Gender and Religion William H. Swatos. Jr,2021-09-28 Few areas in American life have experienced as profound a change in structure and mission as religion in this epoch of women s struggle for complete equality and integration Until recently few studies have attempted the sort of empirical and theoretical integration that reveals the magnitude of this shift in basic roles attitudes and participation in church life The author has assembled a well designed and carefully defined volume to give the reader a solid empirical look at this revolution in religious practice and belief It also provides an insight into the sharp differences in opinions among women involved in religion the degree to which women change the structure if liturgy or simply partake of traditions from which they were formally excluded the extent to which women increase church involvement in social issues or retain a classical orientation to preaching the extent to which gender has an impact on everything from interpersonal relations of clergy with laity to preaching orientations

Negotiating Masculinity and Identity as a Jewish British Male Anthony J. S. Nicholls,2023-08-26 In this book Dr Anthony Nicholls uses a series of in depth interviews to investigate how young Jews talk about their Jewishness Britishness and masculinity From his analysis he argues that Jewishness is constructed between adherence to halachic requirement on one hand and Jewishness experienced as cultural affinity to history family and tradition without recourse to halacha on the other hand He further argues that Britishness is experienced between varying degrees of nationalistic localism against cosmopolitan liberalism played out against a backdrop of Britain contrasted with the rest of the world and also London against the rest of Britain Nicholls rejects the view that masculinity is constructed in the inherently unstable terms of physicality against intellectualism Instead he argues that it is better considered as lying in a range between competitive
