Richard Downing Economic Advocacy And Social Reform In Australia:

Richard Downing Nicholas Brown,2001 In this first biography of Downing Nicholas Brown is particularly interested to examine his rich and complex contributions to public debate in Australia Downing s interests ranged widely from economics to the arts and education and their expression has much to tell us about Australian politics and society Readers will find many revealing insights into the discussion and formation of public policy during the post war decades and into a particular style of Australian liberalism The story of Richard Downing s life will fascinate readers and its telling illuminates many aspects of contemporary Australian history BOOK JACKET Australia's Boldest Experiment Stuart Macintyre,2015-06-01 In this landmark book Stuart Macintyre explains how a country traumatised by World War I hammered by the Depression and overstretched by World War II became a prosperous successful and growing society by the 1950s An extraordinary group of individuals notably John Curtin Ben Chifley Nugget Coombs John Dedman and Robert Menzies re made the country planning its reconstruction against a background of wartime sacrifice and austerity The other part of this triumphant story shows Australia on the world stage seeking to fashion a new world order that would bring peace and prosperity This book shows the 1940s to be a pivotal decade in Australia At the height of his powers Macintyre reminds us that key components of the society we take for granted work welfare health education immigration housing are not the result of military endeavour but policy planning politics and popular resolve **A History of Australasian Economic Thought** Alex Millmow,2017-07-14 This book explains how Australian and New Zealand economists exerted influence on economic thought and contributed to the economic life of their respective countries in the twentieth century Besides surveying theorists and innovators this book also considers some of the key expositors and builders of the academic economics profession in both countries The book covers key economic events including the Great Depression the Second World War the post war boom and the great inflation that overtook it and lastly the economic reform programs that both Australia and New Zealand undertook in the 1980s

Old Age in Australia Pat Jalland,2015-01-05 The Australian population is rapidly getting older demanding important policy and service decisions This groundbreaking book is the first to explore a 100 year history of older people in Australia from 1880 to 1980 Over that period the aged suffered as forgotten people until 1945 when there was the promise of a new deal for the elderly Major themes examined include family histories of aged care poverty social and medical policy gender the impact of wars and economic depression housing nursing homes and the retirement debates Old Age in Australia provides essential historical context for current discussions about the implications of ageing in Australia **The Australian Study of Politics** R. Rhodes,2009-11-11 The Australian Study of Politics provides the first comprehensive reference book on the history of the study of politics in Australia whether described as political studies or political science It focuses on Australia and on developments since WWII also exploring the historical roots of each major subfield Educating for Business, Public Service and the Social Sciences Peter Groenewegen,2009 Tertiary economics and business education started early in

Australia but was not organised on a faculty basis until the 20th century Commerce and business teaching at Sydney University began in 1906 and from 1920 was taught in the Faculty of Economics together with public administration and accounting Its progress for the next 80 years is chronicled in this comprehensive history of the Faculty of Economics The book presents a broad overview of staff students and courses of study during Depression war postwar reconstruction student unrest and successful moves to add further Business studies A prelude surveys the 19th century beginnings and the epilogue presents the varied education opportunities offered for the 21st century by the Faculty of Economics and Business *The Power of Economic Ideas* Alex Millmow, 2010-05-01 Economics Keynes once wrote can be a very dangerous science Sometimes though it can be moulded to further the common good though it might need a leap in mental outlook a whole new zeitgeist to be able to do so This book is about a transformation in Australian economists thought and ideas during the interwar period It focuses upon the interplay between economic ideas players and policy sometimes in the public arena In a decade marked by depression recovery and international political turbulence Australian economists moved from a classical orthodox economic position to that of a cautious Keynesianism by 1939 We look at how a small collective of economists tried to influence policy making in the nineteen thirties Economists felt obliged to seek changes to the parameters as economic conditions altered but more importantly as their insights about economic management changed There are three related themes that underscore this book Firstly the professionalisation of Australian economics took a gigantic leap in this period aided in part by the adverse circumstances confronting the economy but also by the aspirations economists held for their discipline A second theme relates to the rather unflattering reputation foisted upon interwar economists after 1945 That transition underlies a third theme of this book namely how Australian economists were emboldened by Keynes's General Theory to confidently push for greater management of economic activity By 1939 Australian economists conceptualized from a new theoretic framework and from one which they advanced comment and policy advice This book therefore will rehabilitate the works of Australian interwar economists arguing that they not only had an enviable international reputation but also facilitated the acceptance of Keynes's General Theory among policymakers before most of their counterparts elsewhere **Australian Political Lives** John Nethercote, Tracey Arklay, John Wanna, 2006-10-01 This monograph brings together some of the best practitioners of the art and craft of political biography in Australia They are simultaneously some of our best scholars who at least in part have turned their attention to writing Australian political lives They are not merely chroniclers of our times but multidisciplinary analysts constructing layers of explanation and theoretical insight They include academic professional and amateur biographers scholars from a range of disciplines politics history sociology public administration gender studies and politicians who for a time strutted the political stage The assembled papers explore the strengths and weaknesses of the biographical approach the enjoyment it can deliver the problems and frustrations of writing biographies and the various ways the project can be approached by those constructing these lives They probe the art and

craft of the political biographer **Peter Sculthorpe** Graeme Skinner,2015-10-01 Peter Sculthorpe who died in 2014 remains Australia s best known composer and is widely held to be the most important creative musical spirit the country has produced Beautifully written and fastidiously researched this authorised biography provides an insight into Sculthorpe s formation years his quest for personal voice and his arrival through many creative friendships and collaborations at a place in the collective heart of the nation It charts the realisation of a youthful vocation to become not merely a composer but an Australian composer Graeme Skinner s biography is also a social history examining Sculthorpe s unique role in the creation of Australian musical modernism in the 1960s an important era in Australia s cultural evolution **A Century of Influence** Renate Howe,2009 The Australian Student Christian Movement has provided a forum for exploring spirituality and social issues in the nations universities for over a century Prime Ministers Robert Menzies and Bob Hawke were ASCM members The ASCM was opposed to racism at home and abroad founding Aust Volunteers Abroad and opposing White Australia Policy

the Seven Dwarfs has been remarkably persistent Originally a witty epithet applied to a powerful group of senior public servants the term has come to represent the professionalisation of Australian government administration during the Second World War and post war reconstruction era and into the following two decades of expansion This was a period when for the first time talented university graduates entered the public service rose to senior levels and exerted great influence over the affairs of the Commonwealth With the secure tenure of being permanent heads of departments they defined the age of the public service mandarin This book explores the lives and influence of the Seven Dwarfs and their colleagues bringing together the leading researchers on post war Australian administration Featuring four thematic chapters and ten biographical portraits it offers a fascinating insight into the workings of the Commonwealth Public Service during a critical period in its history
