

WILLIAM LEAST HEAT-MOON

An aerial photograph of a river winding through a lush green valley. The river is a bright, silty white color, contrasting sharply with the deep green of the surrounding forested hills. The river starts in the foreground, curves to the right, then back to the left, and continues into the distance. The hills are covered in dense vegetation, and the overall scene is captured from a high angle, looking down on the landscape.

designed to illustrate Maximilian's journals now rank among the great treasures of nineteenth century American art. This lavishly illustrated book juxtaposes Bodmer's landscape images with modern day photographs of the same views, allowing readers to see what has changed and what seems unchanged since the time Maximilian and Bodmer made their storied trip up the Missouri River. To discover how the areas Bodmer depicted have changed over time, photographer Robert M. Lindholm and anthropologist W. Raymond Wood made several trips over a period of years from 1985 to 2002 to locate and record the same sites all the way from Boston Harbor where Maximilian and Bodmer began their journey to Fort McKenzie in modern day western Montana. Pairing sixty-seven Bodmer works side by side with Lindholm's photographs of the same sites, this volume uses the comparison of old and new images to reveal alterations through time and the encroachment of a built environment across diverse landscapes. Karl Bodmer's *America Revisited* is at once a tribute to the artistic achievements of a premier landscape artist and a photographer who followed in his footsteps and a valuable record of America's ever-changing environment.

What the River Carries Lisa Knopp, 2012-05-18

In this informed and lyrical collection of interwoven essays, Lisa Knopp explores the physical and cultural geography of the Mississippi, Missouri, and Platte rivers she has come to understand and cherish. At the same time, she contemplates how people experience landscape, identifying three primary roles of environmental perception: the insider, the outsider, and the outsider seeking to become an insider. Viewing the waterways through these approaches, she searches for knowledge and meaning. Because Knopp was born and raised just a few blocks away, she considers the Mississippi from the perspective of a native resident, a dweller in the land. She revisits places she has long known: Nauvoo, Illinois, the site of two nineteenth-century utopias, one Mormon, one Icarian; Muscatine, Iowa, once the world's largest manufacturer of pearl mussel shell buttons and the mysterious prehistoric bird and bear-shaped effigy mounds of northeastern Iowa. On a downriver trip between the Twin Cities and St. Louis, she meditates on what can be found in Mississippi river water: state lines, dissolved oxygen, smallmouth bass corpses, family history, wrecked steamboats, mayfly nymphs, toxic perfluorinated chemicals, philosophies. Knopp first encountered the Missouri as a tourist and became acquainted with it through literary and historical documents as well as stories told by longtime residents. Her journey includes stops at Fort Bellefontaine where Lewis and Clark first slept on their sojourn to the Pacific; Little Dixie, Missouri, a slaveholding hemp-growing region as revealed through the life of Jesse James's mother; Fort Randall Dam and Lake Francis Case, the construction of which destroyed White Swan on the Yankton Sioux Reservation; and places that produced unique musical responses to the river, including Native American courting flutes, indie rock, Missouri River valley fiddling, Prohibition-era jazz jam sessions, and German folk music. Knopp's relationship with the Platte is marked by intentionality: she settled nearby and chose to develop deep and lasting connections over twenty years residence. On this adventure, she ponders the half-million sandhill cranes that pass through Nebraska each spring, the ancient varieties of Pawnee corn growing at the Great Platte River Road Archway Monument, a never-broken tract of tallgrass prairie, the sugar beet industry, and the changes

in the river brought about by the demands of irrigation In the final essay Knopp undertakes the science of river meanders consecutive loops of water moving in opposite directions which form around obstacles but also develop in the absence of them What initiates the turning that results in a meander remains a mystery Such is the subtle and interior process of knowing and loving a place What the River Carries asks readers to consider their own relationships with landscape and how one can most meaningfully and responsibly dwell on the earth's surface

Water Borne Dan Rubinstein, 2025-06-10 An unconventional SUP journey to discover how embracing blue space could improve our lives and our world In June 2023 writer Dan Rubinstein lashed camping gear to his stand up paddleboard and embarked on an improbable solo voyage from Ottawa to Montreal New York City Toronto and back to Ottawa along the rivers lakes and canals of a landlocked region Over 1 200 miles and 10 weeks he explored the healing potential of blue space the aquatic equivalent of green space and sought out others drawn to their local waters But the farther Rubinstein paddled the more he realized that being in on or around water does more than boost our mental and physical health and prompt stewardship toward the natural world He discovered that blue spaces are also a way to connect with the kaleidoscopic cross section of people he met and the diverse geographies and communities he passed through Weaving together research interviews and an unmacho malodorous anticolonial adventure tale *Water Borne* shows us that we don't need an epic journey to find solutions to so many modern challenges Repair and renewal may be close at hand just add water

Voyage of Rediscovery John Krist, 2004 More than two centuries ago President Thomas Jefferson sent a hardy band of explorers on an unparalleled voyage of discovery across uncharted America Members of the Lewis and Clark expedition were the first U.S. citizens to cross the Continental Divide the first to reach the Pacific by land the first to map the landscape that would someday become central to the nation's identity They also were the last to describe the West before it underwent radical change at the hands of traders trappers soldiers and settlers As the 2003-2006 bicentennial of the expedition approached veteran journalist John Krist set out to retrace the explorers' path hoping to answer a few deceptively simple questions What is it like on the trail today What was it like 200 years ago What can we learn about the West and about the nation itself by examining it through the unique lens of the explorers' journals and letters *Voyage of Rediscovery* interweaves tales from the trail with analysis of some of the most compelling environmental issues facing the region Mixing adventure history science and sorrow it paints an evocative portrait of the modern American West and the people who call it home

Threading a Kayak down the Mississippi Dennis Van Norman, 2023-08-01 In 2005 Dennis Van Norman climbed into a kayak for the first time to spend an afternoon Huck Finning down the Mississippi River with his son and grandson Little did he know that what started as an innocent eight mile kayaking introduction would eventually become a passion or an addiction He spent thirteen years from his sixties through his mid seventies kayaking the length of the Mississippi bit by bit traveling more than 2 500 river miles from northern Minnesota to the southern tip of Louisiana in a boat built for one *Threading a Kayak down the Mississippi* is the story of how one

traveler fully experienced and embraced the Mississippi River and its surroundings In the vein of Jonathan Raban s Old Glory Dennis s account casts light on the Mississippi River s history geography and sociology but it is a book about more than the river itself it s also about the individuals and characters living along the Mississippi s shores From the local foods and music to the customs and history each experience is sandwiched between moments of pure serenity and those of sheer terror This is the story of a journey of discovery on the country s most celebrated waterway and an exploration of the wonderment joy and fear that will inevitably grab hold of you when you re sitting alone in a fourteen foot plastic boat on America s greatest river

Riverine Dreams George Frazier,2025-10-03 The inspirational story of grassland rivers and the people who paddle and protect them The North American grasslands that once covered vast areas of the central United States are now our most endangered ecosystems But not far from any spot in the grasslands is a river Grassland rivers are as central to the story of prairies as bison and bluestem Defined as rivers that drain prairie watersheds these waterways are crucial to plains ecosystems and no less endangered than the grasslands surrounding them They are also enigmatic some are restricted by local access laws and others have simply been forgotten In any given year fewer than a dozen people might lay eyes on tens of thousands of miles of America s grassland rivers But as environmental writer George Frazier shows following their twists and turns is one of the best ways to experience the wild essence of the prairies Riverine Dreams invites us on a trip along eight grassland rivers including the Missouri the Niobrara and Purgatoire traversing their environmental and cultural histories and introducing us to the people who study paddle and conserve them This journey takes Frazier across the North American interior from Montana and Colorado to Nebraska and Missouri where he uncovers a remarkable movement to celebrate and preserve these natural treasures nothing less than a grassland river revival The first accessible introduction to these waters Riverine Dreams is a personal exploration of the rivers that are so vital to the health of the prairies

Reading Portland John Trombold, Peter Donahue, 2017-08-24 Reading Portland is a literary exploration of the city's past and present. In over eighty selections, Portland is revealed through histories, memoirs, autobiographies, short stories, novels, and news reports. This single volume gives voice to women and men, the colonizers and the colonized, white, Hispanic, African American, Asian American, and Indian storytellers, and lower middle and upper classes. In his introduction, John Trombold considers the history of writing about a place that has nourished a provocative and errant literary tradition for over 150 years. In the preface, Peter Donahue considers the influence of region, particularly Portland's urbanity and its hybrid population, on literature. Included here are the voices of Carl Abbott, Kathryn Hall Bogle, Beverly Cleary, Robin Cody, Lawson Fusao Inada, Rudyard Kipling, Ursula K. Le Guin, Joaquin Miller, Sandy Polishuk, Gary Snyder, Kim Stafford, Elizabeth Woody, and many more.

Ecospatality Lowell Wyse, 2021-07-15 John Steinbeck's Salinas Valley, Richard Wright's Chicago, Leslie Marmon Silko's New Mexico: Readers often have strong connections with literary places like these. And some works of literature can even change our understanding of the world we live in. But can place also change our view of literature? Site Reading advances a place-based approach to literature reading: classic texts through the twin lenses of geographical awareness and environmental thought. This book highlights recent developments in ecocriticism and geocriticism to argue for a theory of ecospatality with nature, space, and story as the three elements of place. Site Reading reconsiders well-known works of twentieth-century American prose and shows how social and environmental issues always overlap. Travel writer William Least Heat Moon, whose work embodies the ecospatial perspective, portrays his experiences with place on the local, regional, and continental scales. Classic novels by Silko, Willa Cather, and Ana Castillo, usually discussed in isolation, converge in a way that maps diverse cultural perspectives and environmental threats onto the shared geography of Central New Mexico. A reading of Steinbeck's Salinas Valley Watershed texts investigates the impacts of literary tourism in Steinbeck Country before drilling down into Steinbeck's portrayals of spatial development and environmental history. And an innovative analysis of *Native Son* shows how Richard Wright uses cartographic details to decry the spatial racial politics of South Side Chicago in the 1930s. In this book, Lowell Wyse shows how place provides the grounds for both human experience and critical practice. By bringing together concepts like literary cartography, deep mapping, and bioregionalism in an ecospatial approach, Site Reading not only maps new terrain between ecocriticism and geocriticism but also shows why place matters in the world and in the text.

Rivers of the World James Penn, 2001-12-12 *Rivers of the World*, vividly written and meticulously researched, is a rich and thorough treatment of some 200 of the world's rivers. In this comprehensive treatment of the major rivers of the world, author James R. Penn's purpose is not just to feature geographic data but to tell a story of historical drama, poetic significance, and cultural relationships. The book shows glimpses of Chairman Mao boosting his image by swimming in the Yangtze, Indian middlemen residing on both sides of the Columbia River exacting tolls from travelers like Lewis and Clark, and near the Dordogne in southwest France.

Paleolithic cave art paintings and designs in rock shelters and subterranean caverns which are textbook examples of early human creativity and artistic impulse In nearly 200 entries ranging from a few paragraphs to several pages Rivers of the World covers all of the great rivers of the world including the Nile Niger Amazon and Mississippi as well as smaller waterways that illustrate important themes or represent trends The book includes bibliographies for each river
