Field, Benson Hecker, **What's Wrong with the Poor?** Mical Raz, 2013-11-11 In the 1960s policymakers and mental
health experts joined forces to participate in President Lyndon Johnson's War on Poverty In her insightful interdisciplinary
history physician and historian Mical Raz examines the interplay between psychiatric theory and social policy throughout
that decade ending with President Richard Nixon's 1971 veto of a bill that would have provided universal day care She shows
that this cooperation between mental health professionals and policymakers was based on an understanding of what poor
men women and children lacked This perception was rooted in psychiatric theories of deprivation focused on two overlapping
sections of American society the poor had less and African Americans disproportionately represented among America's poor
were seen as having practically nothing Raz analyzes the political and cultural context that led child mental health experts
educators and policymakers to embrace this deprivation based theory and its translation into liberal social policy Deprivation
theory she shows continues to haunt social policy today profoundly shaping how both health professionals and educators
view children from low income and culturally and linguistically diverse homes
