Rotberg,1990-10-25 The definitive biography of one of the most controversial figures of the 19th century captures a life that was complex and fascinating evil and good Illustrated The Foreign Office and Foreign Policy, 1919-1926 Ephraim Maisel,2013-11-01 Tells of the administrative changes of the post war period and of the senior permanent officials their personalities and cast of mind who advised the foreign secretary and carried out his policies *Théophile Delcassé and the Making of the Entente Cordiale* C. Andrew,1968-06-18 A Distinctive People Brian Talbot,2015-02-01 In the twenty first century there are an increasing number of books in different fields that are evaluating critically aspects of life in the previous century The Religious History of British people in this period is a significant part of that story A Distinctive People will evaluate aspects of the history of one of the Christian denominations in Scotland looking at major themes such as Baptist attitudes to war and pacifism the influence of the charismatic movement and their involvement in social action their contribution to ecumenical relations in Scotland and relationships with fellow Baptists in other countries together with the theological influences on Baptists and a chapter on home mission COMMENDATION This thoroughly researched and engagingly written set of essays will be of keen interest not to just to Scottish Baptists eager to know about their recent past but also to all those concerned with the changing place of Christian belief and practice in twentieth century Scottish society Brian Stanley the University of Edinburgh UK The Haldanes of Gleneagles Sir James Aylmer Lowthorpe Haldane,1929 *Churchill as Home Secretary* Charles Stephenson,2023-02-22 There can be few statesmen whose lives and careers have received as much investigation and literary attention as Winston Churchill Relatively little however has appeared which deals specifically or holistically with his first senior ministerial role that of Secretary of State for the Home Office This may be due to the fact that of the three Great

Offices of State which he was to occupy over the course of his long political life his tenure as Home Secretary was the briefest The Liberal Government of which he was a senior figure had been elected in 1906 to put in place social and political reform Though Churchill was at the forefront of these matters his responsibility for domestic affairs led to him facing other major challenges departmentally this was a time of substantial commotion on the social front with widespread industrial and civil strife Even given that Home Secretaries never do have an easy time his period in office was thus marked by a huge degree of political and social turbulence The terms Tonyandy and Peter the Painter perhaps spring most readily to mind Rather less known is his involvement in one of the burning issues of the time female suffrage and his portrayal as the prisoners friend in terms of penal reform Aged 33 on appointment and the youngest Home Secretary since 1830 he became empowered to wield the considerable executive authority inherent in the role of one of His Majesty s Principal Secretaries of State and he certainly did not shrink from doing so There were of course commensurate responsibilities and how he shouldered them is worth examination *Standard Catalog for Public Libraries* Minnie Earl Sears,1929 **Teaching**

**Gender** Samuel Rutherford,2025-03-17 In Britain in the late nineteenth and early twentieth centuries universities were one of many institutional state structures wherein gender difference the male breadwinner ideal and heterosexuality were central to a conception of citizenship But while the state could enforce these norms through the parameters it set on the extension franchise or the distribution of welfare benefits individual women and men also played active roles in creating and renegotiating them through the messy interactions of everyday life *Teaching Gender* immerses the reader in lecture theatres University Senate meetings student unions nightclubs and halls of residence to show how individuals efforts to find workable paradigms for relating to one another across gender lines took shape within specific institutional political and financial constraints and in the context of a historical moment when anxiety accrued around non normative genders and sexualities as symptomatic of wider social and political instability Drawing on extensive research in the archives of ten colleges and universities across England and Scotland Samuel Rutherford shows that the nationalization and centralization of higher education at the turn of the twentieth century resulted incidentally in coeducation over the protest of feminist activists who supported gender segregation that students negotiation of cross gender interaction in coeducational universities ultimately led them to identify heterosexuality as a seemingly less fraught paradigm than more gender neutral conceptions of corporate life and that single sex men s and women s colleges though increasingly marginal became important sites for the theorization of life paths and identities outside the heterosexual norm Through detailed recovery both of political and financial decision making and of the experiences and emotions of faculty students administrators donors and national politicians Rutherford paints a vivid and resonant picture of the university campus as a key site for the transmission of norms around gender and sexuality
