The Introduction of Rice Culture Into South Carolina Alexander Samuel Salley,1919 **Memoir of the Introduction and Planting of Rice in South-Carolina** Robert Francis Withers Allston,1843 *Rice Cultivation, Processing, and Marketing in the Eighteenth Century* Michael Trinkley,2003 Provides a detailed discussion of South Carolina s rice production from introduction through the American Revolution Publisher s website **Lowcountry Time and Tide** James H. Tuten,2012-11-26 A thorough account of rice culture s final decades and of its modern legacy In mapping the slow decline of the rice kingdom across the half century following the Civil War James H Tuten offers a provocative new vision of the forces agricultural environmental economic cultural and climatic stacked against planters laborers and millers struggling to perpetuate their once lucrative industry through the challenging postbellum years and into the hardscrabble twentieth century Concentrating his study on the vast rice plantations of the Heyward Middleton and Elliott families of South Carolina Tuten narrates the ways in which rice producers both the former grandees of the antebellum period and their newly freed slaves sought to revive rice production Both groups had much invested in the economic recovery of rice culture during Reconstruction and the beginning decades of the twentieth century Despite all disadvantages rice planting retained a perceived cultural mystique that led many to struggle with its farming long after the profits withered away Planters tried a host of innovations including labor contracts with former slaves experiments in mechanization consolidation of rice fields and marketing cooperatives in their efforts to rekindle profits but these attempts were thwarted by the insurmountable challenges of the postwar economy and a series of hurricanes that destroyed crops and the infrastructure necessary to

sustain planting Taken together these obstacles ultimately sounded the death knell for the rice kingdom The study opens with an overview of the history of rice culture in South Carolina through the Reconstruction era and then focuses on the industry s manifestations and decline from 1877 to 1930 Tuten offers a close study of changes in agricultural techniques and tools during the period and demonstrates how adaptive and progressive rice planters became despite their conservative reputations He also explores the cultural history of rice both as a foodway and a symbol of wealth in the lowcountry used on currency and bedposts Tuten concludes with a thorough treatment of the lasting legacy of rice culture especially in terms of the environment the continuation of rice foodways and iconography and the role of rice and rice plantations in the modern tourism industry

Connecting Continents Kenneth G. Kelly, 2020-12-30 This volume draws together richly textured and deeply empirical accounts of rice and how its cultivation in the Carolina low country stitch together a globe that maps colonial economies displacement and the creative solutions of enslaved people conscripted to cultivate its grain If sugar fueled the economic hegemony of North Europe in the 18th and 19th century rice fed it Nowhere has this story been a more integral part of the landscape than Low Country of the coasts of Georgia South and North Carolina Rice played a key role in the expansion of slavery in the Carolinas during the 18th century as West African captives were enslaved in part for their expertise in growing rice Contributors to this volume explore the varied genealogies of rice cultivation in the Low Country through archaeological anthropological and historical research This multi sited volume draws on case studies from Guinea Sierra Leone and South Carolina the Caribbean and India to both compare and connect these disparate regions Through these studies the reader will learn how the rice cultivation knowledge of untold numbers of captive Africans contributed to the development of the Carolinas and by extension the United States and Europe The chapters in this book were originally published as a special issue of *Atlantic Studies*

Twilight on the South Carolina Rice Fields Margaret Belser Hollis, Allen H. Stokes, 2012-12-07 A firsthand account of the Civil War and Reconstruction in the Old South rice kingdom from one of South Carolina s founding families The Civil War and Reconstruction eras decimated the rice planting enterprise of the South and no family experienced the effects of this economic upheaval quite as dramatically as the Heywards of South Carolina a family synonymous with the wealth of the old rice kingdom in the Palmetto State *Twilight on the South Carolina Rice Fields* collects the revealing wartime and postbellum letters and documents of Edward Barnwell Barney Heyward 1826 1871 a native of Beaufort District and grandson of Nathaniel Heyward one of the most successful rice planters and largest slaveholders in the South Barney Heyward was also the father of South Carolina governor Duncan Clinch Heyward author of *Seed from Madagascar* the definitive account of the rice kingdom s final stand a generation later Edited by Margaret Belser Hollis and Allen H Stokes the Heyward family correspondence from this transformational period reveals the challenges faced by a once successful industry and a once opulent society in the throes of monumental change During the war Barney Heyward served as a lieutenant in the engineering division of the Confederate army but devoted much of his time to

managing affairs at his plantations near Columbia and Beaufort His letters chronicle the challenges of preserving his lands and maintaining control over the enslaved labor force essential to his livelihood and his family s fortune The wartime letters also provide a penetrating view of the Confederate defense of coastal South Carolina against the Union forces who occupied Beaufort District In the aftermath of the conflict Heyward worked with only limited success to revive planting operations In addition to what these documents reveal about rice cultivation during tumultuous times they also convey the drama affections and turmoil of life in the Heyward family from Barney s increasingly difficult relations with his father Charles Heyward to his heartfelt devotion to his wife the former Catherine Tat Maria Clinch and their children Twilight of the South Carolina Rice Fields also features an introduction by noted economic historian Peter A Coclanis that places these letters and the legacy of the Heyward family into a broader historical context **Rice and Slaves** Daniel C. Littlefield,2022-10-17 Daniel Littlefield s investigation of colonial South Carolinianss preference for some African ethnic groups over others as slaves reveals how the Africans diversity and capabilities inhibited the development of racial stereotypes and influenced their masters perceptions of slaves It also highlights how South Carolina perhaps more than anywhere else in North America exemplifies the common effort of Africans and Europeans in molding American civilization **Carolina's Golden Fields** Hayden R. Smith,2019-10-31 The basis for this book began twenty years ago when I enrolled in the College of Charleston s summer archaeological field school After spending the first half of the semester honing our technique by digging five foot by five foot units identifying soil stratigraphy and collecting artifacts at the Charleston Museum s Stono Plantation the archaeologists reoriented us students to a new site For the remainder of the field school we investigated Willtown Bluff on the Edisto River an early eighteenth century township surrounded by plantations My interest in inland rice cultivation grew from our work at the James Stobo site a 1710 plantation located on the edge of the Willtown township and one mile from the tidal river For three archaeological seasons between 1997 and 1999 I participated in excavations of the Stobo Plantation house foundation located on a hardwood knoll surrounded by a sea of low lying Cypress wetlands During this time I had a unique opportunity to walk off the dry terra firma and explore miles of inland rice embankments sprawling to the east and to the south of the house site Major embankments traverse the wetlands on a magnetic north south and east west axis intersected by smaller check banks and drainage canals as far as the eye can see under the dense cypress and hardwood canopy *The South Carolina Rice Plantation as Revealed in the Papers of Robert F.W. Allston* Robert Francis Withers Allston,1945 *Treatise on the Economics of Rice Production in Georgetown County, South Carolina, the Middle Period, 1786 to 1860* John R. Hetrick,1979 *Rice and Rice Planting in the South Carolina Low Country* David Doar,1970 *Rice and Rice Planting in the South Carolina Low Country by David Doar. [With Additional Articles by Other Authors.]*. Museum of South Carolina, afterwards Charleston Museum (CHARLESTON, South Carolina),David DOAR,1936 **The Carolina Rice Kitchen** Karen Hess,2022-08-09 A pioneering history of the Carolina rice kitchen and its African influences Where did rice

originate How did the name Hoppin John evolve Why was the famous rice called Carolina Gold The rice kitchen of early Carolina was the result of a myriad of influences Persian Arab French English African but it was primarily the creation of enslaved African American cooks And it evolved around the use of Carolina Gold Although rice had not previously been a staple of the European plantation owners it began to appear on the table every day Rice became revered and was eaten at virtually every meal and in dishes that were part of every course soups entr es side dishes dessert and breads The ancient way of cooking rice developed in India and Africa became the Carolina way Carolina Gold rice was so esteemed that its very name became a generic term in much of the world for the finest long grain rice available This engaging book is packed with fascinating historical details including more than three hundred recipes and a facsimile of the Carolina Rice Cook Book from 1901 A new foreword by John Martin Taylor underscores Hess s legacy as a culinary historian and the successful revival of Carolina Gold rice

Rice to Ruin Roy Williams (III), Alexander Lucas Lofton, 2018 The saga of the precipitous rise and ultimate fall of the Jonathan Lucas family s rice mill dynasty In the 1780s Jonathan Lucas on a journey from his native England shipwrecked near the Santee Delta of South Carolina about forty miles north of Charleston Lucas the son of English mill owners and builders found himself fortuitously near vast acres of swamp and marshland devoted to rice cultivation When the labor intensive milling process could not keep pace with high crop yields Lucas was asked by planters to build a machine to speed the process In 1787 he introduced the first highly successful water pounding rice mill creating the foundation of an international rice mill dynasty In *Rice to Ruin* Roy Williams III and Alexander Lucas Lofton recount the saga of the precipitous rise and ultimate fall of that empire Lucas s invention did for rice South Carolina s first great agricultural staple what Eli Whitney did for cotton with his cotton gin With his sons Jonathan Lucas II and William Lucas Lucas built rice mills throughout the lowcountry Eventually the rice kingdom extended to India Egypt and Europe after the younger Jonathan Lucas moved to London to be at the center of the international rice trade Their lives were grand until the American Civil War and its aftermath The end of slave labor changed the family s fortunes The capital tied up in slaves evaporated the plantations and town houses had to be sold off one by one and the rice fields once described as the gold mines of South Carolina often failed or were no longer planted Disease and debt took its toll on the Lucas clan and in the decades that followed efforts to regain the lost fortune proved futile In the end the once glorious Carolina gold rice fields that had brought riches left the family in ruin

Carolina's Golden Fields Hayden R. Smith, 2019-10-31 This book examines the environmental and technological complexity of South Carolina inland rice plantations from their inception at the turn of the seventeenth century to the brink of their institutional collapse at the eve of the Civil War Inland rice cultivation provided a foundation for the South Carolina colonial plantation complex and enabled planters participation in the Atlantic economy dependence on enslaved labor and dramatic alteration of the natural landscape Moreover the growing population of enslaved Africans led to a diversely acculturated landscape unique to the Southeastern Coastal Plain Despite this significance

Lowcountry inland rice cultivation has had an elusive history Unlike many historical interpretations that categorize inland rice cultivation in a universal and simplistic manner this study explains how agricultural systems varied among plantations By focusing on planters and slaves alteration of the inland topography this book emphasizes how agricultural methods met the demands of the local environment
