the international politics of the Rhodesian rebellion which as he demonstrates put great political and financial strains on Great Britain placed Zambia in mortal danger almost destroyed the multiracial Commonwealth and promoted an unprecedented involvement of the United Nations in programs of dubious effectiveness and doubtful wisdom The complex sequence of events which led to the unilateral declaration of independence of November 1965 and the settlement of November 1971 are probed and the policies of the British and Rhodesian governments analyzed particularly the actions and responses of Harold Wilson Above all the Rhodesian crisis is placed in its international setting to show that the failure to impose a transition towards majority rule in Rhodesia has meant that a significant chance to reverse present trends in Southern Africa towards the hardening of racial attitudes and erosion of African confidence in Western intentions has been lost Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
