Sans Moi:

Speech and Thought Presentation in French Sophie Marnette, 2005-08-18 This book analyses and describes Speech and Thought Presentation S TP in French from a broad theoretical perspective building bridges between linguistic stylistic and narratological frameworks that have until now been developed separately It combines the French th orie de l nonciation and different Anglo Saxon approaches of reported discourse into a harmonious whole in order to create a new and exciting paradigm for our conception of S TP strategies Basing its findings on actual corpora and going beyond the canonical categories of reported discourse it shows that the study of S TP strategies is essential to our understanding of phenomena as diverse as the evolution and categorization of literary genres the production and staging of orality in literature the various conceptualizations of the notion of Truth in fiction and non fiction the expression of points of view in narrative the structuring of rhetorical strategies and the construction of the Self versus the representation of the Other in discourse MLN, 1912

Unselfing Michaela Hulstyn, 2022-08-31 Altered states of consciousness including experiences of deprivation pain hallucination fear desire alienation and spiritual transcendence can transform the ordinary experience of selfhood Unselfing explores the nature of disruptive self experiences and the different shapes they have taken in literary writing The book focuses on the tension between rival conceptions of unselfing as either a form of productive self transcendence or a form of alienating self loss Michaela Hulstyn explores the shapes and meanings of unselfing through the framework of the global French literary world encompassing texts by modernist figures in France and Belgium alongside writers from Algeria Rwanda and Morocco Together these diverse texts prompt a re evaluation of the consequences of the loss or the transcendence of the self Through a series of close readings Hulstyn offers a new account of the ethical questions raised by altered states and shows how philosophies of empathy can be tested against and often challenged by literary works Drawing on cognitive science and phenomenology Unselfing provides a new methodology for approaching texts that give shape to the fringes of conscious experience **Art as experience of the living body / L'art comme experience du corps vivant**

Christine Vial Kayser, 2024-01-23 This book analyses the dynamic relationship between art and subjective consciousness following a phenomenological pragmatist and enactive approach It brings out a new approach to the role of the body in art not as a speculative object or symbolic material but as the living source of the imaginary It contains theoretical contributions and case studies taken from various artistic practices visual art theatre literature and music Western and Eastern the latter concerning China India and Japan These contributions allow us to nourish the debate on embodied cognition and aesthetics using theory philosophy art history neuroscience and the authors personal experience as artists or spectators According to the Husserlian method of reduction and pragmatist introspection they postulate that listening to bodily sensations cramps heartbeats impulsive movements eye orientation can unravel the thread of subconscious experience both active and affective that emerge in the encounter between a subject and an artwork an encounter which following John Dewey we deem to be a

case study for life in general Ce livre analyse la relation dynamique entre l'art et la conscience subjective selon une approche phénoménologique pragmatiste et enactive Il vise faire merger une nouvelle approche du rôle du corps dans l'art non pas comme objet spéculatif ou matériau symbolique mais comme source vivante de l'imaginaire Les contributions théoriques et les études de cas sont prises diverses pratiques artistiques arts visuels théâtre littérature et musique occidentales et orientales ces dernières concernant la Chine l'Inde et le Japon Selon la méthode husserlienne de réduction en choix l'introspection pragmatiste les textes témoignent que l'écoute des sensations corporelles crampes battements de cœur mouvements pulsionnels orientation des yeux mises en jeu par l'œuvre permet de dénouer le fil de l'expérience inconsciente la fois kinesthésique et affective qui merge dans la rencontre entre un sujet et une œuvre d'art une rencontre comprise la manière de Dewey comme un cas d'école de la vie en général
