### **Richard Pace A Tudor Diplomatist:**

*Richard Pace, a Tudor Diplomatist* Jervis Wegg, 1932      **Religious Identities in Henry VIII's England** Prof Dr Peter Marshall, 2013-06-28 Henry VIII's decision to declare himself supreme head of the church in England and thereby set himself in opposition to the authority of the papacy had momentous consequences for the country and his subjects. At a stroke people were forced to reconsider assumptions about their identity and loyalties in rapidly shifting political and theological circumstances. Whilst many studies have investigated Catholic and Protestant identities during the reigns of Elizabeth and Mary, much less is understood about the processes of religious identity formation during Henry's reign. In this volume Peter Marshall explores a wide range of evidence that underlines the complex web of overlapping and competing identities that people were forced to assume as a religiously conservative king sought to take control of his national church. Investigating broad issues of conversion, polemic and propaganda, scripture, exile, forgery and miracles, as well as looking at specific cases of individuals and events, a rich picture is built up of the ambiguities and paradoxes of the early reformation process in England. Consisting of three entirely new chapters and eight previously published but updated essays, this volume provides a fascinating insight into the complex religious developments of early sixteenth century England. As Tudor religious history enters a post revisionist phase that acknowledges the strength and vitality of traditional religious culture whilst reasserting the broad appeal of the evangelical message, this volume provides a timely reassessment and critique of the subject.

**Major Tudor Authors** Alan Hager, 1997-06-18 The Tudor era 1485-1603 was one of the most culturally significant periods in history. Under three generations of Tudor rulers, the era witnessed the advent of humanism, the birth of the Reformation, and the rise of the British Empire. The literature of the period is marked by complexity of thought and form and reflects the political, religious, and cultural changes of the era. This reference book surveys the literature of Tudor England. Included are alphabetically arranged entries for nearly 100 authors who wrote between 1485 and 1603. Some figures covered are widely taught, such as Shakespeare, Donne, and Spenser. Others are less well known, such as Edward Fairfax and Abraham Fraunce. The work includes entries for notable women writers of the period, many of whom have been neglected until recent years. Also included are entries for continental writers such as Ariosto, Tasso, Calvin, and Erasmus, whose writings were influential in England. Entries are written by expert contributors and contain valuable bibliographies of primary and secondary sources. Included are entries for nearly 100 people who wrote between 1485 and 1603. The entries are written by expert contributors and are arranged alphabetically to facilitate use. Some of the authors profiled are major canonical figures, such as Shakespeare, Spenser, and Donne. But the volume also includes a significant number of entries for women writers whose work has been unjustly disregarded until recent years. While most of the authors were from England, the volume contains entries on figures such as Erasmus, who though born in another country wrote important works in England, and on writers such as Machiavelli, Calvin, Ariosto, and Tasso, whose works were almost immediately adopted, translated, or otherwise

made part of Tudor culture Each entry provides a brief biography which is followed by a discussion of major works and themes a review of the author s critical reception and a bibliography of primary and secondary sources A Companion to Juan Luis Vives Charles Fantazzi,2008 Subsequent chapters discuss Vives s ideas on the soul especially his analysis of the emotions his contribution to rhetoric and dialectic and a posthumous defense of the Christian religion in dialogue form BOOK JACKET

**Reassessing Tudor Humanism** J. Woolfson,2002-06-19 This collection of essays by an international team of experts explores the wideranging impact of Renaissance humanism on sixteenth century England Investigating areas as diverse as art education religion political thought literature and science the book offers fresh and challenging accounts of prominent Tudor figures such as Thomas More William Tyndale and John Foxe As well as historiographical overviews of the subject and a discussion of the fifteenth century background to Tudor developments one of the book s central themes is the nature of England s fundamental cultural experiences in relation to continental Europe *Martianus Capella in the Late Middle Ages and Renaissance* Katie Reid,2023-10-09 In this book Katie Reid argues that the fifth century author Martianus Capella was a significant influence in the late Middle Ages and Renaissance His poetic encyclopaedia *The Marriage of Philology and Mercury* was a source for writing on the liberal arts allegory and classical mythology from 1300 to 1650 In fact writers of this period had much more in common with Martianus Capella than they did with older ancients like Homer and Virgil As such we must reshape our understanding of late medieval and Renaissance encounters with the classical world by exploring their roots in Late Antiquity

**The Philosopher in Early Modern Europe** Conal Condren,Stephen Gaukroger,Ian Hunter,2006-09-28 In this groundbreaking collection of essays the history of philosophy appears in a fresh light not as reason s progressive discovery of its universal conditions but as a series of unreconciled disputes over the proper way to conduct oneself as a philosopher By shifting focus from the philosopher as proxy for the universal subject of reason to the philosopher as a special persona arising from rival forms of self cultivation philosophy is approached in terms of the social office and intellectual deportment of the philosopher as a personage with a definite moral physiognomy and institutional setting In so doing this collection of essays by leading figures in the fields of both philosophy and the history of ideas provides access to key early modern disputes over what it meant to be a philosopher and to the institutional and larger political and religious contexts in which such disputes took place Female Monastic Life in Early Tudor England Barry Collett,2016-12-05 This gendered translation of the Benedictine Rule for women in 1517 is also a handbook for women on exercising authority management skills and the art of good governance including monastic property and relations with the outside world Barry Collett here provides a modern facsimile edition of Fox s translation written in the tumbling phrases of passionate prose that make Fox stand out as a literary figure of the English Renaissance Collett also provides an extensive introduction that argues that Fox s experience as an administrator and senior political adviser with special responsibility for foreign affairs mainly with Scotland and France the political situation in 1516 and social concerns Fox shared with Thomas

More all provide keys to understanding this translation of the rule Richard Fox was king s secretary Lord Privy Seal and Bishop of Winchester and founder of Corpus Christi College in Oxford He was an administrator who reflected much on the proper exercise of authority and responsibility at all levels especially through negotiated co operation He strongly supported monastic reforms and when a group of abbesses requested a translation for sisters unable to understand Latin this was his response It provides a unique window into the world of female spirituality just a few months before Luther s reformation began The exercise of God given authority by women is described in the same possibly stronger terms as for men Fox expressed no reservations about the exercise of authority by women His indifference to sexual distinctions arose paradoxically from his preoccupation with the skilful use of God given functioning of authority in a hierarchical society

**Humanism in the Age of Henry VIII** Maria Dowling,2025-03-03 First published in 1986 Humanism in the Age of Henry VIII is concerned with the flourishing humanism outside the religious and political spheres in many different fields and its intellectual and cultural impact on the schools and universities and in the realm of private study paying particular attention to English contacts with European humanists It is notorious that the renaissance reached England comparatively late but in the early sixteenth century the new learning was enthusiastically welcomed by the young Henry VIII and Katherine of Aragon During Henry s long reign both the religious emphasis of humanism and the King s needs changed and this book investigates the relation of humanists to religious policy The qualities and accomplishments of the renaissance gentleman are also considered as is the influence of the new learning on the studies and status of women This is an important historical reference work for scholars and researchers of British history

**Humanism and the Reform of Sacred Music in Early Modern England** Hyun-Ah Kim,2016-05-13 John Merbecke c 1505 c 1585 is most famous as the composer of the first musical setting of the English liturgy The Booke of Common Praier Noted BCPN published in 1550 Not only was Merbecke a pioneer in setting English prose to music but also the compiler of the first Concordance of the whole English Bible 1550 and of the first English encyclopaedia of biblical and theological studies A Booke of Notes and Common Places 1581 By situating Merbecke and his work within a broader intellectual and religio cultural context of Tudor England this book challenges the existing studies of Merbecke based on the narrow theological approach to the Reformation Furthermore it suggests a re thinking of the prevailing interpretative framework of Reformation musical history On the basis of the new contextual study of Merbecke this book seeks to re interpret his work particularly BCPN in the light of humanist rhetoric It sees Merbecke as embodying the ideal of the Christian musical orator demonstrating that BCPN is an Anglican epitome of the Erasmian synthesis of eloquence theology and music The book thus depicts Merbecke as a humanist reformer through re evaluation of his contributions to the developments of vernacular music and literature in early modern England As such it will be of interest not only to church musicians but also to historians of the Reformation and students of wider Tudor culture A *Brief History of the English Reformation* Derek Wilson,2012-06-21 Religion politics and fear how England was transformed

by the Tudors The English Reformation was a unique turning point in English history Derek Wilson retells the story of how the Tudor monarchs transformed English religion and why it still matters today Recent scholarly research has undermined the traditional view of the Reformation as an event that occurred solely amongst the elite Wilson now shows that although the transformation was political and had a huge impact on English identity on England's relationships with its European neighbours and on the foundations of its empire it was essentially a revolution from the ground up By 1600 in just eighty years England had become a radically different nation in which family work and politics as well as religion were dramatically altered Praise for Derek Wilson Stimulating and authoritative John Guy Masterly Wilson has a deep understanding of characters reaching out across the centuries Sunday Times *The Theology of John Fisher* Richard Rex,2003-09-18 This book examines the intellectual career of Bishop John Fisher 1468-1535 the early sixteenth century bishop of Rochester and victim of Henry VIII's Reformation whose numerous writings included one of the most influential refutations of Martin Luther of the century It places Fisher's writings in the context of contemporary movements of Renaissance and Reformation The Marrying of Anne of Cleves Retha M. Warnicke,2000-04-13 A study of the marrying of Anne of Cleves to Henry VIII and of sexual court politics Erasmus and His Books Egbertus Van Gulik, **The Discovery of Hebrew in Tudor England** G. Lloyd Jones,1983 **The Reopening of the Western Mind** Charles Freeman,2023-02-07 A monumental and exhilarating history of European thought from the end of Antiquity to the beginning of the Enlightenment 500 to 1700 AD tracing the arc of intellectual history as it evolved setting the stage for the modern era With more than 140 illustrations 90 in full color Charles Freeman lauded historical scholar and author of *The Closing of the Western Mind* A triumph The Times London explores the rebirth of Western thought in the centuries that followed the demise of the classical era As the dominance of Christian teachings gradually subsided over time a new open mindedness made way for the ideas of morality and theology and fueled and formed the backbone of the Western mind of the late Middle Ages the Renaissance and beyond In this wide ranging history Freeman follows the immense intellectual development that culminated in the Enlightenment from political ideology to philosophy and theology as well as the fine arts and literature He writes in vivid detail of how Europeans progressed from the Christian minded thinking of Saint Augustine to the more open minded later scholars such as Michel de Montaigne leading to a broader more humanist way of thinking He explores how the discovery of America fundamentally altered European conceptions of humanity religion and science how the rise of Protestantism and the Reformation profoundly influenced the tenor of politics and legal systems with enormous repercussions and how the radical Christianity of philosophers such as Spinoza affected a rethinking of the concept of religious tolerance that has influenced the modern era ever since **Falcon** Helen Macdonald,2016-11-15 Before best selling author Helen Macdonald told the story of the goshawk in *H Is for Hawk* she told the story of the falcon in a cultural history of the masterful creature that can cut the sky in two with the perfectly aerodynamic profile of a raindrop as she so incisively puts it In talon sharp prose she explores the spell

the falcon has had over her and by extension all of us whether we've seen them through binoculars framed on gallery walls versified by poets flown as hunting birds through Manhattan windows sewn on flags stamped on badges or winnowing through the clouds over abandoned arctic radar stations Macdonald dives through centuries and careens around the globe to tell the story of the falcon as it has flown in the wild skies of the natural world and those of our imagination Mixing history myth and legend she explores the long history of the sport of falconry in many human cultures from Japan to Abu Dhabi to Oxford she analyzes the falcon's talismanic power as a symbol in art politics and business and she addresses the ways we have both endangered and protected it Along the way we discover how falcons were mobilized in secret military projects their links with espionage the Third Reich the Holy Roman Empire and space programs and how they have figured in countless stories of heroism and of course the erotic Best of all Macdonald has given us something fresh a new introduction that draws on all her experience to even further invigorate her cherished subject The result is a deeply informed book written with the same astonishing lyrical grace that has captivated readers and had everyone talking about this writer cum falconer

*Guillaume Budé and Humanism in the Reign of Francis I* David O. McNeil, 1975      **The Correspondence of Erasmus: Letters 1356 to 1534, 1523 to 1524** Desiderius Erasmus, 1974-01-01 In the letters 1523-4 Erasmus mounting anger at the authors of these attacks goes hand in hand with his slowly formed decision to publish a book against Luther on free will

**Contemporaries of Erasmus** Peter G. Bietenholz, Thomas Brian Deutscher, 2003-01-01 Offers biographical information about the more than 1900 people mentioned in the correspondence and works of Erasmus who died after 1450 and were thus approximately his contemporaries
