New Musical Figurations Ronald M. Radano,2009-05-20 *New Musical Figurations* exemplifies a dramatically new way of configuring jazz music and history By relating biography to the cultural and musical contours of contemporary American life Ronald M Radano observes jazz practice as part of the complex interweaving of postmodern culture a culture that has eroded conventional categories defining jazz and the jazz musician Radano accomplishes all this by analyzing the creative life of Anthony Braxton one of the most emblematic figures of this cultural crisis Born in 1945 Braxton is not only a virtuoso jazz saxophonist but an innovative theoretician and composer of experimental art music His refusal to conform to the conventions of official musical culture has helped unhinge the very ideologies on which definitions of jazz black music popular music and art music are founded *New Musical Figurations* gives the richest view available of this many sided artist Radano examines Braxton s early years on the South Side of Chicago whose vibrant black musical legacy inspired him to explore new avenues of expression Here is the first detailed history of Braxton s central role in the Association for the Advancement of Creative Musicians the principal musician run institution of free jazz in the United States After leaving Chicago Braxton was active in Paris and New York collaborating with Philip Glass Steve Reich Frederic Rzewski and other composers affiliated with the experimental music movement From 1974 to 1981 he gained renown as a popular jazz performer and recording artist Since then he has taught at Mills College and Wesleyan University given lectures on his theoretical musical system and written works for chamber groups as well as large opera scale pieces The neglect of radical challenging figures like Braxton in standard histories of jazz Radano argues mutes the innovative voice of the African American musical tradition Refreshingly free of technical jargon *New Musical Figurations* is more than just another variation on the same jazz theme Rather it is an exploratory work as rich in theoretical vision as it is in historical detail

American cinema has long been fascinated by jazz and jazz musicians Yet most jazz films aren't really about jazz Rather as Krin Gabbard shows they create images of racial and sexual identity many of which have become inseparable from popular notions of the music itself In Jammin at the Margins Gabbard scrutinizes these films exploring the fundamental obsessions that American culture has brought to jazz in the cinema Gabbard's close look at jazz film biographies from *The Jazz Singer* to *Bird* reveals Hollywood's reluctance to acknowledge black subjectivity Black and even white jazz artists have become vehicles for familiar Hollywood conceptions of race gender and sexuality Even Scorsese's *New York New York* and Spike Lee's *Mo' Better Blues* have failed to disentangle themselves from entrenched stereotypes and conventions Gabbard also examines Hollywood's confrontation with jazz as an elite art form and the role of the jazz trumpet as a crucial signifier of masculinity Finally he considers the acting careers of Louis Armstrong Nat King Cole and Hoagy Carmichael Duke Ellington's extraordinary work in films from 1929 until the late 1960s and the forgotten career of Kay Kyser star of nine Hollywood films and leader of a popular swing band This insightful look at the marriage of jazz and film is a major contribution to film jazz and cultural studies
