## **Richard Misrach The Sky:**

The Sky Book Richard Misrach, Rebecca Solnit, 2000 Richard Misrach has redefined contemporary landscape photography with his images of the splendor and destruction of the American West Each of his cantos considers another chapter in the epic story of humankind and the land Far from the edenic pristine landscapes of early practitioners such as Carleton Watkins Eadweard Muybridge and Ansel Adams Misrach's compelling and often troubling images of the American West pose important questions about human impact on the natural world Beneath the remarkable beauty of Misrach's color photographs are scenes of floods fires nuclear testing grounds dead animals and the debris of society The photographs in The Sky Book comprise Richard Misrach's most recent most ambitious series which transposes his narrative from the land to the sky The images mediate between document and abstraction reality and metaphor Drawing on photography's documentary tradition Misrach contextualizes each photograph with respect to time and place rooting the celestial realm firmly in the earthly and political one In this way his images are reminiscent of the efforts of nineteenth century expeditionary photographers to record the natural resources of the frontier At the same time Misrach's sky pictures are a quiet meditation and a study of ephemerality light and color They evoke a legacy of abstraction in art and photography that includes Alfred Stieglitz's Equivalents and Mark Rothko's color field paintings

movies and television Zoomscape shows how we now perceive buildings and places at high speeds across great distances through edited and multiple reproductions Nowadays our views of the architectural landscape are modulated by the accelerator pedal and the remote control by studio production techniques and airplane flight paths Using examples from high art and popular culture from the novels of Don DeLillo to the opening credits of *The Sopranos* Mitchell Schwarzer shows that the zoomscape has brought about unprecedented and often marvelous new ways of perceiving the built environment

Southwest represented the migrant's dream of a stable and bountiful homeland Around the time of the Great Depression however the Southwest suddenly became integrated into a much larger economic and cultural system Audrey Goodman examines how since that time these southwestern landscapes have come to reveal the resulting fragmentation of identity and community Through analyzing a variety of texts and images Goodman illuminates the ways that modern forces such as militarization environmental degradation internal migration and an increased border patrol presence have shattered the perception of a secure homeland in the Southwest The deceptive natural beauty of the Southwest deserts shields a dark history of trauma and decimation that has remained as a shadow on the region's psyche The first to really synthesize such wide ranging material about the effects of the atomic age in the Southwest Goodman realizes the value of combined visual

and verbal art and uses it to put forth her own original ideas about reconstructing a new sense of homeland Lost Homelands reminds us of the adversity and dislocation suffered by people of the Southwest by looking at the ways that artists photographers filmmakers and writers have grappled with these problems for decades In assessing the ruination of the region however Goodman argues that those same artists and writers have begun to reassemble a new sense of homeland from these fragments     Style and Substance Margaret Russell,2009-10-28 Style and Substance offers a unique look at hundreds of dazzling rooms the magazine has showcased during its first two decades Illustrations throughout     Popular Photography ,1984-04     **Otherwise Known as the Human Condition** Geoff Dyer,2011-03-29 Winner of the National Book Critics Circle Award in Criticism A New York Times Book Review Editors Choice A New York Times Top 10 Nonfiction Book of the Year as selected by Dwight Garner Geoff Dyer has earned the devotion of passionate fans on both sides of the Atlantic through his wildly inventive romantic novels as well as several brilliant uncategorizable works of nonfiction All the while he has been writing some of the wittiest most incisive criticism we have on an astonishing array of subjects music literature photography and travel journalism that in Dyer s expert hands becomes a kind of irresistible self reportage **Otherwise Known as the Human Condition** collects twenty five years of essays reviews and misadventures Here he is pursuing the shadow of Camus in Algeria and remembering life on the dole in Brixton in the 1980s reflecting on Richard Avedon and Ruth Orkin on the status of jazz and the wonderous Nusrat Fateh Ali Khan on the sculptor ZadKine and the saxophonist David Murray in the same essay on his heroes Rebecca West and Ryszard Kapus cin ski on haute couture and sex in hotels Whatever he writes about his responses never fail to surprise For Dyer there is no division between the reflective work of the critic and the novelist s commitment to lived experience they are mutually illuminating ways to sharpen our perceptions His is the rare body of work that manages to both frame our world and enlarge it
