Adamowicz, Eric Robertson, 2015-06-24 International iconoclastic inventive born out of the institutionalised madness of the First World War Dada erupted in cities throughout Europe and the USA creating shock waves that offended polite society and destabilised the cultural and political status quo In spite of its sporadic and ephemeral character its rich and diverse legacy is still powerfully felt nearly a century later Following on from Dada and Beyond Volume 1 Dada Discourses the sixteen essays in this collection provide critical examinations of Dada placing particular emphasis on the ongoing impact of its creative output The chapters examine its pivotal figures as well as its more peripheral protagonists their different geographic locations and the extraordinary diversity of their practices that included poetry painting printmaking dance performance theatre textiles readymades photomontage and cinema As the book s authors reveal Dada not only anticipates Surrealism but also foreshadows an extraordinary array of more recent tendencies including action painting conceptual art outsider art performance art environmental and land art In its privileging of chance and automatism its rejection of formal artistic institutions its subversive exploitation of mass media and its constant self reconstitution and self redefinition Dada deserves to be seen as a cultural phenomenon that is still powerfully relevant in the twenty first century **Levy Plays: 1** Deborah

Levy, 2000-11-09 This anthology contains six of Levy s plays Pax Clam The B File Pushing the Prince into Denmark Macbeth False Memories and Honey Baby *Dead History, Live Art?* Jonathan P. Harris, 2007 While scholars and critics generally agree that the 1960s signaled the end of high modernism what is less clear is how to characterize contemporary art since the 1960s Acclaimed art scholar Jonathan Harris here tackles this question by assembling a rich body of essays along with an extended interview with renowned feminist art scholar Amelia Jones that tracks the movements in and issues central to contemporary art practice since this pivotal decade The contributors to *Dead History Live Art* argue that visual art since the 1960s can no longer claim a separate and exalted status rather it should be interpreted as an integral part of a larger culture of display consumption and power that continues to evolve within a global capitalist system Distinguished writers and artists such as Frazer Ward Anna Dezeuze Richard Layzell and Jane Chin Davidson launch a new discussion on art and mass culture

in their essays with uncompromising examinations of how in the context of modern capitalism visual culture has radically redefined the relationships between the production and use of images texts and interpretive analysis Issues explored in their essays include the rise of performance art in the 1960s and 1970s the focus on diverse installation and mixed media practices during the 1980s and 1990s and in an investigation reaching into the political sphere the theater of visibility and spectacle created to support the invasion of and war in Iraq in 2003 Dead History Live Art proposes an intriguing new perspective on art history and art practice with its critical and uncompromising examination of their conventions values and institutions As such the volume reconfigures not only our understanding of contemporary art but also the entire concept of the avant garde
