Dillingham, 2016-04-30 Being Kipling exposes Rudyard Kipling s identity as he himself perceived it through the lens of a collection of works composed over a period of years and brought together in the volume Land and Sea Tales for Scouts and Guides Dillingham uses this extraordinary collection ostensibly put together for the inspiration of Boy Scouts and Girl Guides and frequently ignored by critics and biographers to offer rare insight into formative events from Kipling s youth that shaped his personality and made him the man and writer that he became The

eight stories eight poems and three essays of *Land and Sea Tales for Scouts and Guides* are all examined closely both for what they reveal about Kipling's life and worldview and for their rarely perceived but considerable literary merit

A Language of Things Devin P. Zuber, 2020-01-01 Long overlooked the natural philosophy and theosophy of the Scandinavian scientist turned mystic Emanuel Swedenborg 1688-1772 made a surprising impact in America Thomas Jefferson while president was so impressed with the message of a Baltimore Swedenborgian minister that he invited him to address both houses of Congress But Swedenborgian thought also made its contribution to nineteenth century American literature particularly within the aesthetics of American Transcendentalism Although various scholars have addressed how American Romanticism was affected by different currents of Continental thought and religious ideology surprisingly no book has yet described the specific ways that American Romantics made persistent recourse to Swedenborg for their respective projects to re-enchant nature In *A Language of Things* Devin Zuber offers a critical attempt to restore the fundamental role that religious experience could play in shaping nineteenth century American approaches to natural space By tracing the ways that Ralph Waldo Emerson John Muir and Sarah Orne Jewett among others variously responded to Swedenborg Zuber illuminates the complex dynamic that came to unfold between the religious the literary and the ecological *A Language of Things* situates this dynamic within some of the recent new materialisms of environmental thought showing how these earlier authors anticipate present concerns with the other than human in the Anthropocene

Lydia Maria Child Lydia Moland, 2024-05-31 Now in paperback a compelling biography of Lydia Maria Child one of nineteenth century America's most courageous abolitionists By 1830 Lydia Maria Child had established herself as something almost unheard of in the American nineteenth century a beloved and self-sufficient female author Best known today for the immortal poem *Over the River and through the Wood* Child had become famous at an early age for spunky self-help books and charming children's stories But in 1833 Child shocked her readers by publishing a scathing book-length argument against slavery in the United States a book so radical in its commitment to abolition that friends abandoned her patrons ostracized her and her book sales plummeted Yet Child soon drew untold numbers to the abolitionist cause becoming one of the foremost authors and activists of her

generation Lydia Maria Child *A Radical American Life* tells the story of what brought Child to this moment and the extraordinary life she lived in response Through Child's example philosopher Lydia Moland asks questions as pressing and personal in our time as they were in Child's What does it mean to change your life when the moral future of your country is at stake When confronted by sanctioned evil and systematic injustice how should a citizen live Child's lifetime of bravery conviction humility and determination provides a wealth of spirited guidance for political engagement today
