History of Pedlars in Europe Laurence Fontaine,1996 The profession of peddling has until now received only slight and fragmentary scholarly attention Usually treated in an anecdotal fashion the pedlar has generally been thought of as a marginal figure closer in character to a vagabond than a trader In this first sustained account of the profession in Europe Laurence Fontaine argues that peddling particularly as a means of distributing new commodities such as books watches and tobacco played a crucial role in the formation of the modern European economy Focusing primarily on the fifteenth through eighteenth centuries Fontaine traces the origins and development of peddling and the establishment of trading networks She analyzes the changing social construction of the practice and the effect of encounters between traders of different regions Following the pedlars trade routes across Europe from Spain to Sweden and Scotland to the upper Rhine she examines their importance as channels of communication as well as of goods and raises such issues as the impact of pedlars on the values and cultural practices of the communities they visited and the ways in which being merchants changed the lives of these migrants History of Pedlars in Europe separates the mythology that surrounds peddling from the historically reliable and integrates existing studies with new archival research to illuminate one of the most remote areas of the social and economic history of early modern Europe A means of trade based on mobility uncertainty and interdependence peddling is rediscovered as a dynamic force involved in nothing less than the creation of a modern consumer society     Fashion and Popular Print in Early Modern England Clare Backhouse,2017-07-30 Fashion featured in black letter broadside ballads over a hundred years before fashion magazines appeared in England In the seventeenth century these single sheet prints contained rhyming song texts and woodcut pictures accessible to almost everyone in the country Dress was a popular subject for ballads as well as being a commodity with close material and cultural connections to them This book analyses how the distinctive words and images of these ballads made meaning both in relation to each other on the ballad sheet and in response to contemporary national events sumptuary legislation religious practice economic theory the visual arts and literature In this context Clare Backhouse argues seventeenth century ballads increasingly celebrated the proliferation of

print and fashionable dress envisioning new roles for men and women in terms of fashion consumption and its importance to national prosperity The book demonstrates how the hitherto overlooked but extensive source material that these ballads offer can enrich the histories of dress art and culture in early modern England      **Back to the Shops** Rachel Bowlby,2022 Over time shops have occupied radically different places in cultural arguments and everyday lives Back to the Shops offers a set of short often surprising chapters each one a window into a different shop type or mode of selling      The Clique ,1980

**Local/Global Shakespeare and Advertising** Márta Minier,Maria Elisa Montironi,Cristina Paravano,2024-06-21 Local Global Shakespeare and Advertising examines the local global and rhizomatic phenomenon of Shakespeare as advertised and Shakespeare as advertising Starting from the importance and the awareness of advertising practices in the early modern period the volume follows the evolution of the use of Shakespeare as a promotional catalyst up to the twenty first century The volume considers the pervasiveness of Shakespeare s marketability in Anglophone and non Anglophone cultures and its special engagement with creative and commercial industries With its inter and transdisciplinary perspective and its international scope this book brings new insights into Shakespeare s selling power Shakespeare as the object of advertising and Shakespeare as part of the advertising vehicle in relation to a range of crucial cultural ideological and political issues

**The World of Rural Dissenters, 1520-1725** Margaret Spufford,1995-03-16 There has been dispute amongst social historians about whether only the more prosperous in village society were involved in religious practice A group of historians working under Dr Spufford s direction have produced a factual solution to this dispute by examining the taxation records of large groups of dissenters and churchwardens and have established that both late Lollard and post Restoration dissenting belief crossed the whole taxable spectrum We can no longer speak of religion as being the prerogative of either weavers and threshers or on the other hand of village elites The group also examined the idea that dissent descended in families and concluded that this was not only true but that such families were the least mobile population group so far examined in early modern England probably because they were closely knit and tolerated in their communities The cause of the apparent correlation of dissenting areas and areas of early by employment was also questioned The group concludes that travelling merchants and carriers on the road network carried with them radical ideas and dissenting print the content of which is examined as well as goods In her own substantial chapter Dr Spufford draws together the pieces of the huge mosaic constructed by her team of contributors adds radical ideas of her own and disagrees with much of the prevailing wisdom on the function of religion in the late seventeenth century Professor Patrick Collinson has contributed a critical conclusion to the volume This is a book which breaks new ground and which offers much original material for ecclesiastical cultural demographic and economic historians of the period      **Fifty-two stories of the brave and true for girls, by E.**

**Everett-Green and other writers, ed. by A.H. Miles** Alfred Henry Miles,1902      *The Child's own book* ,      **Catalogue of Drawings by British Artists and Artists of Foreign Origin Working in Great Britain ...: I-R** British Museum. Dept.
