Space, Site, Intervention Erika Suderburg, 2000 From Ferdinand Cheval's Palais Ideal 1879 1905 and Simon Rodia's Watts Towers 1921 1954 to Ant Farm's Cadillac Ranch 1974 and Richard Serra's Tilted Arc 1981 installation art has continually crossed boundaries encompassing sculpture architecture performance and visual art Although unique in its power to transform both the site in which a work is constructed and the viewer's experience of being in a place installation art has not received the critical attention accorded other art forms In *Space Site Intervention* some of today's most prominent art critics curators and artists view installation art as a diverse multifaceted and international art form that challenges institutional assumptions and narrow conceptual frameworks The contributors discuss installation in relation to the genealogy of modern art community and corporate space multimedia cyberspace public and private ritual the gallery and the museum public and private patronage and political action This ambitious volume focuses on issues of class sexuality cultural identity race and gender and highlights a wide range of artists whose work is often marginalized by mainstream art history and criticism Together the essays in *Space Site Intervention* investigate how installation resonates within modern culture and society as well as its ongoing influence on contemporary visual culture

Richard Serra Sculpture Kynaston McShine, Richard Serra, Lynne Cooke, Museum of Modern Art (New York, N.Y.), 2007 This book offers a detailed presentation of Richard Serra's entire career from his early experiments with materials like rubber neon and lead to the environmentally scaled steel works of recent years including three monumental new sculptures created for the exhibition that this book accompanies

BOOK JACKET **Richard Serra** Richard Serra, Hal Foster, Museum of Contemporary Art (Los Angeles, Calif.), 1998 This major publication catalogues all of Richard Serra's sculpture of the last thirteen years presenting extensive photographic documentation of his site specific sculpture as well as an important critical text and an interview with the artist

Sculpture Robin Peck, 2004 *Sculpture* examines the philosophy history and material technology of sculpture within the frame of a travel narrative from Canada to New York and across Europe

The Spatial Politics of the Sculptural Euyoung Hong, 2016-10-04 *Space* is a formative factor in the production of sculpture Phenomenological thought interprets sculptural work in relation to the immersive experience of the viewer situating it within its environment But what possibilities lie beyond this unitary position What is the political potential of a sculptural object How can its spatial relations and movements be reconfigured beyond its immediate environment *Spatial Politics of the Sculptural* investigates the concept of space and its role in the production of the sculptural form from a multidimensional perspective Engaging with the work of Krauss Fried Merleau-Ponty Deleuze and Guattari and using case studies of urban development in Paris New York and Seoul it reinterprets and dislocates the sculptural form in terms of the political dynamism of space proposing a new methodology for reading producing and expanding sculptural practice Drawing on David Harvey's theory of capital it scrutinizes the idea of the spatial in the process of urbanization It examines the interrelationship between capital flow and accumulation and

explores the production and destruction of space in relation to the creation of three dimensional works of art In doing so it expands the idea of the sculptural object in relation to the urban environment The Art-Architecture Complex Hal

Foster,2013-07-23 Hal Foster author of the acclaimed Design and Crime argues that a fusion of architecture and art is a defining feature of contemporary culture He identifies a global style of architecture as practiced by Norman Foster Richard Rogers and Renzo Piano analogous to the international style of Le Corbusier Gropius and Mies More than any art today s global style conveys both the dreams and delusions of modernity Foster demonstrates that a study of the art architecture complex provides invaluable insight into broader social and economic trajectories in urgent need of analysis **Michael**

Heizer: The Once and Future Monuments William L. Fox,2019-09-24 The most comprehensive account available of Michael Heizer s art by a writer and curator who has critical experience with the artist and his work Michael Heizer is among the greatest and often least accessible American artists As one of the last living figures who launched the Land Art movement his legacy of works that are literally and metaphorically monumental has an incalculable influence on the world of sculpture and environmental art But his seclusion in the remote Nevada desert as well as his notorious obduracy have resulted in significant gaps in our critical understanding Michael Heizer The Once and Future Monuments spans the breadth of Heizer s career uniquely combining fieldwork personal narrative and biographical research to create the first major assessment in years of this titan of American art Author William L Fox founding director of the Center for Art Environment at the Nevada Museum of Art has alternately been a sponsor advocate and critic of Heizer s work for decades Fox s understanding of the artist s history and connection to landscape his time spent with Heizer at the remote ranch where Heizer is finishing his magnum opus the mile long sculpture City and his access to some of Heizer s key associates give him a unique position from which to discuss the artist s work Fox has also made numerous site visits to Heizer s work including early pieces in the Nevada desert now largely lost to the elements to correct the often inconsistent accounts of their locations Last Fox imparts a crucial new understanding of Heizer s work by elaborating on the artist s bond with his father the famed archaeologist and cultural ecologist Robert Heizer who enlisted his son on important digs in Mexico and Peru providing the young man with an appreciation of site landscape and geology that would thoroughly inform his work Michael Heizer The Once and Future Monuments is a long overdue addition to the critical and biographical literature of this major figure in American art **Josef**

Albers, Late Modernism, and Pedagogic Form Jeffrey Saletnik,2022-10-13 An incisive analysis of the pedagogy of influential artist and teacher Josef Albers An extraordinary teacher whose influence continues today Josef Albers helped shape the Bauhaus school in Germany and established the art and design programs at Black Mountain College in North Carolina and Yale University His books about color theory have informed generations and his artworks are included in the canon of high modernist non representational art The pedagogy Albers developed was a dynamic approach to teaching that transcended the modernist agendas and cultivated a material way of thinking among his students With this book Jeffrey

Saletnik explores the origins of Albers's teaching practices and their significance in conveying attitudes about form material and sensory understanding to artists Eva Hesse and Richard Serra He demonstrates how pedagogy is a framework that establishes the possibility for artistic discourse and how the methods through which artists learn are manifested in their individual practices Tracing through lines from Albers's training in German educational traditions to his influence on American postwar art Josef Albers Late Modernism and Pedagogic Form positions Albers's pedagogy as central to the life of modernism

Alternative Art, New York, 1965-1985 Julie Ault, Social Text Collective, Drawing Center (New York, N.Y.), 2002 A sweeping history of the New York art scene during the 1960s 1970s and 1980s reveals a powerful alternative art culture that profoundly influenced the mainstream Simultaneous Fine Arts

The Tilted Arc Controversy Harriet Senie, 2002

Contemporary Art About Architecture Nora Wendl, 2017-07-05 An important resource for scholars of contemporary art and architecture this volume considers contemporary art that takes architecture as its subject Concentrated on works made since 1990 Contemporary Art About Architecture A Strange Utility is the first to take up this topic in a sustained and explicit manner and the first to advance the idea that contemporary art functions as a form of architectural history theory and analysis Over the course of fourteen essays by both emerging and established scholars this volume examines a diverse group of artists in conjunction with the vernacular canonical and fantastical structures engaged by their work I Mangano Ovalle Matthew Barney Monika Sosnowska Pipa Nguyen duy and Paul Pfeiffer are among those considered as are the compelling questions of architecture's relationship to photography the evolving legacy of Mies van der Rohe the notion of an architectural unconscious and the provocative concepts of the unbuilt and the unbuildable Through a rigorous investigation of these issues Contemporary Art About Architecture calls attention to the fact that art is now a vital form of architectural discourse Indeed this phenomenon is both pervasive and in its individual incarnations compelling a reason to think again about the entangled histories of architecture and art

One Place after Another Miwon Kwon, 2004-02-27 A critical history of site specific art since the late 1960s Site specific art emerged in the late 1960s in reaction to the growing commodification of art and the prevailing ideals of art's autonomy and universality Throughout the 1970s and 1980s as site specific art intersected with land art process art performance art conceptual art installation art institutional critique community based art and public art its creators insisted on the inseparability of the work and its context In recent years however the presumption of unrepeatability and immobility encapsulated in Richard Serra's

famous dictum to remove the work is to destroy the work is being challenged by new models of site specificity and changes in institutional and market forces One Place after Another offers a critical history of site specific art since the late 1960s and a theoretical framework for examining the rhetoric of aesthetic vanguardism and political progressivism associated with its many permutations Informed by urban theory postmodernist criticism in art and architecture and debates concerning identity politics and the public sphere the book addresses the siting of art as more than an artistic problem It examines site specificity as a complex cipher of the unstable relationship between location and identity in the era of late capitalism The book addresses the work of among others John Ahearn Mark Dion Andrea Fraser Donald Judd Renee Green Suzanne Lacy Inigo Manglano Ovalle Richard Serra Mierle Laderman Ukeles and Fred Wilson *Sculpture*, 1999 **Richard Shiff: Writing After Art** Richard Shiff, 2023-05-16 A broad and deep anthology of critic and art historian Richard Shiff's most influential writings which have shaped our understanding of twentieth and twenty first century art Elegantly designed as intended for broad readership including art historians art critics artists among other lovers of art this volume is a must read experience with pleasure and discovery Phong Bui The Brooklyn Rail In his engaging and often strikingly deep observations of major modern and contemporary visual art Shiff has written about an impressive range of artists including Willem de Kooning Marlene Dumas Jasper Johns Donald Judd Barnett Newman Pablo Picasso and Bridget Riley A leading scholar and powerful voice Shiff's insight into some of the most prominent artistic practices spans generation place and approach as seen in this considered selection of essays on twenty six artists These writings first appeared in exhibition catalogues for retrospectives at galleries and institutions including the Centre Georges Pompidou the Solomon R Guggenheim Museum The Museum of Modern Art and Tate Modern Shiff supplements his unquestionable fluency in art history with insights cultivated from his readings in philosophy phenomenology literary theory and psychoanalysis among other fields Shiff's writing conceptually rich meditative and enjoyable to read is attuned to the nuances of artistic style and technique drawing out art's social implications not merely from broad histories but also directly from artists' mark making and technical gestures Actively engaged as a viewer and a writer Shiff has transformed the act of looking at art into contemplative and captivating writing Includes essays on Georg Baselitz Mark Bradford Georges Braque Jim Campbell Chuck Close Willem de Kooning Peter Doig Marlene Dumas Dan Flavin Suzan Frecon Lucian Freud Ellen Gallagher Jasper Johns Donald Judd Ellsworth Kelly Brice Marden Julie Mehretu Barnett Newman Pablo Picasso Bridget Riley Richard Serra Joel Shapiro Richard Tuttle Cy Twombly Jack Whitten and Zeng Fanzhi Retracing the Expanded Field Spyros Papapetros, Julian Rose, 2014-10-24 Scholars and artists revisit a hugely influential essay by Rosalind Krauss and map the interactions between art and architecture over the last thirty five years Expansion convergence adjacency projection rapport and intersection are a few of the terms used to redraw the boundaries between art and architecture during the last thirty five years If modernists invented the model of an ostensible synthesis of the arts their postmodern progeny promoted the semblance of pluralist fusion In 1979 reacting

against contemporary art's transformation of modernist medium specificity into postmodernist medium multiplicity the art historian Rosalind Krauss published an essay *Sculpture in the Expanded Field* that laid out in a precise diagram the structural parameters of sculpture architecture and landscape art Krauss tried to clarify what these art practices were what they were not and what they could become if logically combined The essay soon assumed a canonical status and affected subsequent developments in all three fields Retracing the Expanded Field revisits Krauss's hugely influential text and maps the ensuing interactions between art and architecture Responding to Krauss and revisiting the milieu from which her text emerged artists architects and art historians of different generations offer their perspectives on the legacy of *Sculpture in the Expanded Field* Krauss herself takes part in a roundtable discussion moderated by Hal Foster A selection of historical documents including Krauss's essay presented as it appeared in *October* accompany the main text Neither eulogy nor hagiography Retracing the Expanded Field documents the groundbreaking nature of Krauss's authoritative text and reveals the complex interchanges between art and architecture that increasingly shape both fields Contributors Stan Allen George Baker Yve Alain Bois Benjamin Buchloh Beatriz Colomina Penelope Curtis Sam Durant Edward Eigen Kurt W Forster Hal Foster Kenneth Frampton Branden W Joseph Rosalind Krauss Miwon Kwon Sylvia Lavin Sandro Marpillero Josiah McElheny Eve Meltzer Michael Meredith Mary Miss Sarah Oppenheimer Matthew Ritchie Julia Robinson Joe Scanlan Emily Eliza Scott Irene Small Philip Ursprung Anthony Vidler
