BROWN COUNTS (JUDITH K. CAMPBELL, JACQUELYN C.), Judith K Brown, Jacquelyn C Campbell, 2019-05-31 Bringing together evidence from 15 Western and non Western societies ranging from hunter gatherers to urban Americans this book examines wife beating from a worldwide perspective Cross cultural comparison aims to give a more accurate picture of cultural influences on wife battering and to show the commonalities and differences of the phenomenon **Encyclopedia of Violence, Peace, and Conflict** Lester R. Kurtz, Jennifer E. Turpin, 1999-08-10 The Encyclopedia of Violence Peace and Conflict a three volume set written by more than 200 eminent contributors from around the world takes advantage of increasing worldwide awareness in the public private commercial and academic sectors about manifestations of violence in all segments of society While the contributors do not use these volumes to make specific arguments they do describe and clarify the developments in thought that have led to current theories about and positions on violence and peace Our reviewers consistently note that while many in depth studies of war peace and aggression exist the attendant specialization keeps scholars from learning about related fields No publication competing with the Encyclopedia of Violence Peace and Conflict can satisfy their need for a vast introductory work to such a diverse and socially important field This major work includes more than 190 multidisciplinary articles with over 1 000 cross references and more than 2 000 bibliography entries for further reading which are arranged alphabetically for easy access More than 190 multidisciplinary articles with over 1 000 cross references Article outline and glossary of key terms begin each article Entries arranged alphabetically for easy access Three volume set with subject index of over 750 entries Articles written by more than 200 eminent contributors from around the world *To Have and to Hit* Dorothy Ayers Counts, Judith K. Brown, Jacquelyn Campbell, 1999 This vitally important volume places the problem of wife beating in a broad cultural context in a search for strategies to reform societies including our own that are prone to this pernicious form of violence Based on first hand ethnographic data on more than a dozen societies including a number in Oceania this collection explores the social and cultural factors that work either to inhibit or to promote domestic violence against women The volume also includes a study of abuse among nonhuman primates and a cross cultural analysis of the legal aspects of wife beating By presenting counterexamples from other cultures contributors challenge Western assumptions about the factors leading to wife beating Through a close examination of societies where wife beating is infrequent or absent *To Have and To Hit* identifies the factors economic social political and cultural that must be explored and transformed in order to combat this violence and eventually eliminate it **Women and**
