

A scenic view of a mountain valley. On the left, a dark, jagged rocky peak rises sharply. The background shows a vast valley with a river winding through it, surrounded by green trees and distant mountain ranges under a hazy sky.

A mind whose acts and sentiments and ideas are not distinct and successive, one that is wholly simple and totally immutable, is a mind which has no thought, no reason, no will, no sentiment, no love, no hatred; or, in a word, is no mind at all.

Sentiments And Acts:

Sentiments and Acts Irwin Deutscher, Fred P. Pestello, H. F. Pestello, 2021-03-22 No detailed description available for Sentiments and Acts

What We Say/what We Do Irwin Deutscher, 1973 This book has some of the qualities of a detective story and of a drama As a drama it resembles a dialogue between the author and his friends and foes The book has a beginning middle and end that do not correspond to the economical but quite a historical character of most scientific writing where the literature is reviewed and problems stated the evidence presented and a conclusion reached Instead the beginning is an account of the author's confrontation with a nagging persistent and perhaps ultimately insoluble problem that faces every honest researcher can we explain behaviour by giving evidence of attitudes The middle develops new leads and materials but never abandons the central characters of the first act The end in Pirandello fashion leaves us with a feeling of illumination but illumination of the essential paradoxes and difficulties not the light that breaks on a heroic solution

What we say/what we do Irwin Deutscher, 1973

Human Emotions and the Origins of Bioethics Susi Ferrarello, 2020-12-06 This book provides a unique phenomenological dialogue between psychology and philosophy on the origin of bioethics that shows the importance of bringing emotions into bioethical discourse Divided into two parts the book begins by defining bioethics and explaining the importance of emotions in making us human allowing us to consider life holistically Ferrarello argues that emotions and bioethics are better served when they are combined and that dismissing emotions as nothing more than a nuisance to our rationality has created a society that does not fit our human nature Chapters explore how ethics relate to intimate life and how ethical agents determine themselves within their surrounding world uniquely and interrogatively using bioethics to consider not only medical dilemmas but also issues concerning environmental and individual well being By addressing personal interpersonal and societal problems as dynamically interconnected in bioethical problems she helps us to renew our sense of responsibility toward a good quality of life This interdisciplinary book is invaluable reading for students of health science psychology and philosophy as well as for those interested in the link between emotions and bioethical discourse from both a psychological and philosophical perspective

The Ontological Foundation of Ethics, Politics, and Law Francesco Belfiore, 2013-03-25 The revised edition of The Ontological Foundation of Ethics Politics and Law adds new concepts and discusses the views of additional thinkers The author refers to his basic ontological conception of the human mind or spirit as an evolving conscious triadic entity composed of intellect sensitivity and power each exerting a bidirectional selfish and moral activity Through this approach the notions of good morality society and law are derived from the structure and functioning of the mind It follows that the solutions presented are the results of a discovery and not the consequence of a choice Otherwise stated ethics politics and law are given an ontological foundation For each topic considered Belfiore shows how his thought can reinterpret the views of other philosophers This new edition enriched in concepts and quotations appears as an innovative and highly stimulating

contribution to the philosophical branches of ethics politics and law and will be of interest to both graduate students and philosophy scholars Handbook of the Social Psychology of Inequality Jane D. McLeod, Edward J. Lawler, Michael Schwalbe, 2014-08-18 This volume provides the first comprehensive overview of social psychological research on inequality for a graduate student and professional audience Drawing on all of the major theoretical traditions in sociological social psychology its chapters demonstrate the relevance of social psychological processes to this central sociological concern Each chapter in the volume has a distinct substantive focus but the chapters will also share common emphases on The unique contributions of sociological social psychology The historical roots of social psychological concepts and theories in classic sociological writings The complementary and conflicting insights that derive from different social psychological traditions in sociology This Handbook is of interest to graduate students preparing for careers in social psychology or in inequality professional sociologists and university college libraries **Introduction to Ethics** Théodore Jouffroy, 1860 **The Triadic Structure of the Mind** Francesco Belfiore, 2016-11-17 In this third edition of *The Triadic Structure of the Mind* Francesco Belfiore begins from the basic ontological conception of the structure and functioning of the mind or spirit as an evolving conscious triad composed of intellect sensitiveness and power each exerting a selfish and a moral activity Based on this original concept of the triadic bidirectional and evolving mind Belfiore has developed a coherent philosophical system through which he offers fresh solutions in the fields of ontology knowledge language aesthetics ethics politics and law The present third edition like the previous one includes an extensive treatment of the topics addressed as well as the quotation of the views of the major thinkers whose thought has been discussed and reinterpreted In addition new concepts have been introduced some passages have been clarified and the style has been improved in several points The result is an original and exhaustive book which will be of interest to all philosophy scholars Else Voigtländer: Self, Emotion, and Sociality Ingrid Vendrell Ferran, 2023-01-01 This book is the first to offer a full account of the philosophical work of Else Voigtländer Locating the sources of her thought in the philosophy and psychology of the nineteenth and twentieth 19th and 20th centuries in figures such as Nietzsche and Lipps the volume book uncovers and examines Voigtländer's intellectual exchanges with both phenomenology and psychoanalysis The major themes within her work are considered in 12 expertly written chapters that also cover more recent developments in the philosophy of self emotion and sociality The book appeals to scholars who are interested in the history of philosophy and in particular of phenomenology as well as those working on the philosophical roots of psychology and in women's studies *Introduction to Ethics* Théodore Simon Jouffroy, 1840
