Rhodesia The Struggle For A Birthright:

Rhodesia, the Struggle for a Birthright Eshmael Ephial Mtshumayeli Mlambo, 1972 Study of the struggle of Africans against discrimination and Apartheid policies in Zimbabwe outlines constitutional development covers political problems political leadership land tenure public administration in urban areas educational policy employment the nationalist liberation movements the internationalisation of the problem incl The role of UK and the role of UN and OAU etc and comments on relevant legislation Bibliography and references Biographies African leaders in Rhodesia *The Zimbabwe African People's Union, 1961-87* Eliakim M. Sibanda, 2005 This book is an exploration of the political history of insurgency in Southern Rhodesia During the early years of its struggle ZAPU employed non violent means to try and achieve its goal for majority rule and a non racial society Because of the belligerency of the White settler regime ZAPU added the armed resistance to its strategy and went on to build a formidable army Problems escalated and alliances were built and dissolved until tired of being hunted down and butchered the ZAPU leadership decided to merge its party with the ruling party in December 1987

The Struggle over State Power in Zimbabwe George Hamandishe Karekwaivanane, 2017-11-09 The establishment of legal institutions was a key part of the process of state construction in Africa and these institutions have played a crucial role in the projection of state authority across space This is especially the case in colonial and postcolonial Zimbabwe George Karekwaivanane offers a unique long term study of law and politics in Zimbabwe which examines how the law was used in the constitution and contestation of state power across the late colonial and postcolonial periods Through this he offers insight on recent debates about judicial independence adherence to human rights and the observation of the rule of law in contemporary Zimbabwean politics The book sheds light on the prominent place that law has assumed in Zimbabwe's recent political struggles for those researching the history of the state and power in Southern Africa It also carries forward important debates on the role of law in state making and will also appeal to those interested in African legal history The

Urban Roots of Democracy and Political Violence in Zimbabwe Timothy Scarnecchia, 2008 The author further proposes that this recourse to political violence top down nationalism and the abandonment of urban democratic traditions are all hallmarks of a particular type of nationalism equally unsustainable in Zimbabwe then as it is now BOOK JACKET **A**

History of Zimbabwe, 1890-2000 and Postscript, Zimbabwe, 2001-2008 Chengetai J. M. Zvobgo, 2009-10-02 This study combines in one volume the history of Zimbabwe from the advent of British settlers in 1890 to 2000 including women's rights and human rights in Zimbabwe It is a political social and economic history The Postscript examines the major developments in Zimbabwe from 2001 to 2008 The two previous major studies on the history of Zimbabwe *The Past Is Another Country* by Martin Meredith London Andre Deutsch 1979 and *The Road to Zimbabwe 1890-1980* by Anthony Verrier London Jonathan Cape 1986 are now out of date This volume brings the historical study of Zimbabwe almost up to the present day

this book examines differing forms of international interracial working class action and the relationship between workers struggles in the periphery and those in advanced capitalist countries It analyses the nature of class alliances forged in the countryside and the urban sprawls of the developing world among workers students and the unemployed The volume draws on theoretical debates and detailed empirical studies dealing with a wide range of countries in Asia Latin America Africa and the Caribbean Each of the sections is preceded by a linking editorial comment and the editors also provide an introductory overview Reviews of the original edition of Peasants and Proletarians This is an important book both for historians and for social scientists It draws attention to a previously underestimated labour force that has grown into a significant indeed indispensable part of the international economic structure Lynda Shaffer Journal of Asian Studies 39 4 1980 This book offers a truly impressive and solid compilation of material on labour in the Third World The sheer range of scholarship concerning many different types of workers over a timescale of nearly 100 years in countries and political situations as various for example as Lagos in the 1890s Jamaica in the 1930s and socialist Algeria or Chile under Allende is sometimes bewildering but never fails to stimulate and absorb the reader Paul Kennedy Journal of Modern African Studies 19 4 1981 Peasants and Proletarians is a very major contribution The editors introduction though brief successfully raises many of these issues and outlines an approach to them The twenty one readings concerned with early forms of resistance rural workers strategies of working class action migrant workers in advanced capitalist states and contemporary struggles offer geographical and intellectual breadth in their exploration of the diversity of Third World experience Joel Samoff ASA Review of Books Vol 6 1980

Who Killed Hammarskjöld? Susan Williams, 2014-08-15 One of the outstanding mysteries of the twentieth century and one with huge political resonance is the death of Dag Hammarskjöld and his UN team in a plane crash in central Africa in 1961 Just minutes after midnight his aircraft plunged into thick forest in the British colony of Northern Rhodesia Zambia abruptly ending his mission to bring peace to the Congo Across the world many suspected sabotage accusing the multi nationals and the governments of Britain Belgium the USA and South Africa of involvement in the disaster These suspicions have never gone away British High Commissioner Lord Alport was waiting at the airport when the aircraft crashed nearby He bizarrely insisted to the airport management that Hammarskjöld had flown elsewhere even though his aircraft was reported overhead This postponed a search for so long that the wreckage of the plane was not found for fifteen hours White mercenaries were at the airport that night too including the South African pilot Jerry Puren whose bombing of Congolese villages led in his own words to flaming huts destruction and death These soldiers of fortune were backed by Sir Roy Welensky Prime Minister of the Rhodesian Federation who was ready to stop at nothing to maintain white rule and thought the United Nations was synonymous with the Nazis The Rhodesian government conducted an official inquiry which blamed pilot error But as this book will show it was a massive cover up that suppressed and dismissed a mass of crucial evidence especially that of African eye witnesses A subsequent UN inquiry was unable to rule out foul play but had no access to the

evidence to show how and why Now for the first time this story can be told Who Killed Hammarskjold follows the author on her intriguing and often frightening journey of research to Zambia South Africa the USA Sweden Norway Britain France and Belgium where she unearthed a mass of new and hitherto secret documentary and photographic evidence At the heart of this book is Hammarskjold himself a courageous and complex idealist who sought to shield the newly independent nations of the world from the predatory instincts of the Great Powers It reveals that the conflict in the Congo was driven not so much by internal divisions as by the Cold War and by the West's determination to keep real power from the hands of the post colonial governments of Africa It shows too that the British settlers of Rhodesia would maintain white minority rule at all costs

Becoming Zimbabwe. A History from the Pre-colonial Period to 2008 Brian Raftopoulos, Alois Mlambo, 2009-09-15

Becoming Zimbabwe is the first comprehensive history of Zimbabwe spanning the years from 850 to 2008 In 1997 the then Secretary General of the Zimbabwe Congress of Trade Unions Morgan Tsvangirai expressed the need for a more open and critical process of writing history in Zimbabwe The history of a nation in the making should not be reduced to a selective heroic tradition but should be a tolerant and continuing process of questioning and re examination Becoming Zimbabwe tracks the idea of national belonging and citizenship and explores the nature of state rule the changing contours of the political economy and the regional and international dimensions of the country's history In their Introduction Brian Raftopoulos and Alois Mlambo enlarge on these themes and Gerald Mazarire's opening chapter sets the pre colonial background Sabelo Ndlovu tracks the history up to WW11 and Alois Mlambo reviews developments in the settler economy and the emergence of nationalism leading to UDI in 1965 The politics and economics of the UDI period and the subsequent war of liberation are covered by Joseph Mtisi Munyaradzi Nyakudya and Teresa Barnes After independence in 1980 Zimbabwe enjoyed a period of buoyancy and hope James Muzondidya's chapter details the transition from buoyancy to crisis and Brian Raftopoulos concludes the book with an analysis of the decade long crisis and the global political agreement which followed

Robert Thorne Coryndon Christopher P. Youé, 2006-01-01 Robert Thorne Coryndon born in South Africa in 1870 served twenty eight years as the top ranking administrator of African dependencies a career unmatched by any other British colonial governor Governors were expected through a combination of good sense and good character to exercise rule over dependent peoples in an honest and impartial manner an amalgam of liberal values and autocratic methods which lent a certain ambiguity to British imperial rule in Africa and elsewhere During his rule in Barotseland 1897 1907 under Cecil Rhodes British South Africa Company Coryndon confronted the problems of establishing a colonial regime in 1914 1915 during the last seven years of his Swaziland appointment he served as Chairman of the land commission that delineated the boundaries of African reserves in Southern Rhodesia as governor of Uganda during a time of rapid economic expansion 1917 1922 he set up legislative and executive councils and as governor of Kenya 1922 1925 he formed local native councils as an experiment in indigenous administration This first full length study of Coryndon is neither a traditional gubernatorial

biography of a favoured son of the imperial school nor an ideological history of colonial oppression Instead You sets out to analyze Coryndon s relationships with African rulers white settlers Indian traders and metropolitan officials in order to assess the impact of his administrations on the territories he governed and to delineate the constraints on proconsular rule

Britain and the Politics of Rhodesian Independence Elaine Windrich,2024-08-30 First published in 1978 Britain and the Politics of Rhodesian Independence is a study of British policy towards Rhodesia and an account of the failure of both Labour and Conservative governments to find a satisfactory solution to its decolonization The essential bar to a solution was that the British government had in Rhodesia responsibility but no power Force being ruled out and sanctions ineffective nothing remained but the diplomacy of detente while the two sides in Rhodesia itself moved closer and closer to deadlock This study provides a balanced and clear analysis of the developments essential to an understanding of the events in Rhodesia Covering the period 1964 77 with an introduction to the issue as it arose in 1962 3 the attitudes of successive British governments are examined and the pressures affecting their responses considered A concluding section looks at the international repercussions in 1976 7 and the reactions of the United Nations to the situation then This book will be of interest to students and researchers of history politics and international relations

Private Print Media, the State and Politics in Colonial and Post-Colonial Zimbabwe Sylvester Dombo,2017-10-14 This book examines the role played by two popular private newspapers in the struggle for democracy in Zimbabwe one case from colonial Rhodesia and the other from the post colonial era It argues that operating under oppressive political regimes and in the dearth of credible opposition political parties or as a platform for opposition political parties the African Daily News between 1956 1964 and the Daily News between 1999 2003 played an essential role in opening up spaces for political freedom in the country Both newspapers were ultimately shut down by the respective government of the time The newspapers allowed reading publics the opportunity to participate in politics by providing a daily analytical alternative to that offered by the government and the state media in relation to the respective political crises that unfolded in each of these periods The book further examines both the information policies pursued by the different governments and the way these affected the functioning of private media in their quest to provide an ideal public sphere It explores issues of ownership funding and editorial policies in reference to each case and how these affected the production of news and issue coverage It considers issues of class and geography in shaping public response It also focuses on state reactions to the activities of these newspapers and how these in turn affected the activities of private media actors Finally it considers the cases together to consider the meanings of the closing down of these newspapers during the two eras under discussion and contributes to the debates about print media vis vis the new forms of media that have come to the fore

Encyclopedia of African History Kevin Shillington,2005 Offers more than one thousand entries covering all aspects of African history civilization and culture

The Catholic Church and the Struggle for Zimbabwe Ian Linden,1980 This book s central theme is about the ideological struggle within the Church between 1959 and

1979 under the impact of African nationalism It documents the critical role of the Rhodesian Justice and Peace Commission and describes the relationships among missionaries guerrillas and African political leaders and the accompanying propaganda battle

Unpopular Sovereignty Luise White, 2015-03-23 A truly satisfactory history of Rhodesia one that takes into account both the African history and that of the whites has never been written That is until now In this book Luise White highlights the crucial tension between Rhodesia as it imagined itself and Rhodesia as it was imagined outside the country Using official documents novels memoirs and conversations with participants in the events taking place between 1965 when Rhodesia unilaterally declared independence from Britain and 1980 when indigenous African rule was established through the creation of the state of Zimbabwe White reveals that Rhodesians represented their state as a kind of utopian place where white people dared to stand up for themselves and did what needed to be done It was imagined to be a place vastly better than the decolonized dystopias to its north In all these representations race trumped all else including any notion of nation Outside Rhodesia on the other hand it was considered a white supremacist utopia a country that had taken its own independence rather than let white people live under black rule Even as Rhodesia edged toward majority rule to end international sanctions and a protracted guerilla war racialized notions of citizenship persisted One man one vote became the natural logic of decolonization of this illegally independent minority ruled renegade state Voter qualification with its minutia of which income was equivalent to how many years of schooling and how African incomes or years of schooling could be rendered equivalent to whites illustrated the core of ideas about and experiences of racial domination White s account of the politics of decolonization in this unprecedented historical situation reveals much about the general processes occurring elsewhere on the African continent

The Politics and Economics of Decolonization in Africa Andrew Cohen, 2017-05-26 The slow collapse of the European colonial empires after 1945 provides one of the great turning points of twentieth century history With the loss of India however the British under Harold Macmillan attempted to enforce a second colonial occupation supporting the efforts of Sir Andrew Cohen of the Colonial Office to create a Central African Federation Drawing on newly released archival material The Politics and Economics of Decolonization offers a fresh examination of Britain s central African territories in the late colonial period and provides a detailed assessment of how events in Britain Africa and the UN shaped the process of decolonization The author situates the Central African Federation which consisted of modern day Zambia Zimbabwe and Malawi in its wider international context shedding light on the Federation s complex relationships with South Africa with US Presidents Dwight Eisenhower and John F Kennedy and with the expanding United Nations The result is an important history of the last days of the British Empire and the beginnings of a more independent African continent

The Rise of an African Middle Class Michael O. West, 2002-08-19 An in depth look at Africans who challenged the status quo in colonial Zimbabwe Impeccable and original scholarship American Historical Review Tracing their quest for social recognition from the time of Cecil Rhodes to Rhodesia s unilateral declaration of independence Michael

O West shows how some Africans were able to avail themselves of scarce educational and social opportunities in order to achieve some degree of upward mobility in a society that was hostile to their ambitions. Though relatively few in number and not rich by colonial standards, this comparatively better off class of Africans challenged individual and social barriers imposed by colonialism to become the locus of protest against European domination. This extensive and original book opens new perspective into relations between colonizers and colonized in colonial Zimbabwe. Offers an extremely sophisticated nuanced view of the social and political construction of an African middle class in colonial Zimbabwe. Elizabeth Schmidt

The Rhodesian Problem Elaine Windrich, 2024-08-30 First published in 1975. The Rhodesian Problem presents a documentary record of Rhodesia from the establishment of the Crown colony in 1923 to the illegal declaration of independence in 1965 and the post independence efforts for a settlement of the conflict. The documents chart the gradual development of conflict between the ruling white minority and the black majority. They illustrate the methods adopted by the Smith government to maintain effective power in the face of United Nations and British government sanctions and increasing opposition from the indigenous black population. The main objectives of Rhodesian policy during the period under review were the achievement of independence from Britain, the expansion to the north to create a greater Rhodesia dominion in central Africa including the wealth of the Copperbelt and the preservation of a society in which white minority rule was based upon a system of rigid racial segregation. There are over 60 documents ranging from the Buxton committee report of 1921 through to an estimate of the contemporary situation by Peter Niesewand, the journalist who was imprisoned by the Smith regime in 1973. They cover many shades of opinion including UN resolutions, official Rhodesian government propaganda and statements from the African opposition. The collection provides overall a dramatic account of the Rhodesian problem. This book will be of interest to students and researchers of history and international politics.
