## **Richard Neutra 1892-1970 Survival Through Design:**

**Richard Neutra, 1892-1970** Barbara Mac Lamprecht, 2004 The quintessential California Modernist The continual refinement of human knowledge of the body and soul came to be one and the same thing for me and the architecture of human living space its most necessary application and valuation Richard Neutra Born and raised in Vienna Richard Neutra 1872 1970 came to America early in his career settling in California His influence on post war architecture is undisputed the sunny climate and rich landscape being particularly suited to his cool sleek modern style Neutra had a keen appreciation for the relationship between people and nature his trademark plate glass walls and ceilings which turn into deep overhangs have the effect of connecting the indoors with the outdoors Neutra s ability to incorporate technology aesthetics science and nature into his designs him recognition as one of Modernist architecture s greatest talents About the Series Each book in TASCHEN s Basic Architecture Series features an introduction to the life and work of the architect the major works in chronological order information about the clients architectural preconditions as well as construction problems and resolutions a list of all the selected works and a map indicating the locations of the best and most famous buildings approximately 120 illustrations photographs sketches drafts and plans Through the Healing Glass John Sadar, 2016-02-12 In the mid 1920s a physiologist a glass chemist and a zoo embarked on a project which promised to turn buildings into medical instruments The advanced chemistry of Vita Glass mobilised theories of light and medicine health practices and glassmaking technology to compress an entire epoch s hopes for a healthy life into a glass sheet yet it did so invisibly To communicate its advantage Pilkington Bros spared no expense as they launched the most costly and sophisticated marketing campaign in their history Engineering need for Vita Glass employed leading edge market research evocative photography and vanguard techniques of advertising psychology accompanied by the claim Let in the Health Rays of Daylight Permanently through Vita Glass Windows This is the story of how despite the best efforts of two glass companies the leading marketing firm of the day and the opinions of leading medical minds Vita Glass failed However it epitomised an age of lightness and airiness sleeping porches flat roofs and ribbon windows Moreover through its remarkable print advertising it strove to shape the ideal relationship between our buildings and our bodies **Richard Neutra** Christie's Realty International, Inc, 2008

**Carbon-Neutral Architectural Design** Pablo M. La Roche, 2017-07-14 The energy used to operate buildings is one of the most significant sources of greenhouse gas emissions While it is possible to reduce emissions through climate responsive design many architects are not trained to do this Filling an urgent need for a design reference in this emerging field this book describes how to reduce building related greenhouse gas emissions through appropriate design techniques It presents strategies to achieve CO2 reductions with an emphasis on control of energy flows through the building envelope and passive heating and cooling strategies This new revised edition is updated throughout and includes a new chapter on building simulations **Czech It Out** Miloslav Rechcigl Jr., 2015-07-23 Czech it Out Czech American Biography Sourcebook provides

a wealth of information on a variety of sources relating to biographical information on notable Americans with Czech roots Besides the national figures also included are information sources on significant individuals at the state regional and local levels Beyond that we saw it fit to also incorporate ethnic information sources which frequently contain a wealth of information on pioneer settlers and individuals active at the community level Having in mind the interests of genealogists in individual families and their descendents a listing has also been provided on family histories and genealogies Even though Czechs have been living in the US practically since colonial times no composite biographical dictionary exists about the accomplished Czech Americans Biographical information about them is scattered in a plethora of sources which are difficult to find and some are not readily accessible The present author who literally devoted several decades of his life to the study of Czech American history has canvassed hundreds of sources at national and local levels to identify not only notable individuals but also pioneer settlers who played a significant role in the growth and development of the US This publication should fill a great void in literature until a comprehensive biographical compendium about Czech Americans has been written

**Modern Schools** T. Hille, 2012-01-20 Modern Schools A Century of Design for Education is a comprehensive survey of modern K 12 schools from Frank Lloyd Wright to Morphosis an in depth design study that explores the fundamental relationship between architecture education and the design of contemporary learning environments Its focus is on the underlying design themes and characteristic features that support and enhance basic aspects of learning and in the process create an architectural expression that is both meaningful and lasting The breadth of its scope includes influences of contemporary educational ideas and practices related design concepts and strategies and most importantly the resulting impact of both on real environments for learning This remarkable survey and project study the first of its kind is an essential and important sourcebook for architects school planners educators and anyone else interested in contemporary school design The body of work presented which is international in scope underscores the unique architectural potential of this important project type and highlights design themes that remain fundamentally relevant for architects and designers today Presentation material includes more than 900 contemporary and historical photographs mostly in color and more than 200 detailed architectural plans drawings of schools by many of the outstanding design architects of the modern era Modern Schools A Century of Design for Education features the work of more than 60 architects worldwide including twentieth century masters Frank Lloyd Wright Alvar Aalto Marcel Breuer Le Corbusier and Eliel and Eero Saarinen as well as contemporaries such as Morphosis Coop Himmel b lau Behnisch Partners and Patkau Architects among many others

Rethinking Technology William W. Braham, Jonathan A. Hale, 2006-12-05 This essential reference for all students of architecture design and the built environment provides a convenient single source for all the key texts in the recent literature on architecture and technology The book contains over fifty carefully selected essays manifestoes reflections and theories by architects and architectural writers from 1900 to 2004 This mapping out of a century of architectural technology reveals the

discipline's long and close attention to the experience and effects of new technologies and provides a broad picture of the shift from the age of tools to the age of systems. Chronological arrangement and cross referencing of the articles enable both a thematic and historically contextual understanding of the topic and highlight important thematic connections across time. With the ever increasing pace of technological change this Reader presents a clear understanding of the context in which it has and does affect architecture.

**It Happened By Design: The Life and Work of Arthur Q. Davis**, In 1947 a time in which few New Orleans based architects were designing modern architecture Arthur Q Davis b 1920 and his partner Nathaniel C Curtis established their practice in the city. The Curtis and Davis firm is best known for designing the city's iconic Louisiana Superdome and such modernist landmarks as New Orleans's Rivergate Exhibition Center the Hyatt Regency and Marriott hotels and the Milton K Latta Library. Davis has designed public and private works commissioned throughout the United States as well as in Saudi Arabia Germany Egypt the Netherlands and the United Kingdom. Davis's firm has received more than fifty awards for design excellence and at age thirty eight Davis was made the youngest Fellow of the American Institute of Architects. *It Happened by Design* provides an affecting and thorough narrative of Davis's life and achievements. After serving in the Navy during World War II Davis graduated from Harvard University's School of Design on the GI Bill studying with Bauhaus school founder Walter Gropius. In this book Davis explains how he fused Creole and Beaux Arts ideas together filtering those concepts through modernist aesthetics to create new forms while preserving the old. The book shows Davis challenging the architectural status quo during the Cold War and beyond. Whether discussing the politics of building in postwar Berlin Vodou masters in the Caribbean or struggles to modernize the skyline of his beloved New Orleans Davis crafts a narrative with wit and insight. An introductory essay by J Richard Gruber places Davis's work in the context of American architecture and provides a thorough summation of the architect's oeuvre.

*People-Centered Architecture* Milton Shinberg, 2025-05-08 Shinberg has done something truly impressive. He has created a practical framework for architectural thinking and design grounded in the latest research on human perception and cognition. His ideas and insights offer a fresh perspective that have helped me clarify many aspects of my own approach to design. Stefan Behling, Architect, Senior Executive Partner, Head of Studio Foster Partners, London. This book is a must read for architects and designers at any stage of their career. His inspiring and practical narrative makes even the most complex concepts accessible. Along the way he offers aspiring and experienced professionals a fresh perspective to reignite their passion for architecture. Andrea de Paiva, Architect, Urban Planner and Author, Director of NeuroAU at the University of Brasilia. Milton Shinberg is at the vanguard of architects convinced that the design of buildings for people to flourish should incorporate a deep understanding of human psychology and neuroscience. A very clearly written book rich with reflections from the science of human emotions, embodiment and aesthetics. *People-Centered Architecture* will greatly enhance architectural thinking, education and practice. Anjan Chatterjee, MD, FAAN, Professor of Neurology, Psychology and Architecture, University of

Pennsylvania A veteran architect's pragmatic guide to re-energizing design thinking architectural practice and architectural education with pivotal insights from the human sciences and wisdom harvested from non-architects *People Centered Architecture Design Practice Education* is a unique and probing exploration designed to help architects better serve everyone who uses what architects design In this one of a kind book architect and educator Milton Shinberg presents game-changing approaches to enhance reorient and re-energize design thinking Shinberg draws from decades of dialogue with architects designers clients artists scientists teachers and his own students His prompts and provocations written in a clear and accessible narrative style are organized to help architects who are humanists come to know much more about humans Wise design becomes easier In one concise volume *People Centered Architecture Design Practice Education* delivers a vibrant framework for architectural practice for students and teachers of architecture and for clients and stakeholders Through this book each will see their project partners more clearly more empathetically and in ways that foster richer better brainstorming and more productive collaboration The coalition of the curious people intrigued by architecture and architects will get a peak behind the curtain

*Newfoundland Modern* Robert Mellin, 2011 The architecture of Newfoundland typically evokes images of spare but colourful houses and outbuildings by the sea Newfoundland Modern reveals another dimension that challenges this impression In over 220 drawings and photographs Robert Mellin presents the development of architecture in the decades immediately following Newfoundland's 1949 union with Canada Newfoundland's wholehearted embrace of modern architecture in this era affected planning as well as the design of cultural facilities commercial and public buildings housing recreation educational facilities and places of worship and Premier Joseph Smallwood often relied on modern architecture to demonstrate the progress made by his administration Mellin explores the links between Smallwood and modern architecture revealing how Smallwood guided the development of numerous architectural projects He also looks at the work of two innovative local architects Frederick A Colbourne and Angus J Campbell showing how their architecture was influenced by their life-long interest in art The first comprehensive work on an important period of architectural development in urban and rural Newfoundland Newfoundland Modern complements Mellin's award-winning book on the outport of Tilting Fogo Island

**Architecture in an Age of Uncertainty** Benjamin Flowers, 2016-04-15 In the past two decades economic bubbles inflated and architectural spending around the globe reached fever pitch In both well-established centers of capital accumulation and far-flung locales audacious building projects sprang up while the skyscraper heretofore more commonly associated with American capitalism seemed as if it might pack up and relocate to Dubai and Shanghai Of course much has changed in the past couple of years In formerly free spending Dubai the tallest building in the world is now named after the president of Abu Dhabi after he stepped in with last minute debt financing In cities across the United States housing prices have nose-dived and cleared lots sit ready for commercial redevelopment that likely won't take place

for another decade Similar stories are not hard to find in many other nations Architecture firms that swelled in flush days are jettisoning employees at a startling rate In the context of economic instability and its attendant social and political consequences this edited volume brings together scholars critics and architects to discuss the present state of uncertainty in the practice and discipline of architecture The chapters are organized into three main areas of inquiry economics practice and technology Within this larger framework authors explore issues of security ecological design disaster architecture the future of architectural practice and the ethical obligations of the social practice of design In doing so it argues that this period has actually afforded architecture a valuable moment of self reflection where alternative directions for both the theory and practice of architecture might be explored rather than continuing with an approach which was so nurtured by capitalist prosperity and affluence

**Czech American Bibliography** Miloslav Rechcigl, 2011-10-20 This is a comprehensive bibliography of publications relating to Czechs in America from the earliest time since the discovery of the New World to date covering their settlement community life and their contributions to their host country Although emphasis is on English titles including books as well as articles the relevant titles in Czech language have also been included particularly in those areas where there is a paucity of English titles English translations of the Czech titles were normally placed in parentheses To assure maximum utility the bibliography has been organized and classified into specific sectors by subject Under most major headings general surveys are listed first followed by more specific categories which have in turn been subdivided into subcategories Individual entries in all sections are arranged chronologically Under most subject areas separate biographical sections were added comprising individuals of note in the respective fields Apart from providing information on just about every aspect of human endeavor it is hoped that it will induce serious students and scholars to do more work in areas that have not been adequately researched
