**Irish Chancery Reports**, 1856 A Genealogical and Heraldic Dictionary of the Landed Gentry of Great Britain & Ireland: A to L.-v. 2. M to Z John Burke, Bernard Burke, 1845 *A Jurisprudence of Movement* Olivia Barr, 2016-02-22 Law moves whether we notice or not Set amongst a spatial turn in the humanities and jurisprudence more specifically this book calls for a greater attention to legal movement in both its technical and material forms Despite various ways the spatial turn has been taken up in legal thought questions of law movement and its materialities are too often overlooked This book addresses this oversight and it does so through an attention to the materialities of legal movement Paying attention to how law moves across different colonial and contemporary spaces this book reveals there is a problem with common law's place Primarily set in the postcolonial context of Australia although ranging beyond this nationalised topography both spatially and temporally this book argues movement is fundamental to the very terms of common law's existence How then might we move well Explored through examples of walking and burial this book responds to the challenge of how to live with a contemporary form of colonial legal inheritance by arguing we must take seriously the challenge of living with law and think more carefully

about its spatial productions and place making activities Unsettling place this book returns the question of movement to jurisprudence **Natural Art**, *A genealogical and heraldic dictionary of the landed gentry of Great Britain & Ireland for 1852* Bernard Burke,1852 **Richard Long** Richard Long,Joanna Thornberry,2003 Published to accompany the exhibition held at the Haunch of venison London June 11 August 30 2003 **The Rodeo and Hollywood** Jim Ryan,2024-10-17 At rodeos in the 1940s Gene Autry sang and jumped his horse Champion through a flaming hoop In 1960s rodeo arenas Lorne Greene and Dan Blocker acted out a skit from their hit television show Bonanza In the same era familiar rodeo personalities like Hoot Gibson and Slim Pickens could be seen in movies or television shows This book profiles performers who crossed over between film studio and rodeo arena when Hollywood and the rodeo circuit were closely linked The first part traces the careers of rodeo participants who also contributed to film or television The next two sections describe rodeo appearances of Western screen stars who entertained at rodeos Some appeared solo and others with a television co star or two A fourth section summarizes rodeo related films Appendices introduce golden age rodeo personalities and outline rodeos known for presenting Western stars *A Genealogical and Heraldic Dictionary of the Landed Gentry of Great Britain and Ireland* John Burke,Sir Bernard Burke,1850 Modern & Contemporary Art Michele Dantini,2008 This engrossing volume takes us on a fascinating visual journey through the most groundbreaking and avant garde art of the early 20th century to the present Stunning high quality photographs of major artworks accompany illuminating discussions of the masters of modern and contemporary painting sculpture architecture and conceptual art Here are giants of invention such as Picasso and Matisse the German expressionists Dadaists constructivists surrealists abstract expressionists minimalists pop artists and today s cutting edge creators They re all carefully placed in cultural context with ideas movements events artists and works beautifully examined Scholars art aficionados students gallery owners and art historians will all find this mainstream accessible guide appealing *Listening Devices* Jens Gerrit Papenburg,2023-05-04 From 1940 to 1990 new machines and devices radically changed listening to music Small and large single records new kinds of jukeboxes and loudspeaker systems not only made it possible to playback music in a different way they also evidence a fundamental transformation of music and listening itself Taking the media and machines through which listening took place during this period *Listening Devices* develops a new history of listening Although these devices were and often still are easily accessible up to now we have no concept of them To address this gap this volume proposes the term listening device In conjunction with this concept the book develops an original and fruitful method for exploring listening as a historical subject that has been increasingly organized in relation to technology Case studies of four listening devices are the points of departure for the analysis which leads the reader down unfamiliar paths traversing the popular sound worlds of 1950s rock n roll culture and the disco and club culture of the 1970s and 1980s Despite all the characteristics specific to the different listening devices they can nevertheless be compared because of the fundamental similarities they share they model and

manage listening they actively mediate between the listener and the music heard and it is this mediation that brings both listener and the music listened to into being Ultimately however the intention is that the listening devices themselves should not be heard so that the music they playback can be heard Thus they take the history of listening to its very limits and confront it with its other a history of non listening The book proposes listening device as a key concept for sound studies popular music studies musicology and media studies With this conceptual key a new productive understanding of past music and sound cultures of the pre digital era can be unlocked and not least of the listening culture of the digital present

*Richard Matheson on Screen* Matthew R. Bradley, 2010-10-04 Though innumerable biographies have been written about novelists playwrights and poets screenwriters are rarely granted this distinction even ones as prolific and successful as Richard Matheson Beginning with *The Incredible Shrinking Man* in 1957 Matheson has occupied a unique position in writing for television and cinema for more than fifty years This biography documents his rise to prominence his literary influences and the role he played in the horror and science fiction renaissance The narrative examines each of Matheson's works in chronological order with an index indicating where each can be found from his early work in the 1950s through *I Am Legend* in 2007

**Raw: Architectural Engagements with Nature** Solveig Bøe, Hege Charlotte Faber, 2016-04-08 Through cross disciplinary explorations of and engagements with nature as a forming part of architecture this volume sheds light on the concepts of both nature and architecture Nature is examined in a raw intermediary state where it is noticeable as nature despite but at the same time through man's effort at creating form This is done by approaching nature from the perspective of architecture understood not only as concrete buildings but as a fundamental human way both of being in and relating to the world Man finds and forms places where life may take place Consequently architecture may be understood as ranging from the simple mark on the ground and primitive enclosure to the contemporary megalopolis Nature inheres in many aesthetic forms of expression In architecture however nature emerges with a particular power and clarity which makes architecture a raw kind of art Even though other forms of art as well as aesthetic phenomena outside the arts are addressed the analogy to architecture will be evident and important Thus by using the concept of raw as a focal point this book provides new approaches to architecture in a broad sense as well as other aesthetic and artistic practices and will be of interest to readers from different fields of the arts and humanities spanning from philosophy and theology to history of art architecture and music
