**A Ricoeur Reader** Paul Ricoeur, 1991-08-01 Paul Ricoeur is one of the most important modern literary theorists and a philosopher of world renown. This collection brings together his published articles, papers, reviews, and interviews that focus on literary theory and criticism. The first of four sections includes early pieces that explore the philosophical foundations for a post-structural hermeneutics. The second contains reviews and essays in which Ricoeur engages in debate over some of the central themes of literary theory, including figuration, configuration, and narrativity. In the third section are later essays on post-structuralist hermeneutics, and in the fourth, interviews in which he discusses text, language, and myths. Mario Valdés provides an introduction to the literary theories of Paul Ricoeur and the works in this collection, particularly He also includes a complete bibliography of Ricoeur's works that have appeared in English. *A Ricoeur Reader* Paul Ricoeur, Mario J.

Valdés, 1991. A work encompassing the range of Ricoeur's thought, looking at his contributions to literary theory and marking his place within the tradition of hermeneutics and the phenomenology of philosophy. Areas addressed are Structuralism and Post-Structuralism and the dialect of engagement. Encyclopedia of Contemporary Literary Theory Irene Rima

Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline. As with any body of scholarship, various schools of thought exist and sometimes conflict within it. I. R. Makaryk has compiled a welcome guide to the field. Accessible and jargon-free, the *Encyclopedia of Contemporary Literary Theory* provides lucid, concise explanations of myriad approaches to literature that have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose. The essays also discuss the uses and limitations of the various schools and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars, not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant complex terms, places them in context, and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini-bibliographies, and cross-referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture. **Qualitative Health**

Hall, 2012-08-06 *Reading Sexualities* confronts the reigning practices, priorities and preoccupations of queer theory and sexuality studies. Looking at a range of texts from novels to travel narratives to internet porn, Donald E. Hall deftly weaves the theoretical with the literary in order to examine the vexed ethical, critical and political questions arising from sexual consumerism and cross-cultural encounters. Reading the changing landscape of sexual identity, finding great cause for optimism and enthusiastic engagement, urge readers to embrace a far-reaching dialogic practice as a mechanism for furthering radical social change. *Reading Sexualities* shows how our sexual desires and bases for identification are being widely challenged and changed. Drawing on hermeneutic theory and the work of Hans Georg Gadamer, Hall argues that by approaching sexual diversity with openness and humility, we become active participants in the politically urgent process of reading the self through the perspective of the other.

Contingency and Commitment Carlos Alberto Sánchez, 2015-12-23 This book examines the emergence of existentialism in Mexico in the 1940s and the quest for a genuine Mexican philosophy that followed it. It focuses on the pivotal moments and key figures of the Hyperion group, including Emilio Uranga, Luis Villoro, Leopoldo Zea and Jorge Portilla, who explored questions of interpretation, marginality, identity and the role of philosophy. Carlos Alberto Sánchez was the first to introduce and emphasize the philosophical significance of the Hyperion group to readers of English. In *The Suspension of Seriousness* and in the present volume, he examines its legacy and relevancy for the twenty-first century. Sánchez argues that there are lessons to be learned from Hyperion's project not only for Latino life in the United States but also for the lives of those on the fringes of contemporary postmodern or postcolonial economic, political and cultural power.

Women, Feminism and Media Sue Thornham, 2007-05-30 Over the past few decades, feminist media scholarship has flourished to become a major influence on the fields of media, film and cultural studies. At the same time, the cultural shift towards post-feminism has raised questions about the continuing validity of feminism as a defining term for this work. This book explores the changing and often ambivalent relationship between the three terms: women, feminism and media, in the light of these recent debates. At the same time, it places them within the broader discussions within feminist theory about subjectivity, identity, culture and narrative, of which they have formed a crucial part. The book is organised around four key topic areas: *Fixing into Images* offers a rethinking of one of the first preoccupations of feminist media analysis, the relationship between women and images; *Narrating Femininity* explores the narratives of femininity produced in media texts in the light of theories of narrative and identity; *Real Women* examines both the continuing absence of women's voices from the genres of news and documentary and their over-presence within popular reality media forms. Finally, *Technologies of Difference* examines the relationship between feminism, women and new media technologies. Throughout the book, it explores key issues within feminist media studies, both through specific examples and via critical engagement with the work of major theoretical writers. Features: A completely up-to-date study of the key areas of issue and debate in feminist media studies. Includes case studies and discussion of the work of key writers in the field. Contains readings of specific texts.
